Anticipating Florida United Numismatists Show

Sight-Unseen Market Still Soft

Marking the beginning of the numismatic year, the 60th annual F.U.N. Show, held in Orlando, January 8-11, will include an auction by Heritage, scheduled to take place January 7-13. We have included several highlights from this sale herein. Dealer-to-dealer trading has certainly picked up recently as sight-unseen exchanges have surpassed \$380K this past week. Precious metals have made some real headway too. Gold hurdled the \$1,200 per ounce mark for the first time since mid-December. Silver jumped above \$16.20, which also hasn't happened since mid-December. Platinum remains over \$1,200 per ounce, and Palladium is currently at \$804.

The chief issue declining this week in the Classic Silver Commems segment is the 1920 Maine Centennial at the MS67 level, as a PCGS graded specimen with a CAC sticker hampered for \$2,235, which represents the lowest auction result in over a decade. There have been 22 coins in this grade to receive CAC approval. Looking to upcoming auction activity, a coin that rises above the crowd is a 1926 Sesquicentennial graded NGC+★/CAC MS66. Sporting the trifecta of endorsements (Plus, Star, CAC), this coin is the finest known of the Type, and is sure to attract specialists of the series.

Mint State Type coins brought mixed results during the last two public auctions of 2014. An 1854 With Arrows Seated Liberty Quarter graded NGC MS64 realized \$1,300 against a sight-unseen Bid of \$1,500. Several big ticket coins, specifically high grade Early Dollars failed to meet their reserve and did not sell. However, fresh and original coins that displayed colorful, eye-catching toning set records. A major Seated Liberty Dollar rarity, a PCGS/CAC MS63 certified 1852 hits the auction block next week. With a Mint State combined population of 26 (some of which are duplicate submissions), this date is one of the obvious keys to this challenging series.

A gorgeous golden toned pop 14 and none finer 1878 7TF Rev. of '78 Dollar graded MS65DMPL by PCGS took home a whopping \$8,000 in a past David Lawrence internet auction. Also doing well through a recent on-line sale was an 1882-CC Morgan graded MS67 by PCGS swiping up \$6,800. Two attractively toned MS67 GSA Dollars graded by NGC will hope to bring some serious Bidders to Orlando—an 1883-CC with a census pop of 28 and an 1884-CC having a Star designation and a census pop of 27. Having a pop

of four with none finer is an 1898 Proof Morgan Dollar graded PR68 Cameo by NGC which will be up for grabs at the F.U.N. Show. PCGS common date Morgan Dollars in MS65 are seeing a bit of a downfall now at a sight-unseen Bid of \$107. A first year 1921 Peace Dollar graded MS66 by PCGS will be making its way to the auction block in Florida, this having a pop of 171 with seven finer.

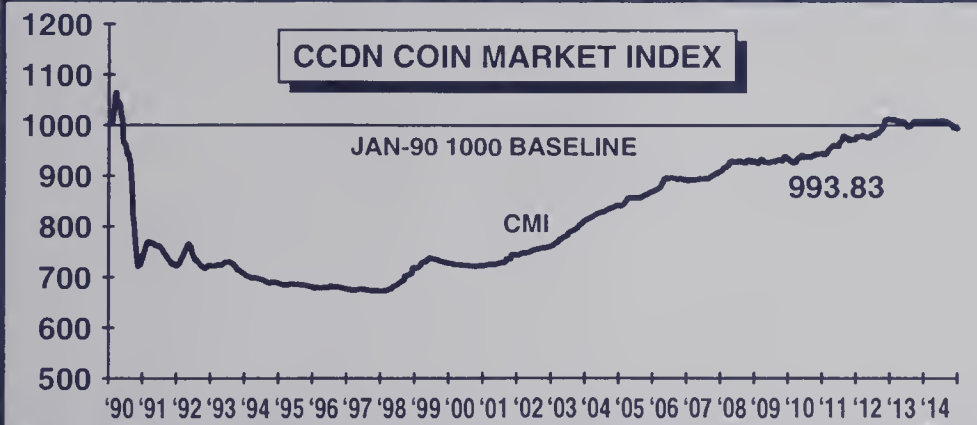

Stack's Bowers saw a nicely minted 1921 Buffalo graded MS63 by PCGS take home \$1,000 in a recent internet auction. Buffaloes dated 1915-D in MS63 by NGC have dropped 9% since our last issue, and are now at a sight-unseen Bid of \$195. A beautifully rainbow toned 1938-D Buffalo Nickel graded MS68★ by NGC will look to find a new home after the F.U.N. Show in Orlando. This coin only has a pop of 17 at this grade level and is one of nine awarded the star designation.

Mercury Dimes are anything but restful as common Full Banded examples in Gem scale back a couple dollars amid fervent sight-unseen Bidding for earlier years in the lower ranks of Mint State. 1916-D Merces will be featured heavily in next week's upcoming sale in Orlando as nine come up for grabs including two wonderful Mint State examples.

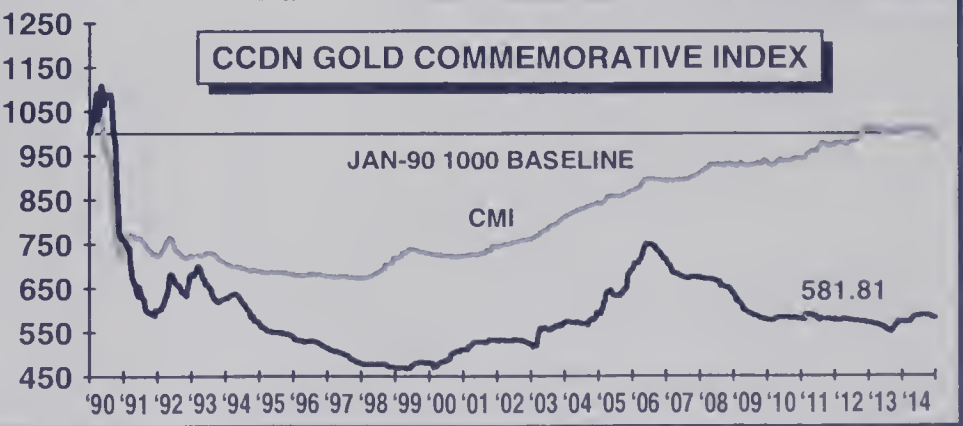

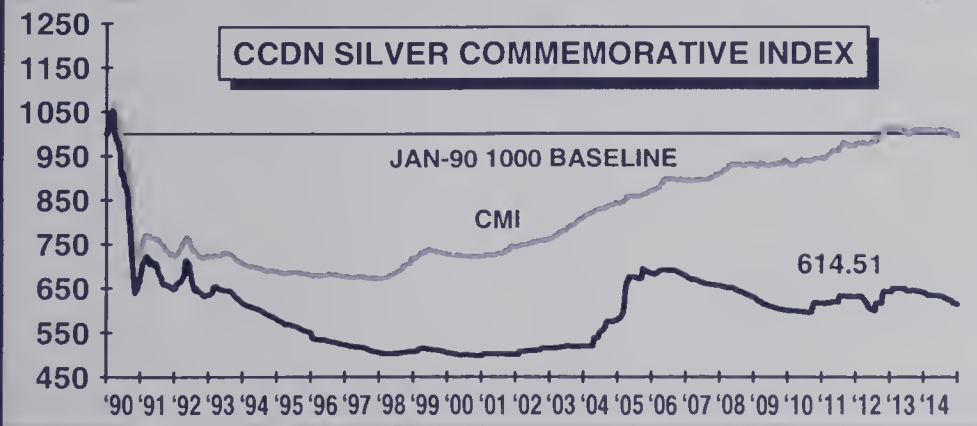

Singles of Proof Walkers encountered a trivial amount of short selling with a smattering of dates selling below sight-unseen Bid. One such case was where a dealer let go of a prime 1939 NGC piece in Choice for a sale price of \$330 when Bidders are paying 6% more blindly. More severe cases took place for Mint State examples in PCGS where two pieces in Gem took in rather disappointing hauls when a 1942-D Half sold for \$141, 17% shy of Bid and 1943-D came up with only \$112 when dealers are forking over 25% more without looking. Nevertheless, Proof Walkers continue to be the strongest segment of all Singles reported with consistent activity at Bid.

In addition to the F.U.N. Show, there are several other shows and auctions coming up to kick off the year. For example, the 43rd annual New York International Numismatic Convention is scheduled for January 8-11 at the Waldorf Astoria Hotel. Multiple auction companies will hold sales at this show, including Heritage and Stack's Bowers. San Jose Coin Club's 47th annual show is set to take place January 23-25. The Long Beach Expo is up next, running January 29-31 with an auction by Heritage.

CAC Jumps to New Milestone

CAC has once again jumped a new milestone - the evaluation of over 650,000 coins with a market value of over \$2.9 billion.

CAC was established seven years ago by leading members in the numismatic industry who recognized the need for a higher level of grading. Today, CAC has over 1,400 registered members and continues to experience impressive growth.

CAC's green sticker is trusted by dealers and collectors, signifying the mark of quality within a grade. That's because CAC only awards the green sticker to coins that meet its stringent standards. What's more, CAC provides liquidity to the market, having purchased coins in excess of \$375,000,000 since its inception.

Coins honored with the CAC sticker make it easy to identify those that are truly solid for the grade. Want confidence? Look for the green sticker.

FUN Time In The Sunshine State

Hiccup For Choice Morgans

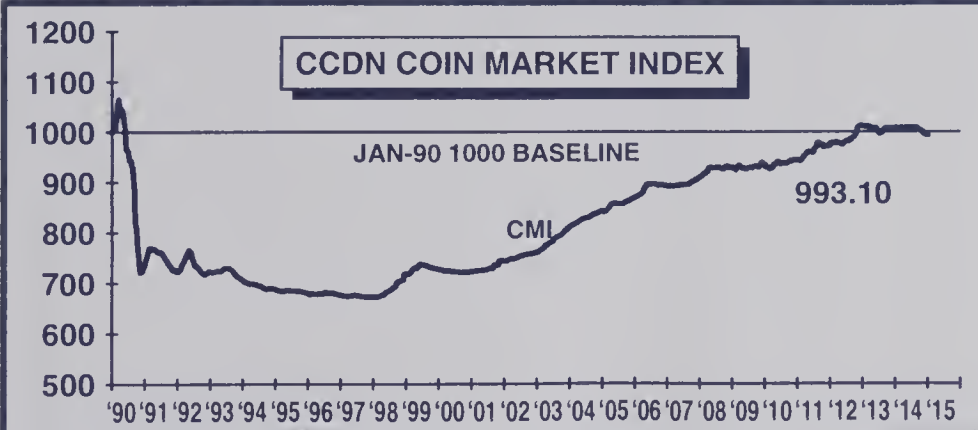

As expected, wholesale dealer-to-dealer trading on the electronic networks is down dramatically since many market participants are at the F.U.N. Show and will often reduce or remove their active Bids so as not to overextend their credit. Having readily available funds for those hot deals is extremely important, especially at large, long-running shows. Even with remarkably low oil prices, precious metals are holding onto decent levels. Gold is currently over \$1,200 an ounce; Silver is strongly over \$16; Platinum remains near \$1,220; and Palladium over \$790. This year's bellwether F.U.N. Show auction by Heritage has some competition with itself as last year's auction total was a very strong \$73 million. PNG released their survey of major numismatic auction companies which tallied up a massive \$536 million for 2014's compiled total of auction prices realized. Most dealers are optimistic about the current market, so all eyes are on Florida for an indication of this optimism panning out, even with a softer sight-unseen market which has been trending down for the last six months, and this week's report is no different with minus signs dominating.

A number of high grade Washington-Carver Commems traded hands at prices up to 35% below the prevailing sight-unseen Bid. For example, a 1952 graded NGC MS66 realized \$106 against a \$164 Bid and another 1952, this one graded PCGS MS65, brought \$31 versus a \$42 Bid. Sight-unseen Bidding underpins the Classic Gold Commems market segment, and recent online weekly auction results have been comfortably above the current Bid levels. PCGS graded MS67 Shield Nickels take a step down to \$2,700 Bid after an 1883-dated example hammered for \$2,957 in an online weekly retail auction. This is the first time this issue has sold at public auction for less than \$3,000 since August 2009. PCGS has certified only 26 coins at the MS67 level across the entire series of No Rays Shield Nickels. See the chart herein for more Superb Type Nickels and populations. PCGS MS63 Red Two Cent Pieces also lose a bit of ground, as Red Copper can vary (sometimes greatly) in eye appeal, and this is reflected in auction performance. In Gold Type, \$2½ Indians in Gem NGC holders take a 5% loss as a result of weak auction hammer results.

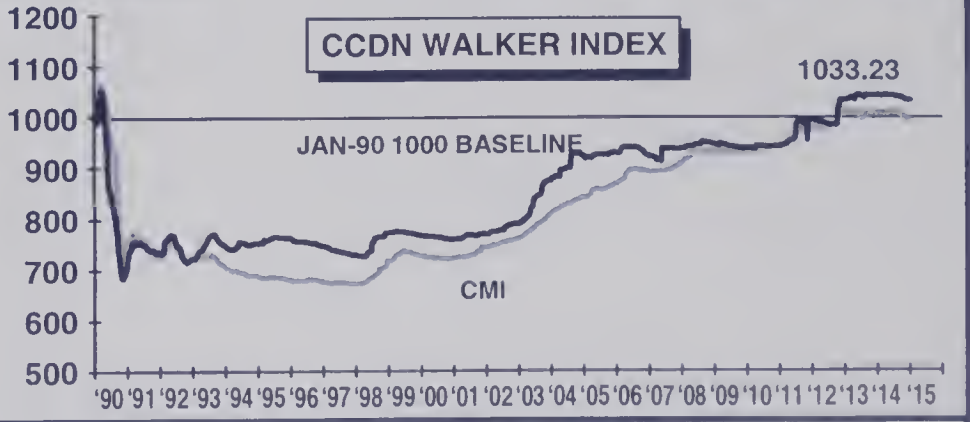

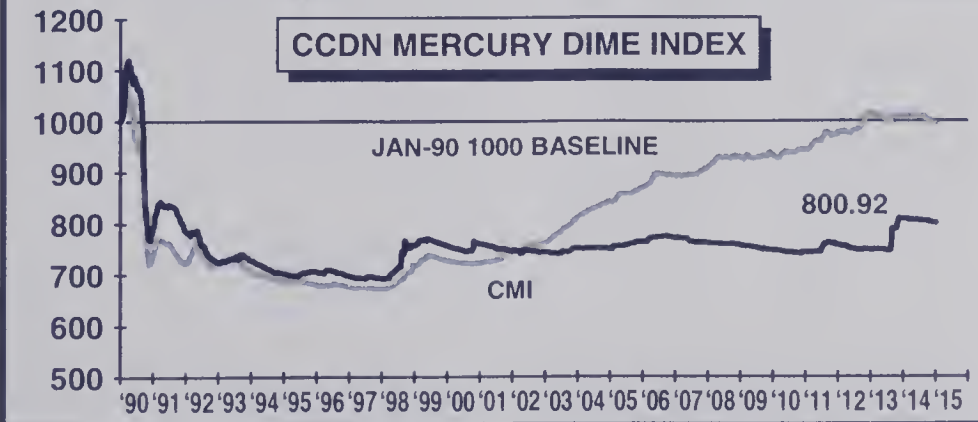

With a rainbow toned reverse, an 1878-S Morgan graded MS67 by NGC took in \$4,730 in last Sunday's Great Collections online auction. PCGS encapsulated Morgan Dollars dated 1894-S, 1901-O and the 1902-S in MS67 are desperately wanted at sight-unseen Bids of \$15,000 each. Common date Morgans graded MS63 are seeing a little setback this week, now at a sight-unseen Bid of \$41. 1922-D Peace Dollars in PCGS MS67 are being targeted at a sight-unseen Bid of \$20,000. Only three have been graded at this level by PCGS and none finer. The last time one was on the market or at auction was August 2011 when one realized \$34,500 at auction. A beautiful golden toned 1916-D Buffalo graded MS65 by PCGS brought in \$1,625 in a recent David Lawrence online auction. In an upcoming sale from this company, ending Sunday, a gorgeous Gem 1927-D key Buff graded MS65/CAC by PCGS will hope to make some noise as this has a CAC pop of 14 with 1 finer. Only two Buffalo examples are seeing negative outcomes, both in NGC slabs. One is a 1925 Philly in MS66 down 3% to a sight-unseen Bid of \$340. The second is a 1938-D in MS65 falling 7% to a sight-unseen Bid of \$28. A sight-unseen offer at \$25,000 still stands for anyone who may have one of the 53 1937-D 3-Legged Buffalos in an MS65 PCGS holder.

Proof Mercury Dimes encounter a little weakness in the higher grades with 1937 in NGC PR66 dropping 13%. PCGS examples trek downwards as well, but to a lesser degree. Select Washington Quarter Proofs see Superb Gem pieces fall by as much as 12%. Uncirculated Dimes, on the other hand, see not a single decline,

and this segment enjoys much stability. Overall demand for Walking Liberty Halves has gone beyond the mainstay of Choice thru Gem with more semi-key dates in higher grades being sought at Bid and has found a solid floor of \$500 for any date graded MS67. Within this quality grade, a 1941 PCGS piece sold online for a princely \$675, while having neither a green bean nor a Plus designation. In the lower grades, earlier key dates capture sight-unseen support. Building on this expansion of support, Proofs for this series are effortlessly claiming eager buyers for all listed grades especially for NGC slabs in the lower PR61-PR62 grades.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Bid prices are represented as authentic to the CCDn, nevertheless, CCDn implies *no* guarantee whatsoever.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflike.
Bids for P/Ls are usually much lower than for DMPLs, but command some premium over non-P/L strikes.

Vol. XXX No. 3

January 16, 2015

Single copy price \$5.00

Market In \$70 Million Digestion Mode Dealers Adjust To New Conditions

With F.U.N. just now in the rear view mirror, a slight pickup in dealer-to-dealer sight-unseen trades has occurred with over \$115K in transactions taking place over the electronic networks in the last week. By most accounts, the show was a strong one from both ends of the table. Heritage certainly made a mark with over \$70 million gaveled in their auction. Precious metals held fairly strong during and now after the show. Gold settled today at \$1,265, and Silver came in with a Spot of \$17. Platinum and Palladium settled at \$1,262 and \$766 respectively. Interestingly, Gold topped Platinum for first time since April 2013. Coming up next is the Long Beach Expo, running January 29-31 with an auction by Heritage. As usual, the Goldberg's will hold a Pre-Long Beach auction January 25-28. We have listed several examples from this sale herein.

The Florida auction brought a very mixed bag of results to the Classic Commemorative market. While there are plenty of minus signs to go around, a number of coins that had a combination of colorful toning and CAC/Plus designations soared to heights not seen in years. Some are calling this new reality the "three-tier" market, and its effects are magnified when massive auctions occur with many duplicate coins. As an example, two MS67 Lexington-Concords, one each graded by PCGS and NGC, hammered for \$3,525 apiece, bringing the sight-unseen Bid down to \$3,200. Meanwhile, a Grant Memorial certified PCGS/CAC MS66 with rainbow toning brought \$12,340 in spirited Bidding from 13 Bidders, eclipsing the previous high of \$9,400 of an NGC/CAC example sold in the 2013 Central States auction.

NGC certified Legend Obverse Liberty Seated Dimes in MS67 take a significant hit after an 1886 specimen brought \$1,175. Thus far NGC has graded 301 coins of this Type in MS67. PCGS slabbed MS67 Three Cent Nickel pieces dip to \$1,375 Bid as a satiny 1888 example failed to attract Bidders. In Gold Type, \$3 Indians in MS64 and MS65 from NGC and MS64 PCGS step back as the common date 1878-S crossed the block at lower levels last week. Many additional adjustments have occurred in Gold Type, including with CAC and Plus graded material which can be viewed this week on Page H.

Many Morgan and Peace Dollars showed up with their A-Game in Orlando, doing well at auction. A few examples that

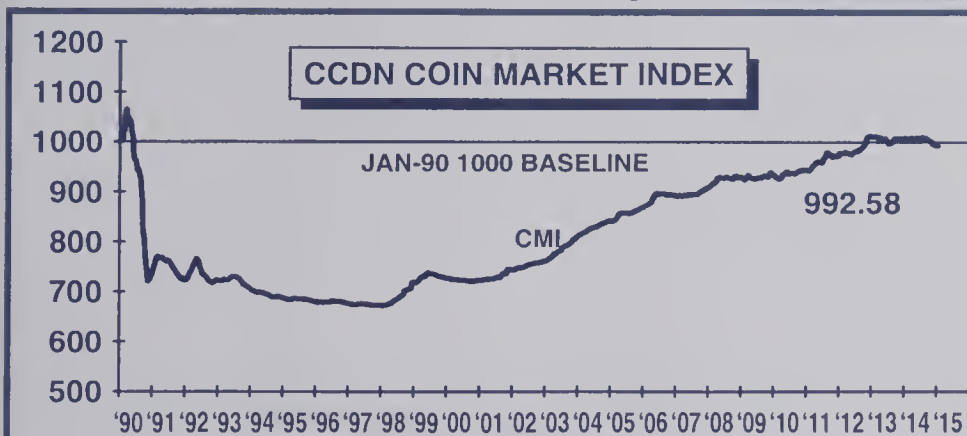

brought big bucks were: 1884-S Morgan graded MS64/CAC by PCGS seeing the winner fork-over \$123,375 as this has a pop of 5 with none finer wearing the CAC sticker. Also a pop 12 and 2 finer 1895-O Dollar graded MS64 by NGC bringing home \$79,315 and, a 1921 Peace Dollar graded MS66/CAC by PCGS racking up \$10,575 as this has a pop of 34 with 1 finer having the green bean. Where there is good there can also be disappointment, like the 1927 Philly Peace Dollar graded MS65 by NGC bringing home a poor \$1,530. This is \$170 less than the sight-unseen Bid being offered. Both PCGS and NGC common date Morgan Dollars are being sought-after at higher sight-unseen Bids of \$53 in MS64 as PCGS common Peace Dollars have fallen in MS65 to a sight-unseen Bid of \$82.

A gorgeous rainbow toned 1913-S Type 2 Buffalo graded MS66/CAC by PCGS shined a bit in Orlando taking in \$5,170 as this has a CAC pop of 9 and none finer. Also making a statement at auction were two 1926-S Nickels both in PCGS holders with one graded MS64+ and the second MS64 seeing the winners hand over \$14,100 and \$11,750 to acquire these beauties. An NGC slabbed 1937-D 3-Legged Buff graded MS63 by NGC came up \$60 short at auction as there is a buyer offering \$3,000 sight-unseen. 1938-D/S CAC Buffaloes in MS66 have hit a bump this week falling to a sight-unseen Bid of \$210.

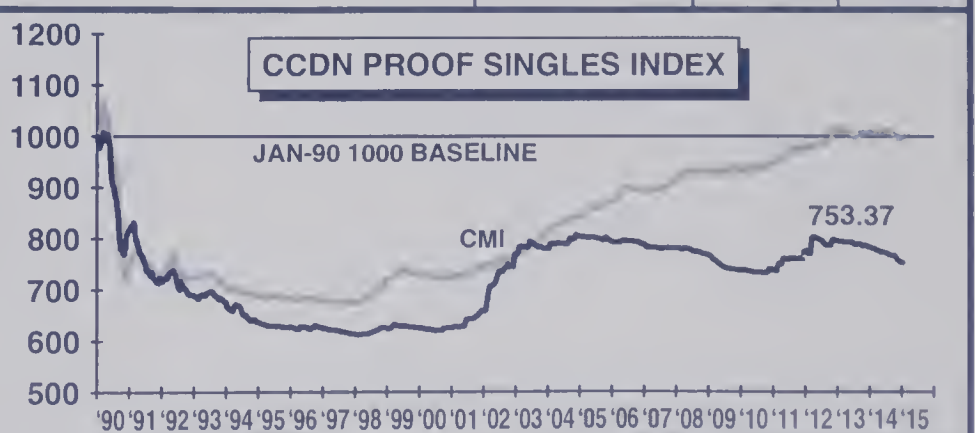

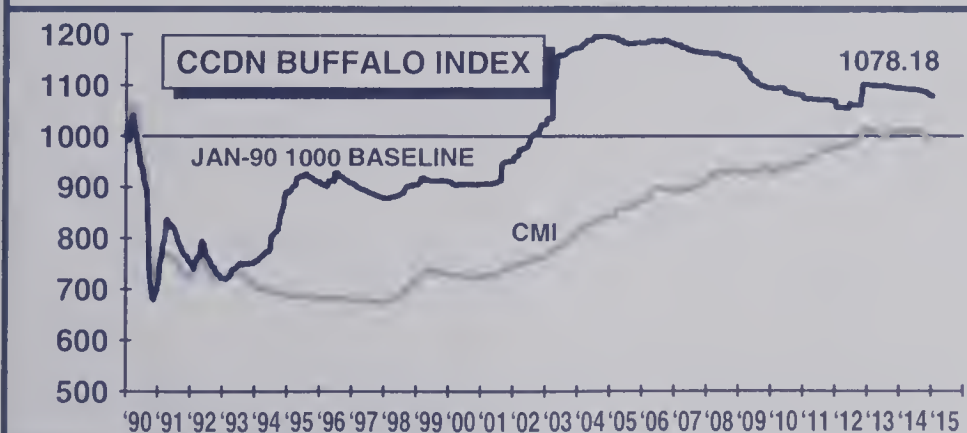

Mercury Dimes with Fully Split Bands took a couple of punches as a duo of San Francisco pieces fell. A 1928-S Winged Liberty in Gem and a 1916-S Superb Gem fell

by 18% and 14% respectively. However, FB Mercs are having a field day of demand for those in PCGS MS64 and MS65 that bear a Plus designation as dealers scramble to capture nice quality pieces at Bid. Additionally, final year 1945 FB Dimes are having a strong showing at Bid in NGC Plus as well. Walking Liberty Halves take a step back in MS67 for quite a few Denver dates as 1945-D examples slide the most, 15%, after some weak auction activity. A nice white 1934-S in Gem was let go at auction for \$2,115 in spite of Bidders paying \$85 more blindly. A bonanza of sight-unseen buying encompasses Walkers in CAC and PCGS Plus. Activity for PCGS Plus is lighting up the Teens and Twenties issues in MS65+ and MS66+.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

The CAC sticker helps to identify a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC-stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the CAC sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ^{^650,000}~~550,000~~ coins with a market value over ^{\$2.9 billion}~~\$2.4 billion~~. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC-stickered coins bring a premium - they are placed only on quality coins.

CAC is a powerful market maker for its stickered coins. What's more, CAC provides liquidity to the market, having purchased coins in excess of ~~\$340,000,000~~ since its inception.

^{^\$375,000,000} So, the CAC sticker does not add value - it is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Think Blue!

EACH WEEK, for the last 29 years, we've published the CCDN or Bluesheet as many call it, which is the most important tool available in today's certified coin marketplace. Knowing the differences in price among PCGS, NGC and other 3rd party grading and certification services is extremely important, especially when it comes time to sell.

Gold Hits Six-Month High Sight-Unseen Market Turning The Corner

As dealers prepare for the Long Beach Expo, slated for January 29-31, positive signs for a strong market are in the air, especially regarding precious metals. Gold has jumped into the \$1,300 realm to close today at \$1,301 per ounce. The yellow metal hasn't been this high since August of 2014. Silver is now at a strong \$18.35, a high not seen since September of last year. Platinum, landing on \$1,284, is now at a level going all the way back to the beginning of October of last year. Platinum remains under Gold by \$16, the largest inverse gap since April of 2013. Palladium is the weakest of the bunch, and currently stands at \$772 an ounce. Over \$140K has traded sight-unseen through the dealer-to-dealer electronic networks this past week, a significant rise from our last report of \$115K.

The Long Beach Expo will feature an auction by Heritage, January 29-February 1. As usual, the Goldberg's will hold a Pre-Long Beach auction scheduled for January 25-28. On display at the Expo will be over 128 selections from the D. Brent Pogue Collection.

All coins are PCGS graded and include a gold label insert designating their Pogue pedigree. These coins, considered the most valuable of Federal American material in private hands, will be auctioned off in a joint offering by Stack's Bowers and Sotheby's beginning in May. Many of the pieces are either finest known or tied for finest known. We have included a list herein of several of these coins to be displayed in Long Beach.

Nine separate Classic Commem issues receive higher sight-unseen Bids this week, led by PCGS MS64 Lafayette Dollars jumping over 10%. An NGC graded MS65 1935 "Small 1934" PDS set of Boone Bicentennials is on the market at a lower level resulting in a slightly lower Bid. The Denver and San Francisco members of this set have a mintage of only 2,000 pieces each, but most were saved at the time of issue, a source of much controversy at the time. A Superb Gem Panama-Pacific Half Dollar certified by NGC also slides nearly 9% after a nicely toned example realized \$1,500 at auction, and Oregon Trails also slip. A brilliant sunset-toned 1946 Iowa Statehood certified PCGS/CAC MS68, with a CAC pop of 27, takes the stage at the upcoming Long Beach auction.

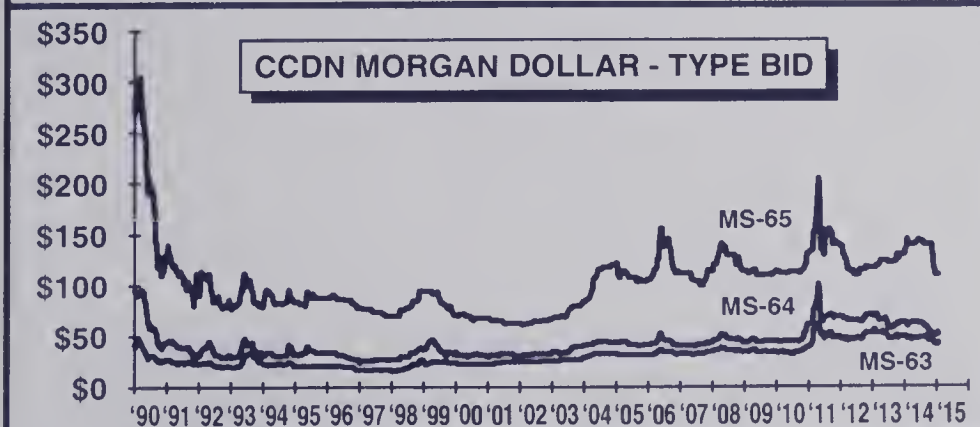

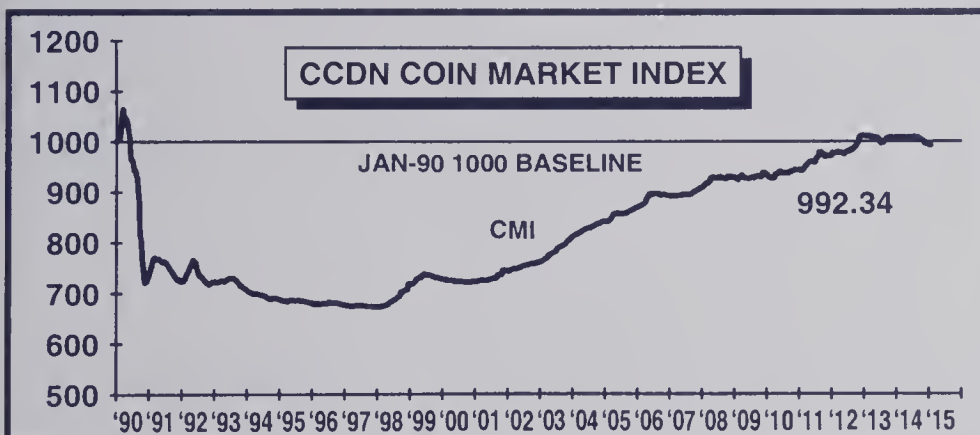

A flurry of activity is present in Gold Type, as dealers react to the upward momentum in Gold Spot, and 11 issues see increases in Silver Type. A total of 18 plus signs

can be found in Proof Type as well. A pair of NGC certified Shield Nickels left money on the table after hammering at auction below sight-unseen Bid. An MS64 specimen went for \$205 against a \$220 Bid, and an MS65 was bought for \$423 against a \$440 Bid. The Pre-Long Beach auction features some exciting Type coins; examples include a 1797 Draped Bust Half Dime, NGC MS66 with a population of four and none finer, and a PCGS MS68 1884 Liberty Seated Dime with a population of two and none finer.

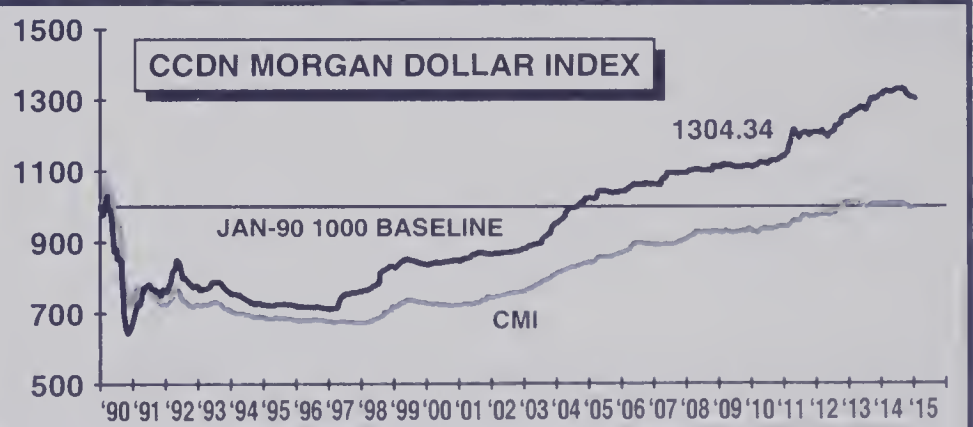

Two fully struck Carson City Morgan Dollars did pretty well at a recent Great Collections weekly on-line auction. An 1879-CC graded MS64/CAC by PCGS brought in \$10,210 and the second coin, an 1885-CC graded MS67/CAC by PCGS, took in a whopping \$16,565. Also through the same sale was a 1928-S Peace Dollar graded MS64 by NGC doing not so well, bringing in \$715, which is below sight-unseen money. Auction results such as these and many others can be seen in this week's Market columns which are published in the fourth issue of each month providing useful information,

not available in any other publication. A blast white 1878 7 Tail Feathers, Reverse of 1879 Morgan graded MS66/CAC by PCGS will be up for grabs at Goldberg's Pre-Long Beach sale. This having a pop 19 with none finer, which is tied for finest at both grading services, and one of five wearing the CAC designation. Also looking to make some noise and someone's bank account smaller is a beautiful pop 2 1922 Matte Finish High Relief Peace Dollar graded PR66 by PCGS. NGC slabbed 1888-O Dollars in MS65 are seeing a 25% increase, breaking the \$300 mark for the first time since November of last year. Twenty-five NGC 1923 Peace Dollars in MS61 are needed as one dealer is offering a higher sight-unseen Bid of \$31 to acquire them.

Mercury Dimes are seeing splendid support as increases outnumber decreases with a bounty of common dates seeing blind buyers willing to pay more for MS66 examples. Negativity is limited to a handful of pieces in the higher grades of MS66 & MS67 with a few semi-key dates like the 1927 and 1916-S (both with and without Full Bands) scaling back. A round of higher Bids are in place for several dates of Walking Liberty Halves. Proof Singles are contracting in all denominations with a huge 38% drop for 1951 Quarters in PCGS PR64. Proof Jefferson Nickels are also having a rough go of things in NGC PR66, at least for 1939 pieces having 1938 Reverses. Within the same grade 1937 Proof Buffalos are rising to an even \$1,000 Bid, strengthening to where they were in mid-October last year.

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, and other sources of *wholesale* transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. Listing Policy: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Need to Mail?

Need to contact America's leading numismatic dealers?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2014 Numismatic Dealer Directory™** are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only \$385 — well below the mailing industry standard of \$95/thousand.

Need just one state or region? Need a trial sample?
Pay only 8¢ per address and \$25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2014 Numismatic Dealer Directory.

I understand that my \$385 fee entitles me to only one usage of these addresses. _____

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 650,000 coins with a market value over \$2.9 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over \$375,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

Precious Metals Volatile

Goldberg's Pull In \$4.7 Million

Ira and Larry Goldberg's Pre-Long Beach auction, which took place January 25-27 in Los Angeles, realized a strong total of \$4.7 million. Taking the top lot honors was a 1793 Flowing Hair Half Cent graded by PCGS as MS63BN bringing in \$114,563. Next on the list was an 1870-CC \$20 Liberty graded AU Details by NGC realizing \$102,813. Coming in third and crossing the block for \$96,938 was a 1796 Draped Bust Quarter graded PCGS AU55 and boasting CAC approval. We have listed several additional highlights from this sale herein.

The Long Beach Expo is underway, and some concern is in the air regarding the volatility of precious metals. Gold recently hurdled over \$1,300 an ounce, but today the yellow metal closed at \$1,255. Silver, which was well over \$18 in our last report, has fallen to \$16.88. Platinum really took it on the chin, tumbling to \$1,217 per ounce after closing at \$1,284 a week ago. Not surprisingly, considering the fact that the Long Beach Expo is in full swing, activity on the sight-unseen, dealer-to-dealer electronic networks is flat, with only \$44K trading over the last week.

Sight-unseen buyers are maintaining demand at Bid for Mercury Dimes in Very Choice and Gem. Receiving the most attention are earlier dated semi-key pieces without Fully Split Bands. Generally, having a fasces with Split Bands is a quality long sought, but for 1937 Philly and San Francisco Type Dimes a bit of slippage was inescapable in MS65FB and MS66FB after discount selling online. There is a suite of Walkers going down in both Very Choice and Gem. A noticeable amount of money was left on the table when a 1945 Walker graded PCGS MS64 sold for only \$34 while others are paying 35% more sight-unseen. Semi-key NGC 1939-S pieces took a 17% tumble after some less than stellar results from an online auction. All is not completely negative. Despite the trend towards lower Bids for MS64 and MS65, 1943-D Walkers see a small boost to Bid \$350. Proof Singles of all denominations are getting rocked, however. Nickels are being battered with 1951 examples in particular taking 30% to 40% hits in Bid in the higher grades. Lower grades fare better with solid demand at Bid, especially for Proof Walkers.

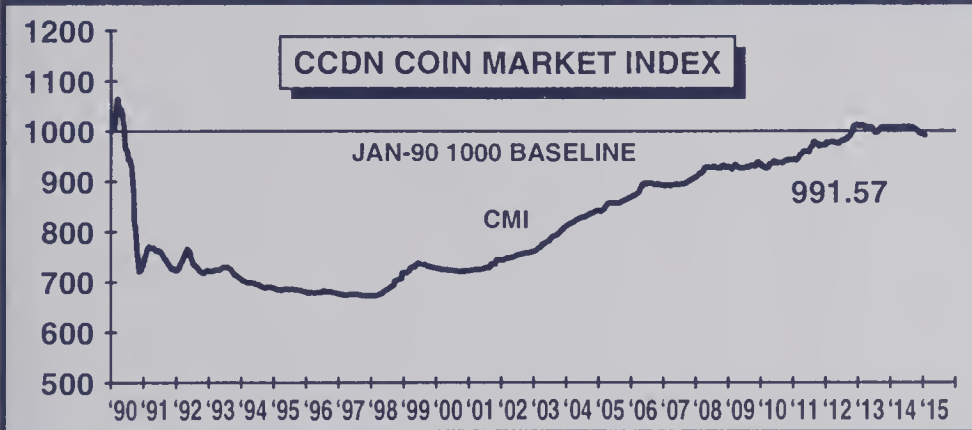

A scarce and rarely seen at auction 1887-O Morgan Dollar graded MS66 by PCGS brought in a large sum of \$30,250 through a recent Great Collections on-line auction. This coin has a pop of 10 and none finer, and an example hasn't been on the market or at auction since April of 2007. NGC slabbed 1904-S Dollars in MS64 are seeing a \$50 increase to a higher sight-unseen Bid of \$4,350 as the rest in MS61 to MS63 and MS65 are needed at current Bid levels. Also needed in both PCGS and NGC are MS63 1902-O Morgan Dollars as dealers are offering \$44 to blindly acquire these dates. A PCGS MS67 example just took home a whopping \$10,750 through a weekly David Lawrence on-line sale. This particular coin has a pop of 16 and none finer. A few common date Morgan Dollars graded MS67 by PCGS are seeing a bit of a setback this week, falling to a sight-unseen Bid of \$520. Stack's Bowers saw a beautifully minted 1919-D Buffalo graded MS65 by PCGS snatch up \$4,525 in a recent on-line auction. NGC graded 1913-S Buffaloes in MS64 are being targeted at a sight-unseen Bid of \$1,200 as well as the 1914-D in MS64, MS65 and MS66 at current Bids of \$460, \$900 and \$1,300 respectively. There are a few minus signs, but nothing outrageous.

Delaware Tercentenary, Norfolk Bicentennial, and Oregon Trail Silver Commems lead the declines, as one of the large sight-unseen Bidders has left the market. A

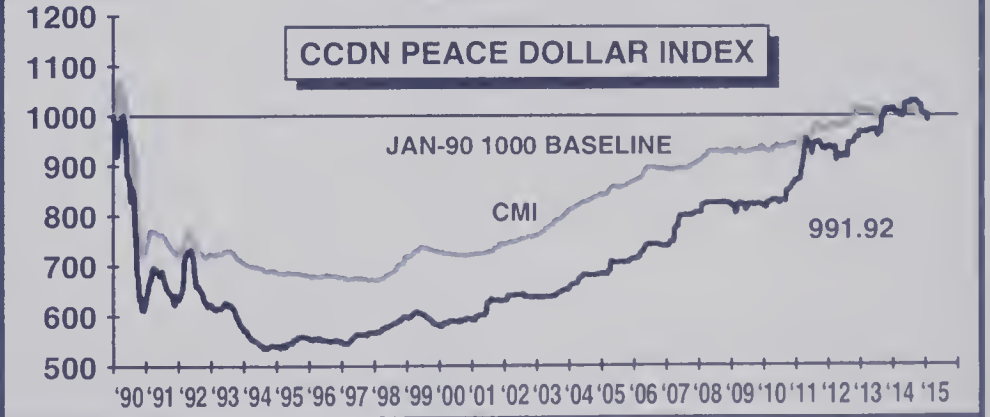

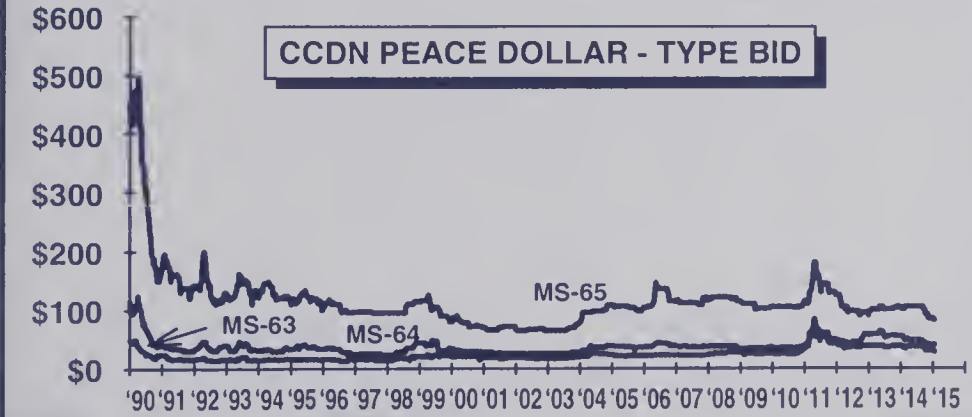

Goldberg					
1831	Classic Head Half Cent, Original	PCGS	PR62	\$61,688

1904	\$20 Liberty Head CAC, Cam	PCGS	PR64	\$45,825	

toned PCGS graded MS62 Isabella Quarter, with a PCGS population of 836, brought a soft \$330 at auction. In Classic Gold Commems, both dates of the McKinley Memorial Gold Dollar slide back, with the 1916 in MS62 losing 11% and the 1917 in MS65 dropping 7%. Demand is still present for colorfully toned and CAC-approved Silver Commems.

Superb Gem Barber Dimes tumble 11% and lower Mint State grade Barber Halves also dip, as MS61 coins move to \$420 Bid. Proof No Cents Liberty Nickels in PCGS PR62 holders scale back to a Bid of \$170 as an example with a CAC sticker came up weak at public auction. Another Nickel Proof Type coin, the Three Cent in PR64 holders go down to a sight-unseen Bid of \$290 after changing hands at auction for \$282.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Massive Silver Commem Collapse 22nd Consecutive Drop For CCDN CMI

Now that the Long Beach Expo has concluded, dealers will focus on replenishing inventories and attending local and regional shows. Currently, Stack's Bowers is holding an auction in New York Feb. 5, 6 and 10. The St. Louis Numismatic Association is hosting their 51st Greater America Coin Fair Feb. 6-8. PCGS will hold yet another Members Only Show in Las Vegas, Feb. 18-21, with an auction by Legend on the 19th at the Venetian. One of the larger events coming up this month is the Sarasota Coin Show and Sale, scheduled for Feb. 20-22. Following this is the Greater Chicago Coin, Currency & Collectible Show, February 26-28. A slight increase in sight-unseen trading volume has taken place through the dealer-to-dealer online networks, which is now at roughly \$60K over the last week. Precious metals are still on the weak side with Gold closing at \$1,262 per ounce. Silver settled at \$17.18, and Platinum has made a bit of a comeback, reaching \$1,252. Palladium is also up from our last report, closing at \$796. The CCDN CMI has now fallen for 22 consecutive weeks, from 1,008.45 on September 5, 2014 to today's level of 989.20.

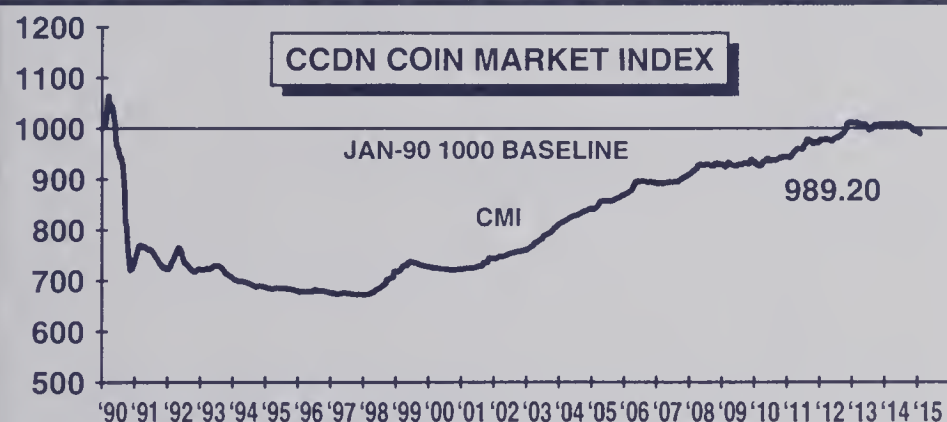

The absence of market-makers is felt throughout the Classic Commem segment, as declines abound for both Silver and Gold. This is not to say that Classic Silver and Gold Commems are not in demand; original and colorfully toned coins are eagerly sought-after by both dealers and collectors. Slabbed coins that have been dipped or have dark or mottled toning are for the most part responsible for the drops in the sight-unseen Bids reported here after selling for huge discounts at retail public auction. A nicely toned 1893 Columbian Half, graded PCGS/CAC MS67 is offered by Legend Auctions on February 19 in Vegas, one of just nine to receive a CAC sticker. Mint State Type is also taking some hits, led by PCGS graded MS67 Barber Dimes, Liberty Seated Half Dimes With Legend in the same grade and service, and PCGS MS65 Twenty Cent Pieces. Last week an 1875 Liberty Seated Dime in a PCGS MS64 holder traded for \$188 against a sight-unseen Bid of \$285, nearly a 35% difference. A solid PCGS MS65 1861 No Motto Liberty Seated Half Dollar was a relative bargain when it changed hands at public auction for \$3,290. Gold Type is once again in a state of flux, from both the volatility in Gold Spot

and trading and auction activity. PCGS graded Gem Five Dollar Indians slide back 9% along with NGC certified Ten Dollar Indians, and the ever popular MS64 \$20 High Relief in PCGS holders dips slightly to \$22,000 Bid.

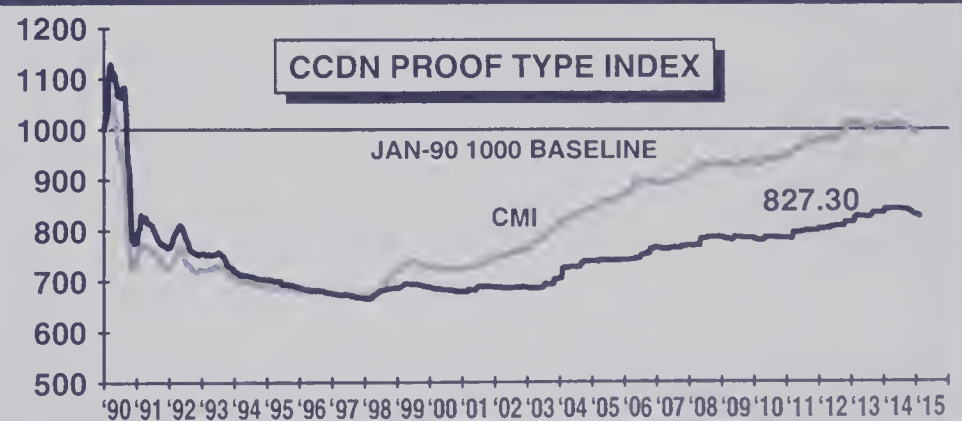

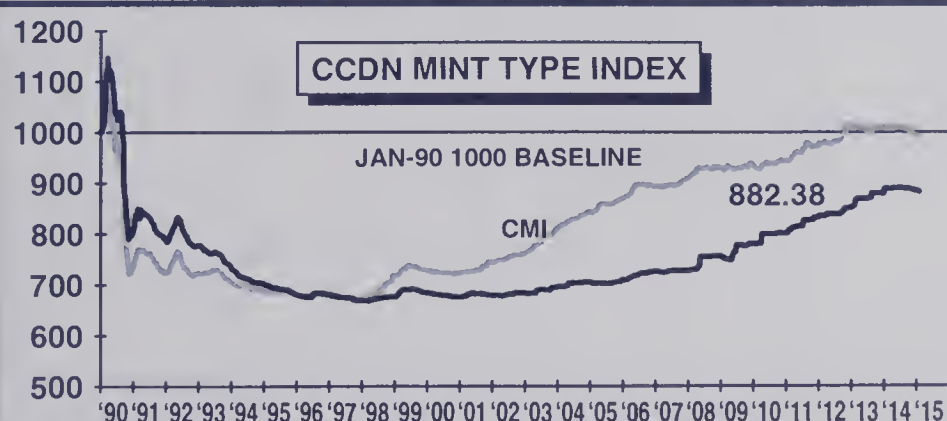

Generic Morgan Dollars are seeing an upswing in MS64 for NGC as well as MS65 for PCGS now at sight-unseen Bids of \$52 and \$108 respectively. NGC Peace Dollars in MS64 are also being sought-after at higher sight-unseen Bids. A gorgeous rarity, an 1896-S Dollar graded MS65 by PCGS, swept up \$11,455 at the recent Long Beach show. There are many minus signs in numerous grades for Morgan Dollars as well as PCGS Peace Dollars. A few examples include key-date 1894 Philly Dollars in MS61 and MS62 now down to \$2,960 and \$3,360. 1928 Peace Dollars in MS62, MS63 and MS65 for PCGS have slipped a bit to sight-unseen Bids of \$485, \$635 and \$3,450. At least one dealer is looking to pick up thirty 1878-CC GSA Dollars with box and certificate and will pay \$525 until the order is filled.

Two beautiful NGC slabbed 1937-D 3-Legged Buffaloes did well at auction last week, one graded MS64/CAC taking home \$6,755 and the second an MS65 racking up \$16,450. Also doing well at auction was a 1927-S Nickel graded MS65 by PCGS with CAC sticker bringing in \$17,040. This issue last sold at auction in June of 2014 for \$15,275. 1925-D Buffalo Nickels in MS65 are being offered at discounted prices resulting in lower sight-unseen Bids, now at \$2,350.

Common date Mercury Dimes took a dive in MS67FB, leveling out to a Bid of \$110, a loss of 8%. Semi-key 1917 PCGS MS66 issues scale down by a tenth. The case of decreases for 1917 minted material continues into the realm of Walkers as Choice pieces slip. However, this same date is enjoying solid demand with dealers sustaining current Bid levels in the other Uncirculated grades MS61 thru MS65. A conditionally scarce semi-key date 1919-D Walking Liberty Half graded MS63 by PCGS realized just a bit shy of \$10,000 at retail auction over the weekend in Long Beach. Naturally, sight-unseen Bid descended to \$9,000 which now puts it in line with its NGC slabbed counterpart for the first time since the summer of 2009. Generic Walkers in MS66 drop to \$115 in addition to new lower levels recorded for certain key issues like 1933-S and 1934-D.

Verify Your Stickered Coin!

You can use the online CAC Verification Search feature to check the CAC database for ALL coins that CAC has stickered .

Data for each stickered-coin is compiled in CAC's secure database. You can use CAC's FREE online tools to easily verify your stickered coin. What's more, you have access to CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, FREE, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

Back Issues

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

- Complete set of the weekly **Coin Dealer newsletter (Greysheet)** from June 14, 1963 to December 19, 2014, now includes 2,628 issues. At \$2.00 each this would normally cost \$5,256, but a complete set is only\$3,475.
- Complete set of the monthly **CDN Monthly Supplement** (formerly the Monthly Summary from August 1976 to December 2014, now includes 461 issues. At \$2.00 each this would normally cost \$922, but a complete set is only\$665.
- Complete set of the **CDN Quarterlies** from January 1992, to December 2014, now includes 276 issues, a complete set is only\$375.
- Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies** now includes 3,365 issues, and extra savings at only\$4,250.
- Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)** from August 22, 1986 to December 19, 2014, now includes 1,406 issues. At \$2.00 each this would normally cost \$2,812, but a complete set is only\$1,895.
- Complete set of the monthly **Currency Dealer newsletter (Greensheet)** from September 1980 to December 2014, now includes 412 issues. At \$2.00 each this would normally cost \$824, but a complete set is only\$600.
- For the most complete numismatic pricing library possible, you may order a **COMPLETE** set of all of the Back Issues listed above, includes 5,183 issues for only\$6,475.

1 - 10 issues - \$3.00 each

11 - 25 issues - \$2.50 each

26 & over - \$2.00 each

**Or, you can purchase complete sets
for a really dramatic savings**

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Need to Mail?

Need to contact America's leading numismatic dealers?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2014 Numismatic Dealer Directory™** are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only \$385 — well below the mailing industry standard of \$95/thousand.

Need just one state or region? Need a trial sample?
Pay only 8¢ per address and \$25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2014 Numismatic Dealer Directory.

I understand that my \$385 fee entitles me to only one usage of these addresses.

☐ My check for \$385 payable to CDN, is enclosed. ☐ Visa/Master

Stack's Bowers Auction Realizes \$7 Million

Mixed Market For Morgans

Stack's Bowers finished up their Americana Auction in New York Feb. 10 with a total of \$7 million. A portion of this sale, The Stephen Winthrop Collection, raised over \$1.3 million for ALS research at Harvard University. Stack's Bowers donated in excess of \$75K from its fees towards the total amount raised for the research program. We have listed several highlights from the Americana Auction herein. Coming in first place and realizing \$188K is a 1799 Capped Bust Eagle graded MS64 by PCGS. The second spot belongs to a 1915-S \$50 Pan-Pac Round graded PCGS MS64 which crossed the block for \$129,603. In third position is an 1866-S No Motto \$20 Liberty with a grade of MS60 by PCGS; this coin found a new home for \$129,250. In this auction, 100 lots realized over \$10K, and 5 lots garnered over \$100K. Precious metals remain somewhat in the dumps with Gold closing at \$1,220, Silver settling on \$16.78, Platinum falling to \$1,204, and Palladium landing on \$774. Sight-unseen trading on the electronic, dealer-to-dealer networks is up from recent weeks now that the big shows and auctions are completed. This week, the total returns to the six-figure level to \$134,434 in blind transactions.

Generic Morgan Dollars are seeing plus signs in MS63DMPL, MS64 and MS65 now at sight-unseen Bids of \$132, \$53 and \$112 as MS66 cartwheels have slipped to \$175. NGC Peace Dollars are needed at higher sight-unseen Bids in MS63 and MS64, now \$30 and \$42. 1934-S Peace Dollars are being targeted at higher Bid levels in MS61 and MS62 as dealers are offering to fork out \$1,800 and \$2,200 respectively. A key 1895-S Morgan Dollar graded MS64 by PCGS didn't perform so well in New York, bringing in \$7,345 as there is a sight-unseen Bid of \$7,600. 1922-S Dollars in NGC MS64 are being sought-after as dealers are now paying \$180 with one just sold at auction for 32% less at \$123. Some gorgeous rainbow toned Morgan Dollars will be up for grabs through Legend's auction next week in Las Vegas. A couple examples include an 1880-CC Morgan graded MS65+/CAC by PCGS with the obverse displaying rainbow toning; another being an 1885-CC GSA Dollar graded MS67 by NGC also having rainbow colors on the obverse. Legend will look to bring some serious Bidders to Sin City, February 19, when they auction off a beautiful, well-struck 1923-S Buffalo graded MS65+/CAC by PCGS, this having a pop 49 at this grade level and one of nine wearing the CAC sticker. A couple of Proof Buffaloes will also be making their way to the auction block in Vegas—a 1913 Type 1 graded PR66/CAC and a 1915 graded PR66+/CAC both encapsulated in PCGS holders.

PCGS Gem graded Hawaiian Sesquicentennials receive a nearly 6% boost up, and Hudson Sesquicentennials in NGC MS66 holders see a small increase to \$1,060 Bid. Otherwise, Classic Silver Commems continue to suffer. High grade MS65 and MS66 examples of the Huguenot-Walloon Tercentenary slide, with NGC graded MS66's taking the worst of it, down to their lowest sight-unseen level reported. Maine Centennials also drop in multiple grades, as a deeply toned specimen in an NGC MS65 slab hammered for

a startling \$120 against a sight-unseen Bid of \$200. Despite this, a run of Silver Commems in old PCGS holders and CAC stickers in the recent Stack's Bowers auction did very well, showing fresh and original coins still draw significant interest.

Superb Gem Barber Dimes are the recipient of some additional support this week as they are now Bid at \$550. Choice Twenty Cent pieces dip a full 20%, with Very Choice pieces right behind taking a hit of 16%. An NGC MS64 Liberty Head Nickel passed through auction at \$106 versus a Bid of \$152, and a Type 2 Standing Liberty Quarter in MS64 also left money on the table, as one was bought for \$147 while prevailing sight-unseen Bid stands at \$225. As for Gold Type, \$20 Libs of the Type 2 variety in PCGS MS63 slabs drop to \$4,000 Bid, while MS61 examples slide 10%.

Full-Banded 1923-S Mercury Dimes don't come up often at auction; however, one toned example graded MS65 by PCGS took in a rather underwhelming \$3,055 in New York bringing

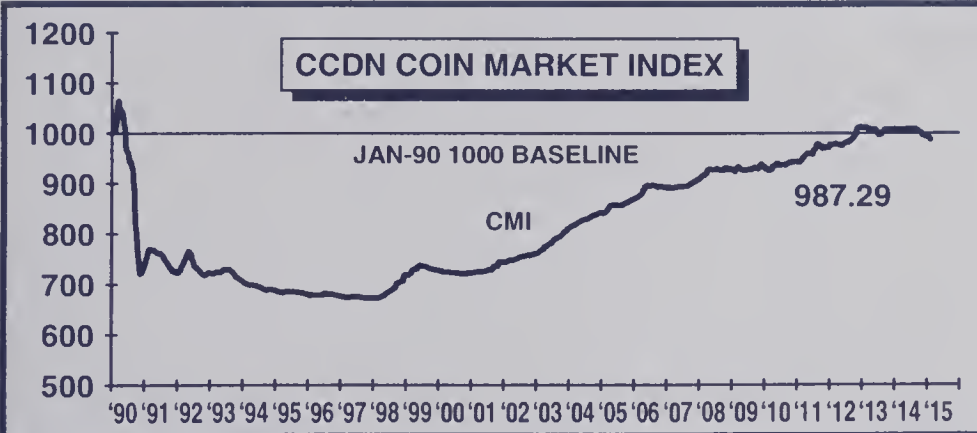

down Bid 29%. Overall, there are 14 Dimes descending between the two main grading services. All three mints encounter losses, but it is those Mercs from the City by the Bay which take the most pain. In the realm of Proof Mercs, there is an air of steadiness with visible demand staying at Bid in the MS64-MS66 range.

Love may be in the air this week, but Halves certainly aren't feeling any of it. Walkers are being dealt sight-unseen

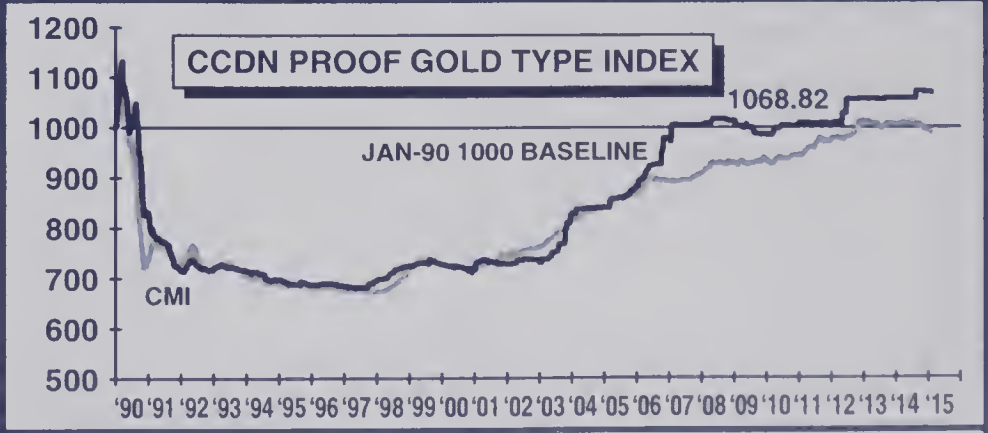

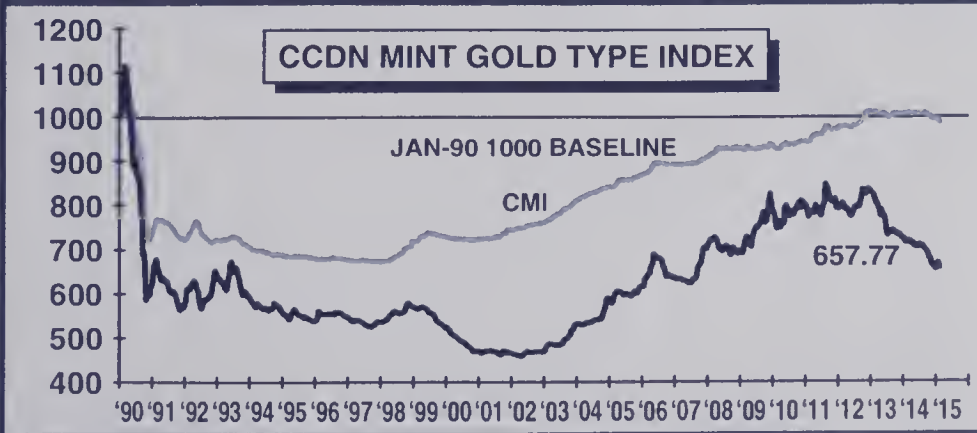

blows for both Mint State and Proof examples with three times as many tumbles as Dimes. Rounding out the mayhem is the 1936-D in MS67. PCGS slabs suffered a 7% pull back to a Bid of \$2,350 while their NGC counterparts got clocked with a \$750 drop, about four times as harsh. While it may seem that Halves are this week's black sheep the declines are mostly limited to later dates. Earlier Walkers, while showing the occasional minus sign, still hold steady with much support at Bid. More than a few Proof Franklins sold short of Bid, most notably 1951 pieces in PR62 with a sale price of only \$127 at auction against a blind Bid of \$180, making for a \$53 missed opportunity.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Modern Coin Wholesale has it all!

Rare Coins, Modern Coins, World Coins and Bullion

Modern Coin Wholesale CEO, Ron Drzewucki has been a professional numismatist since 1984 and a member of Professional Numismatists Guild (PNG) since 1995. Ron has been "known as having a superb eye for coins" and "has the experience and discriminating eye to make those important distinctions between grades", according to the Numismatic Guaranty Corporation's newsletter.

He ran a successful company dealing in certified rare coins and modern coins before joining Numismatic Guaranty Corporation (NGC) in January of 2005. Ron's experience and unrivaled grading accuracy put him in an elite class as a past NGC Finalizer. Grading rare, silver, and gold vintage coins are his specialty. Ron has a talent for identifying counterfeits and has taught several counterfeit detection classes and grading seminars.

At Modern Coin Wholesale, Inc. we deal in all Modern U.S. coins and all Modern World coins. Many include original government packaging.

We offer a large selection of Rare Coins. The term "Rare Coins" generally applies to many U.S. coins minted before silver was removed from our coinage after 1964. But that does not mean that all so-called "Rare Coins" are truly rare. And probably no two dealers, scholars or collectors would agree precisely what "Rare Coins" are. Here is how we define the term: A rare coin is one that relatively few survived because of a small mintage or low survival rate. Just because a coin is old does not make it rare, and conversely—a relatively recent issue can be very rare. Rare coins have been the nucleus of the hobby of coin collecting in the U.S. for over a hundred years, and in recent years, auctions of the rarest of rare coins at higher and higher prices continue to make headlines.

If you are looking to invest in precious metals we have plenty of options. We deal in Silver, Gold, Palladium and Platinum, which are available in the form of coins or bullion.

For a complete inventory listing visit: www.ModernCoinWholesale.com

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/Ls are usually much lower than for DMPLs, but command some premium over non-P/L strikes.

UPDATE!

The CAC sticker helps to identify a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC-stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the CAC sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

\$ 2.9 billion
CAC has evaluated over ~~550,000~~^{650,000} coins with a market value over \$2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC-stickered coins bring a premium - they are placed only on quality coins.

CAC is a powerful market maker for its stickered coins. What's more, CAC provides liquidity to the market, having purchased coins in excess of \$340,000,000 since its inception.

\$375,000,000
So, the CAC sticker does not add value - it is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

"Because Confidence is Priceless"

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Need to Mail?

Need to contact America's leading numismatic dealers?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2014 Numismatic Dealer Directory™** are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only \$385 — well below the mailing industry standard of \$95/thousand.

Need just one state or region? Need a trial sample?

Pay only 8¢ per address and \$25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2014 Numismatic Dealer Directory.

I understand that my \$385 fee entitles me to only one usage of these addresses.

☐ My check for \$385 payable to CDN, is enclosed. ☐ Visa/Master

CAC/+ Material Shows Strength

Gold Down Sharply This Week

Dealers are currently in Vegas wrapping things up with the PCGS Members Only Show and Legend auction before heading to Dallas for the February 26-28 PNG show with an auction from Heritage. Then, it's off to Portland, Oregon. The ANA National Money Show is coming March 5-7, with an official auction from Stack's Bowers. We have included several examples from this sale herein. This show is quite large with over 500 dealers holding tables. Precious metals are still showing signs of weakness as Gold slipped just below \$1,200 on Wednesday. The yellow metal did recover somewhat the next day, closing at \$1,207. Silver has been on a rollercoaster ride and finally ended up at \$16.37. Platinum has been going up and down as well, and wound up today at \$1,176, and Palladium settled on \$787. Trading on the electronic, sight-unseen dealer-to-dealer networks, down from last week's return to the six figure level, is currently at just over \$85K this past week.

Classic Silver Commems are a bit more stable this week, with most of the price drops contained in the 2% to 10% range. The exception is the 1934 Texas Centennial, which takes a 17% hit at the Very Choice level. Many Gem level Silver Commems with CAC approval see increased Bids this week, which can be found on Page G. Next week in Dallas a 1922 Grant With Star in a PCGS MS66 holder is up for grabs, with only five finer coins available to collectors.

The majority of activity in Mint State Type this week centers around Half Dollars, with Capped Bust, Liberty Seated, and Barber coins all seeing minor adjustments to the downside. Leading the way are MS63 graded Capped Bust Halves in PCGS holders, which drop 10%. NGC graded No Motto Liberty Seated Halves also decline slightly in MS65 and MS66. Lower Mint State \$20 Saints are the recipients of a higher Bid, up to \$1,235 for any coin in an MS61 holder, as these coins have become depressed in price enough to draw in buyers. Gem Type III One Dollar Gold pieces also receive a healthy increase to now Bid at \$850 sight-unseen.

Things are looking up for common date Morgans as material in Choice gets a 2% boost. Dollars in Gem also make advances for those with NGC labels. Extra designations such as CAC certification and Plus signs don't seem to help Morgans in MS64 which see a wave of discounting and now Bid \$70. 1904-S cartwheels are darlings of this segment with solid

support for green bean varieties and higher level Bidding now for any coin with a "+" on the label. 1884-S Dollars steal the show with a hike in Bid as high as 29% in PCGS MS64+. Peace Dollars are relatively tranquil this week, with five issues seeing minor drops. An NGC graded MS64 1922-S Dollar left money on the table last week as it hammered for \$123 versus a sight-unseen Bid of \$180, a nearly 32% difference. Next week a 1922-D in a PCGS/CAC MS66+ slab has a chance to shine. Thus far, CAC has stickered 51 coins in this grade.

1917-D Buffaloes chalk up a loss for those in PCGS MS65 slabs and now Bid \$1,600. This marks the first drop for these pop 195 Nickels since late January 2012, over three years ago. The market for Matte Proof Nickels is a much brighter story. This segment is teeming with eager collectors and dealers ready to pay Bid blindly for any Matte Proof Buffalo up through PR66. For those Five-Cent Pieces bearing a PCGS+ label the market is treating them like royalty. Fervent activity is sighted in all plus grades reported but MS64+ takes center stage with active buyers for many dates.

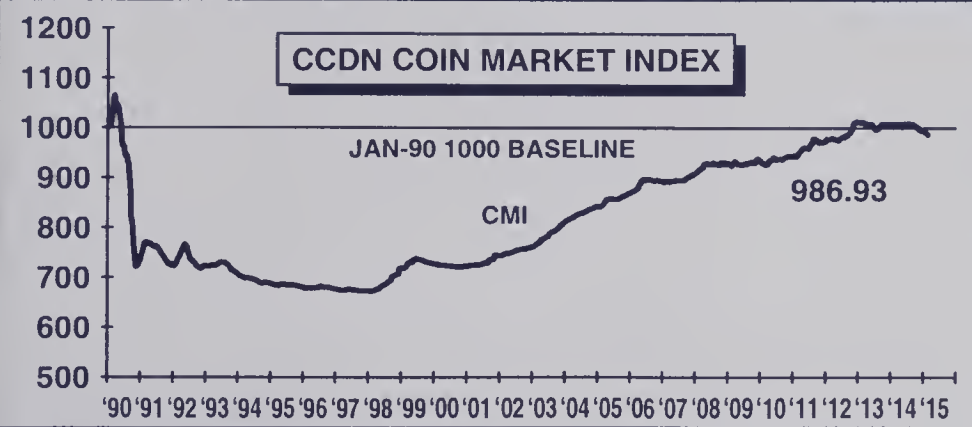

There is a light dusting of negativity for Superb Gem Mercury Dimes with Fully Split Bands for both grading services with mostly Denver mints dropping to a new sight-unseen Bid of \$105. A couple of dates saw pieces sell a bit short of Bid at auction. CAC designated Dimes are not as much in the crosshairs of dealers this week as are slabs bearing a "+" with top honors going to 1945 Phillies. PCGS slabs make gains in MS65+ and MS66+ while their NGC counterparts mark strong support at Bid.

Walkers are for the most part breathing easily; unless they're later semi key dates graded Gem by PCGS which see a few declines after disappointing auction results.

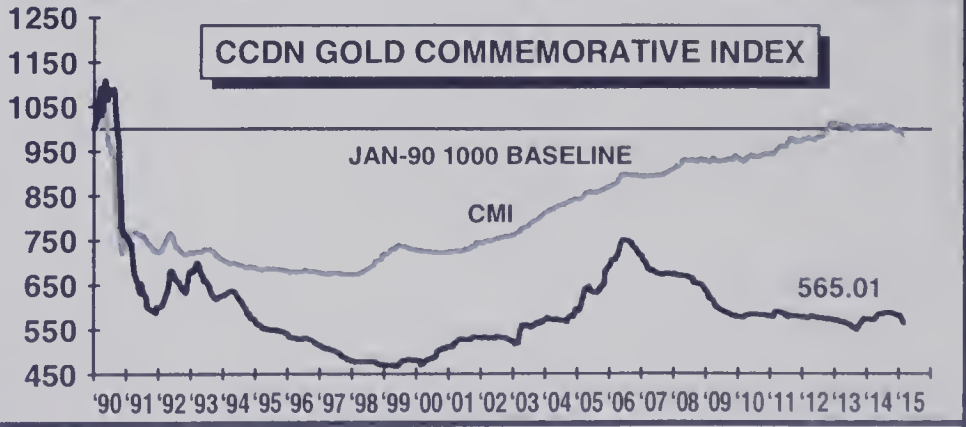

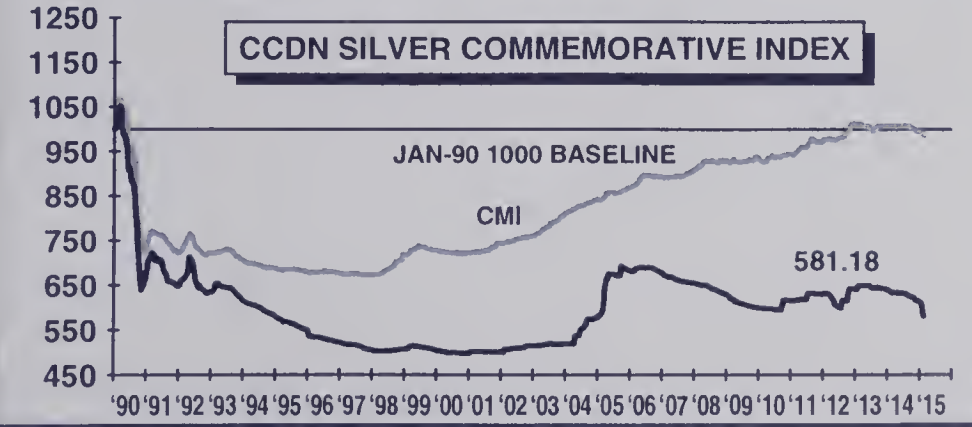

Not to fret though, these declines, which all involve S minted Halves, are rather modest with the most severe topping out at 8% back for 1942 issues. Proofs are mostly holding steady and despite the pull back for Mint State examples PCGS slabbed Proof Walkers are still a sight to be seen (or unseen in this case) as buyers are still propping up Bid for all issues in PR65-PR67. For Franklin Half Proofs with green beans there isn't an example out there that won't find an eager dealer waiting to scoop one up in Gem or better.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 650,000 coins with a market value over \$2.9 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over \$375,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

Multiple Shows This Spring

Mint State Barbers Soft

The Dow Jones and S&P 500 reached record highs in reaction to the address from Fed Chair, Janet Yellen, on the news that interest rates would be raised later rather than sooner. This has likely contributed to Gold's weakness, as the yellow metal closed again under \$1,200 an ounce, doing so for the second time in about a week. Today, Gold is just above \$1,200. Silver has been falling as well, closing as low as \$16.18 this week. February 26-28 is slated for the inaugural PNG Dallas Coin & Paper Money Show with an auction by Heritage. March will be quite active for dealers and collectors beginning with the ANA National Money Show on the 5th through the 7th. The CPMX is scheduled for March 5-8. Later in the month is the 52nd Annual Las Vegas Numismatic Society Coin Show, March 20-22. Then, it's time for the Whitman Coin & Collectables Baltimore Expo March 26-29, with an auction by Stack's Bowers.

A satiny, well struck 1934 Texas Centennial graded PCGS/CAC MS67, with a CAC population of 30 coins, failed to make much noise at public auction as Bid slides to \$635. PCGS slabbed Gem Vermont Sesquicentennials also take a step back of 14% to dip below \$300 for the first time. Two beautifully toned Classic Silver Commems cross the block in Portland, and are both graded NGC MS67★: a 1920 Maine Centennial and a 1935 Hudson Sesquicentennial. To date, NGC has awarded the Star designation to just four Hudson Halves and five Maine Halves at the MS67 grade level. Classic Gold Commems remain stable. Mint State Type is stable this week as well, with relatively strong auction performance which can be reviewed in the Market column. Type coin highlights from the Portland auction include a magnificently toned 1889 Liberty Seated Quarter graded NGC MS67 which sports eye catching blue colors, and an 1822 Capped Bust Half Dollar certified MS65+ by NGC. This 1822 Half Dollar is one of five of the date to receive the Plus designation, and the finest of the five. As for Proof Type, an NGC graded PR65 Cameo Barber Half Dollar hammered for \$1,940 against a sight-unseen Bid of \$2,010, leaving \$70 on the table. In Gold Type, \$20 High Reliefs in PCGS Gem holders take a slight step back to a Bid of \$37,000, along with MS61 With Motto \$5 Libs.

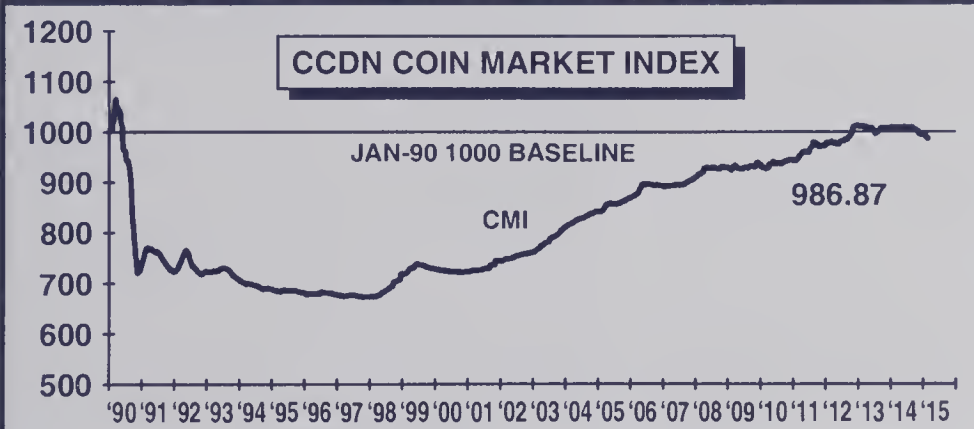

A beautifully toned 1894-O Dollar graded MS64+/CAC by PCGS saw the winning Bidder fork over \$12,340 in the recent Legend auction held in Vegas. Also doing well at the same sale was a lightly golden toned 1879-O \$1 graded MS65/CAC by

NGC bringing in \$3,880. A sum of \$31 was left on the table for an 1896 Philly Dollar graded MS66 by NGC at a weekly internet auction held by Stack's Bowers as there is a sight-unseen Bid of \$325 being offered. Auction results such as these and many others can be seen in this week's Market columns which are published in the fourth issue of each month providing useful information, not available in any other publication. Key date 1934-S Peace in PCGS holders are seeing strong demand in MS61 through MS66 as dealers look to pay current sight-unseen Bids. Three PCGS MS65 GSA Morgan Dollars will be up for grabs at the ANA next week in Portland, they are: 1880-CC, 1881-CC and 1885-CC.

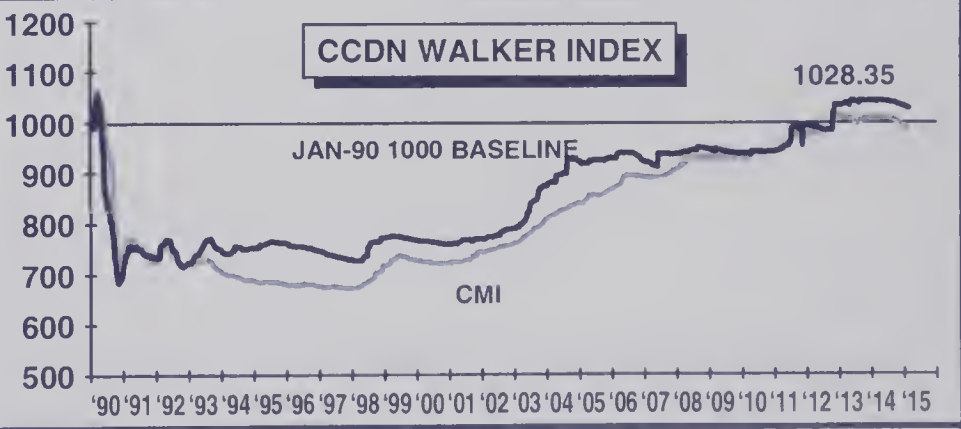

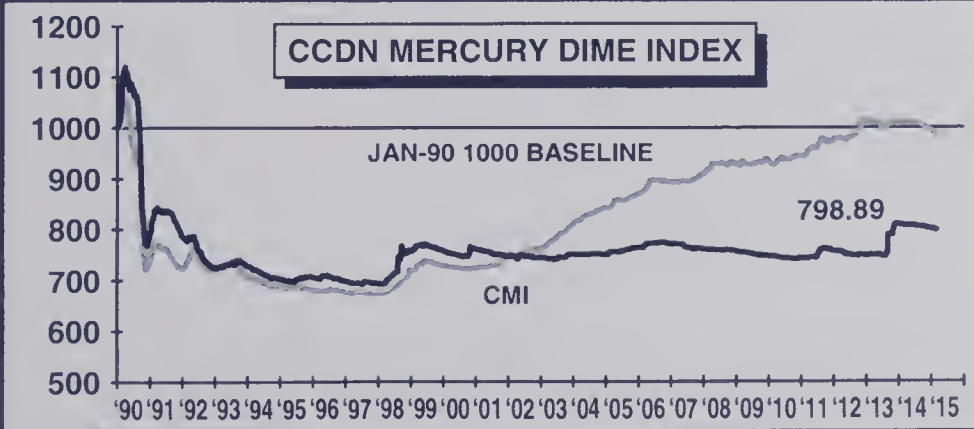

A nicely struck 1937-D 3-Legged Buffalo graded MS65+/CAC by PCGS brought in a nice chunk of change of \$35,250 to the Legend sale. A couple of NGC slabbed 1937-D 3-Legged Buffaloes graded MS64 and MS62+ which are both from the Highland Collection will be taking the stage at the ANA next week in Oregon. A gorgeous first year 1913 Philly Type 2 Buffalo graded MS67+/CAC by PCGS will look to bring the house down in Portland. This example has a pop 22 at this grade level and is one of two wearing the Plus sign as well as one of seven having the CAC approval sticker.

Mercury Dimes garner strength in MS64 with many dealers/collectors spotting their favorite early example and sustaining Bid levels. At the moment these Very Choice ten Cent pieces are the in the spotlight. One lustrous 1936 Proof example in PCGS PR67 with a green bean sold for a princely sum of \$4,935 at the recent Legend sale. This is one of only 25 CAC examples out of a combined pop of 150 with three numerically higher. One would need to venture back to December 2011 to find the last time where this Dime had a better showing at auction with the same PCGS grade and CAC sticker.

A small number of Walking Liberty Halves saw some dim auction results, coming up just shy of sight-unseen Bid. 1938 pieces graded Very Choice in NGC slabs escape reductions in Bid; however one Half did manage to pull in \$112, falling \$14 short of what other dealers are paying blindly. Among the other dates descending the largest is merely a 6% adjustment. Support for the lower grades (MS61-MS64) is strong and vibrant for the earlier years of the series. As for Proof Singles, nearly any Walker in Choice and better is easily finding a buyer paying Bid. 1942 NGC Singles take the cake having solid support across all grades reported.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder.
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; lm - Lowest asking price appearing last month "lt" Trade appearing last month; "ot" Trade older than 2 months; a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis

Coin

And Get Your
FREE
POP Report!

Verify Your Stickered Coin!

You can use the online CAC Verification Search feature to check the CAC database for ALL coins that CAC has stickered .

Data for each stickered-coin is compiled in CAC's secure database. You can use CAC's FREE online tools to easily verify your stickered coin. What's more, you have access to CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, FREE, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

Back Issues

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

- Complete set of the weekly **Coin Dealer newsletter (Greysheet)** from June 14, 1963 to December 19, 2014, now includes 2,628 issues. At \$2.00 each this would normally cost \$5,256, but a complete set is only **\$3,475.**
- Complete set of the monthly **CDN Monthly Supplement** (formerly the Monthly Summary) from August 1976 to December 2014, now includes 461 issues. At \$2.00 each this would normally cost \$922, but a complete set is only **\$665.**
- Complete set of the **CDN Quarterlies** from January 1992, to December 2014, now includes 276 issues, a complete set is only **\$375.**
- Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies** now includes 3,365 issues, and extra savings at only **\$4,250.**
- Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)** from August 22, 1986 to December 19, 2014, now includes 1,406 issues. At \$2.00 each this would normally cost \$2,812, but a complete set is only **\$1,895.**
- Complete set of the monthly **Currency Dealer newsletter (Greensheet)** from September 1980 to December 2014, now includes 412 issues. At \$2.00 each this would normally cost \$824, but a complete set is only **\$600.**
- **For the most complete numismatic pricing library possible, you may order a COMPLETE set of all of the Back Issues listed above, includes 5,183 issues for only \$6,475.**

1 - 10 issues - \$3.00 each

11 - 25 issues - \$2.50 each

26 & over - \$2.00 each

**Or, you can purchase complete sets
for a really dramatic savings**

Dallas Sale Lassoes \$6.5 Million

Silver, Gold Hit Lowest Spots Since Year's Beginning

The PNG Dallas Coin & Paper Money Show and auction, which ran February 26-28, garnered a solid prices realized of over \$6.5 million through Heritage. Winning top lot honors was a 1916-D Mercury Dime graded PCGS MS66FB, CAC, bringing in \$94K. Coming in second place was an 1867 Liberty Eagle, graded PCGS PR64+, CAC, Cameo which realized \$64,625. Taking the third position for \$58,750 was an 1802/1 Capped Bust Half Eagle, graded PCGS MS64+. Dealers are now preparing for the next several shows this month, including the 21st annual Chicago Paper Money Expo, March 5-8. March 20-22 is slated for the 52nd annual Las Vegas Numismatic Society Coin Show. Then, it's the big Whitman Coin & Collectibles Baltimore Expo, now in their 43rd year, scheduled for March 26-29, with an auction by Stack's Bowers. All these shows add up to dealers needing cash on hand, which helps explain the low totals on the sight-unseen, dealer-to-dealer electronic trading networks. A mere \$56K in transactions took place over the past week. Precious metals remain in somewhat of an anemic state. Gold stands just below the \$1,200 benchmark at \$1,196 per ounce. Silver has lost some ground, and is currently trading at \$16.14. Platinum came in slightly higher than last week, closing at \$1,180, while Palladium gained a bit of ground to land on \$825.

The 1936-D San Diego Half Dollar in NGC MS64 holders takes a dip of 22% to now Bid at \$62, affecting the lower Mint State grades as well. Darkly and irregularly toned Classic Silver Commems continue to suffer at public auction. The better date of the two coins of the issue, the 1921 Pilgrim Tercentenary in MS62 takes a \$25 drop, a coin with a combined PCGS and NGC population of 197. Lastly, Gem graded Oregon Trail Memorials take a slight step back and settle at \$150.

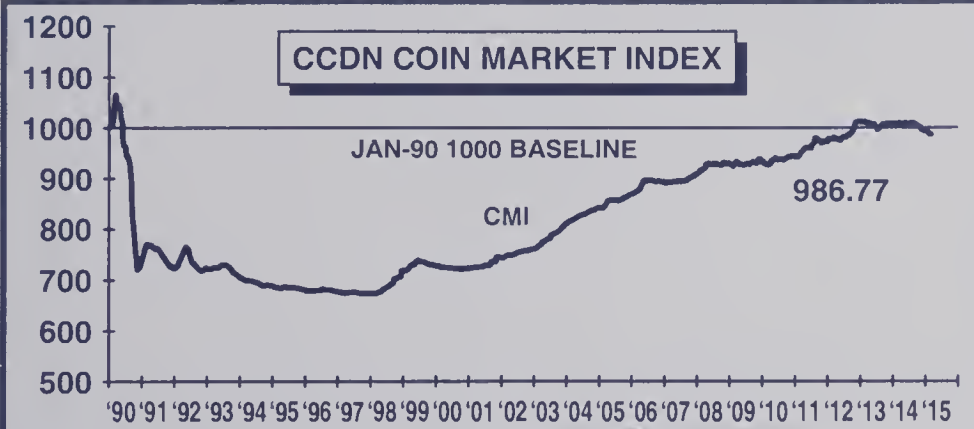

Type Two Standing Liberty Quarters with the Full Head designation are the only movers in Mint State Type this week, as MS63 specimens slip to a Bid of \$260. An exceptionally clean 1896 Barber Quarter, certified PCGS/CAC MS66 brought a strong \$3,760 at the recently concluded auction in Dallas, one of just three pieces at this grade level to earn a CAC sticker. Gold Type is stable this week as Spot has been relatively flat all week. Buyer demand is present for \$20 Saint-Gaudens in MS61, 63, and 64. PCGS 1879-O Morgan Dollars are down almost 11% this week in MS62 to

a sight-unseen Bid of \$116. Government issued and graded GSA Dollars are seeing strong demand as dealers are paying at or near Bid. A few better dated San Francisco Minted Peace Dollars encapsulated in PCGS holders are being targeted in MS66 at current sight-unseen Bids with examples being: 1922, 1923, 1924 and 1934. At the recent Dallas show, a gorgeous pop 3 with none finer 1901-S Morgan Dollar graded MS67 by PCGS brought in a whopping \$42,300. Also doing well at the same sale was a Proof 1896 Dollar graded PR68 Deep Cameo by PCGS racking up \$39,950 and two PCGS 1934-S Peace Dollars graded MS65 and MS64 seeing the winning Bidders handover \$8,520 and \$6,463, respectively.

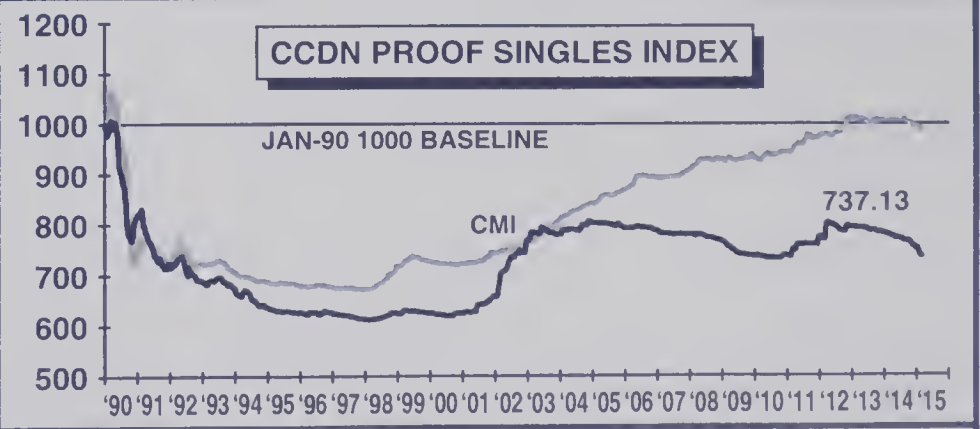

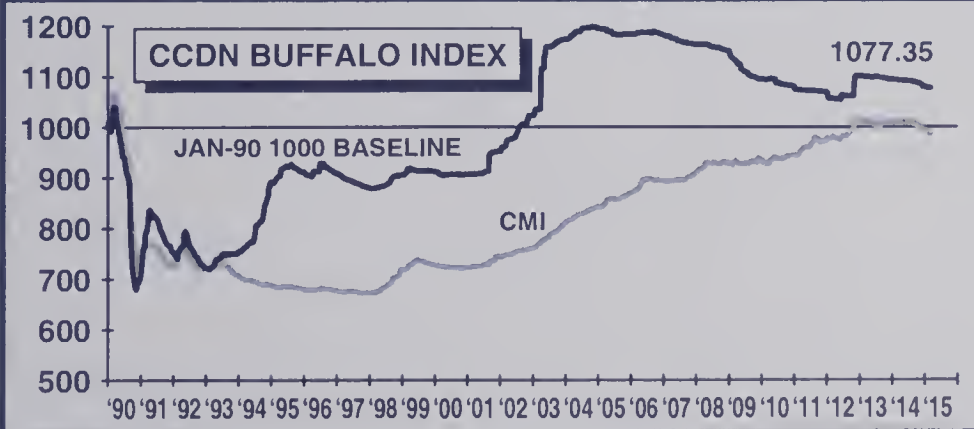

Buffalo Nickels brought their A-game to Dallas with the 1918/7-D graded AU58 by PCGS and wearing the CAC sticker leading the way bringing \$25,850. A pair of nicely struck and toned 1937-D 3-Legged Buffs both in PCGS slabs graded MS64+/CAC and MS63 walked away for \$11,163 and \$4,465 as these are always must have coins when offered at auction. A sight-unseen offer of \$25,000 still stands for any of the 56 MS65 PCGS 3-Legged Nickels as these are rarely up for auction in this grade.

Leave it to the ultimate of Merics, the 1916-D, to capture two out of the top ten spots including the aforementioned highest price realized at the recent PNG show in Dallas. The second best selling Winged Liberty Dime and eighth best coin overall, was a Gem PCGS Full Band specimen which amassed \$43,475. This is the best showing for this date with a combined pop of 58 with 35 finer, since June, 2010. Proof examples see a constant foundation of support at Bid. A lustrous 1938 Proof Dime graded NGC PR68 had a six month high at auction when it hammered for a cool \$2,350.

Demand for Walkers near sight-unseen Bid is dominating common date MS61-MS62 material with PCGS slabs. Proof Halves see a couple of declines as 1940 pieces take a hit after lower than expected selling in Very Choice. Early Franklin Singles are having a bountiful time, flush with support at or near Bid especially for 1951—the date capturing the most attention from dealers seeing support at Bid for all grades except at the extremes of the grading spectrum where, despite being not at Bid remains extremely close. Other than Halves, 1940 is proving to be a pesky year for Cents as well in Gem PCGS holders.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC-stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the CAC sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ^{^ 650,000} ~~550,000~~ coins with a market value over ^{\$ 2.9 billion} ~~\$2.4 billion~~. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC-stickered coins bring a premium - they are placed only on quality coins.

CAC is a powerful market maker for its stickered coins. What's more, CAC provides liquidity to the market, having purchased coins in excess of ~~\$340,000,000~~ since its inception.

So, the ^{^ \$375,000,000} CAC sticker does not add value - it is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Need to Mail?

Need to contact America's leading numismatic dealers?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2014 Numismatic Dealer Directory™** are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only \$385 — well below the mailing industry standard of \$95/thousand.

Need just one state or region? Need a trial sample?
Pay only 8¢ per address and \$25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2014 Numismatic Dealer Directory.

I understand that my \$385 fee entitles me to only one usage of these addresses. _____

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

Back Issues

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

- Complete set of the weekly **Coin Dealer newsletter (Greysheet)** from June 14, 1963 to December 19, 2014, now includes 2,628 issues. At \$2.00 each this would normally cost \$5,256, but a complete set is only\$3,475.
- Complete set of the monthly **CDN Monthly Supplement** (formerly the Monthly Summary from August 1976 to December 2014, now includes 461 issues. At \$2.00 each this would normally cost \$922, but a complete set is only\$665.
- Complete set of the **CDN Quarterlies** from January 1992, to December 2014, now includes 276 issues, a complete set is only\$375.
- Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies** now includes 3,365 issues, and extra savings at only\$4,250.
- Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)** from August 22, 1986 to December 19, 2014, now includes 1,406 issues. At \$2.00 each this would normally cost \$2,812, but a complete set is only\$1,895.
- Complete set of the monthly **Currency Dealer newsletter (Greensheet)** from September 1980 to December 2014, now includes 412 issues. At \$2.00 each this would normally cost \$824, but a complete set is only\$600.
- **For the most complete numismatic pricing library possible, you may order a COMPLETE set of all of the Back Issues listed above, includes 5,183 issues for only\$6,475.**

1-10 issues - \$3.00 each
11-25 issues - \$2.50 each
26 & over - \$2.00 each

**Or, you can purchase complete sets
for a really dramatic savings**

CERTIFIED COIN DEALER

CCDN—a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXX No. 11

March 13, 2015

Single copy price \$5.00

Precious Metals Plummet Liberty Seated Material Discounted

Precious metals have taken a severe dive. Gold has tumbled to \$1,152. Silver declined to close at \$15.50. Platinum dropped, settling on \$1,115, and Palladium fell to \$787. As a probable result of the upcoming shows and auctions this month, the sight-unseen, electronic dealer-to-dealer trading networks show a rather low transaction total of just above \$50K over the last week. March 20-22 is scheduled for the 52nd Annual Las Vegas Numismatic Society Coin Show which includes educational seminars. Then it's the much looked forward to Whitman Coin & Collectibles Baltimore Expo March 26-29, celebrating their 43rd year, with an auction by Stack's Bowers.

The Classic Silver Commems market segment continues to be a seesaw, with auction performance characterized by an individual coin's eye appeal. Multiple issues take double digit percentage drops, led by MS66 graded Washington-Carver Halves, now down to \$110 Bid. PCGS certified MS67 Connecticut Tercentenaries take a 15% fall, along with MS64 Fort Vancouvers. Conversely, the colorful Commems from the recently sold Highland Collection produced some very strong results. Classic Gold Commems also take some losses this week, almost exclusively at the MS64 grade level, in which four different issues decline. The two McKinley Memorial dates take the steepest plunge, with the 1917 losing nearly 20%.

Liberty Seated material lacks support this week, with auctions and wholesale offers resulting in lower Bid levels across multiple denominations and grades. An 1853 Arrows & Rays Quarter graded PCGS MS65, with a population of 15 coins and 10 finer, brought \$9,990 at auction, well under the previous Bid. The No Stars Type of both Liberty Seated Dimes and Half Dimes also decline: the Dimes in NGC MS64 slabs take a 7% loss while the Half Dimes in PCGS MS65 holders lose 11%. In Gold Type, MS62 Type Two \$20 Libs drop to their lowest level since early 2009.

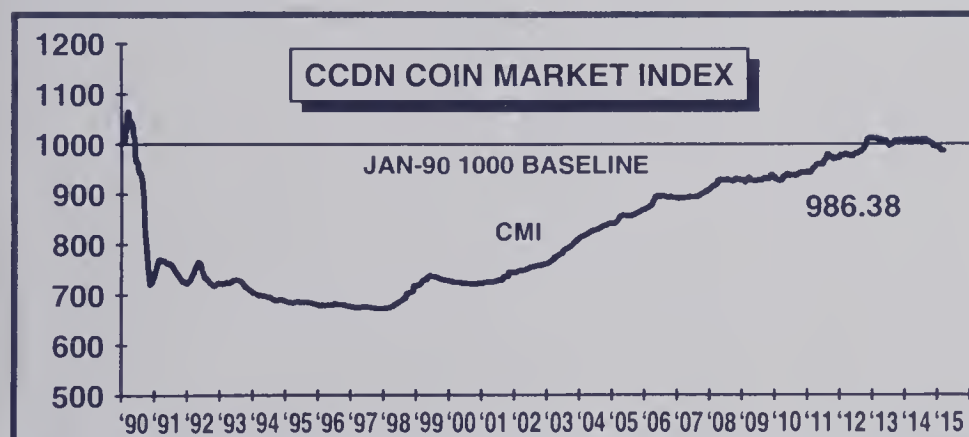

A smattering of Mercury Dimes in NGC Superb Gem is treading downhill. Several Full Banded examples in this highest grade see decreases. Leading the pack with the greatest change is the 1937-D which sees an 11% tumble after a toned example sold a little light online. The decreases aren't limited to one grading

service, however, as a PCGS slab, 1923-S, saw its first activity in seven months when an MS64FB piece with a veil of glowing champagne patina changed hands for \$1,293. Walkers are getting a few scrapes and bruises for some semi-key dates in PCGS slabs with a multitude of drops, some as high as 11%. Minus signs affect nearly every grade listed.

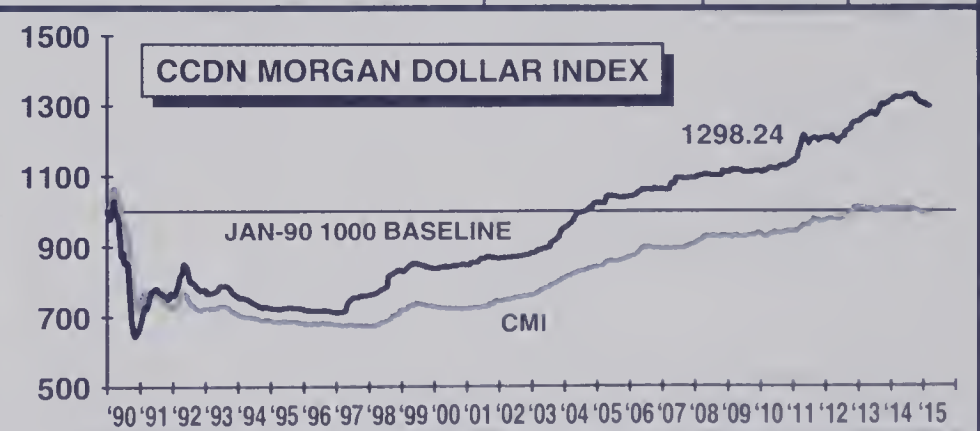

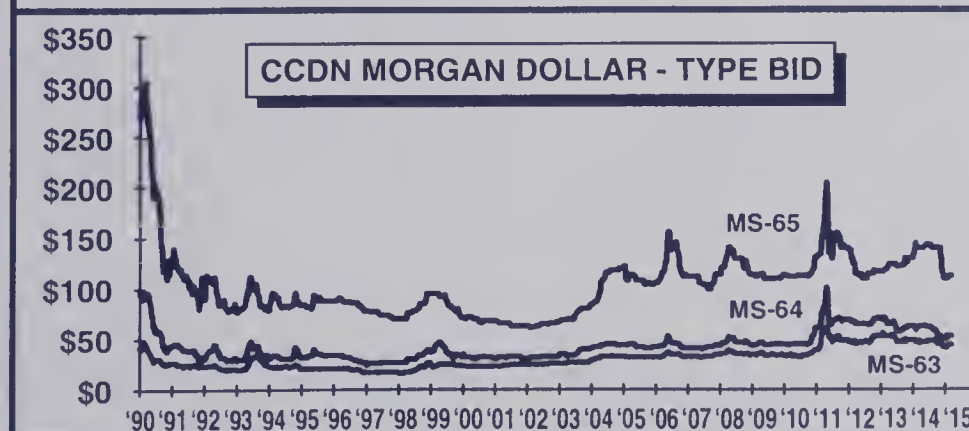

Proof Singles are traveling a bumpy road with Nickels, Dimes and Halves getting some rocky results. Although 1938 Jeffersons took an 18% hit in PCGS PR67, Mercury Proofs in NGC slabs encountered a double blow as 1936 pieces take a couple of licks in PR66 and PR64 with the former of the two cooling down to now Bid an even \$1,000 sight-unseen, a level not seen since June 2001. Proof Walkers see lighter declines but also sell a bit short in a couple of instances. Superb Gem 1942 examples command a solid Bid of \$590 for NGC slabs, yet one dealer managed to walk away paying \$26 less.

San Francisco minted Morgan Dollars in PCGS holders from 1900 to 1904 are being sought after in MS61 through MS65 at current sight-unseen Bids. PCGS 1878 7TF (Rev. 79) Morgan Dollars in MS66 are seeing a dramatic drop of 21% to a sight-unseen Bid of \$5,825 due to a weak price realized at auction. An 1896 Philly Dollar graded MS66 by NGC did poorly at a recent Stack's Bowers on-line auction bringing in \$294 which is \$31 less than sight-unseen Bid. Common date Proof-Like Morgan Dollars have fallen a bit to a Bid of \$105 in MS64 as well as the 1881-CC Proof-Like in MS63 now at \$485 in PCGS and \$475 in NGC. Lack of demand is seen for better date Peace Dollars in MS64 for both PCGS and NGC resulting in minus signs this week.

Nothing but minus signs to show in the Buffalo segment as key date 1918-S Buffalo Nickels encapsulated in MS65 NGC slabs are now Bidding lower to a sight-unseen Bid of \$6,900. Also taking the same route are PCGS slabbed 1925-S Nickels in MS64 now Bidding \$1,700. A gorgeous NGC 1937-D 3-Legged Buffalo Nickel in MS64 brought in a nice chunk of change of \$5,580 at the recent Stack's Bowers auction in Portland.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Need to Mail?

Need to contact America's leading numismatic dealers?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2014 Numismatic Dealer Directory™** are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only \$385 — well below the mailing industry standard of \$95/thousand.

Need just one state or region? Need a trial sample?
Pay only 8¢ per address and \$25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2014 Numismatic Dealer Directory.

I understand that my \$385 fee entitles me to only one usage of these addresses.

SIGNATURE _____

☐ My check for \$385 payable to CDN, is enclosed. ☐ Visa/Master

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 650,000 coins with a market value over \$2.9 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over \$375,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

Back Issues

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

- Complete set of the weekly **Coin Dealer newsletter (Greysheet)** from June 14, 1963 to December 19, 2014, now includes 2,628 issues. At \$2.00 each this would normally cost \$5,256, but a complete set is only **\$3,475.**
- Complete set of the monthly **CDN Monthly Supplement** (formerly the Monthly Summary) from August 1976 to December 2014, now includes 461 issues. At \$2.00 each this would normally cost \$922, but a complete set is only **\$665.**
- Complete set of the **CDN Quarterlies** from January 1992, to December 2014, now includes 276 issues, a complete set is only **\$375.**
- Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies** now includes 3,365 issues, and extra savings at only **\$4,250.**
- Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)** from August 22, 1986 to December 19, 2014, now includes 1,406 issues. At \$2.00 each this would normally cost \$2,812, but a complete set is only **\$1,895.**
- Complete set of the monthly **Currency Dealer newsletter (Greensheet)** from September 1980 to December 2014, now includes 412 issues. At \$2.00 each this would normally cost \$824, but a complete set is only **\$600.**
- **For the most complete numismatic pricing library possible, you may order a COMPLETE set of all of the Back Issues listed above, includes 5,183 issues for only \$6,475.**

1 - 10 issues - \$3.00 each

11 - 25 issues - \$2.50 each

26 & over - \$2.00 each

**Or, you can purchase complete sets
for a really dramatic savings**

CERTIFIED COIN DEALER

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963) *newsletter*

Vol. XXX No. 12 March 20, 2015 Single copy price \$5.00

NGC Plus Material Shines Strong Support For Early Walkers

The Fed's meeting on Wednesday, March 18th resulted in a stock market rally and a 1% drop in the US Dollar. Stocks have since come back down after energy shares retreated. The upshot is that the Fed suggested that the benchmark rate will remain lower for longer. Precious metals are still fairly low, but are up from last week. This bodes well for dealers who are on their way to Baltimore for the Whitman Coin & Collectibles Expo March 26-29. Stack's Bowers will hold an auction at this show, and we have included several of the many highlights herein. As was the case last week, the transaction total on the sight-unseen, dealer-to-dealer electronic networks was quite low at just over \$50K.

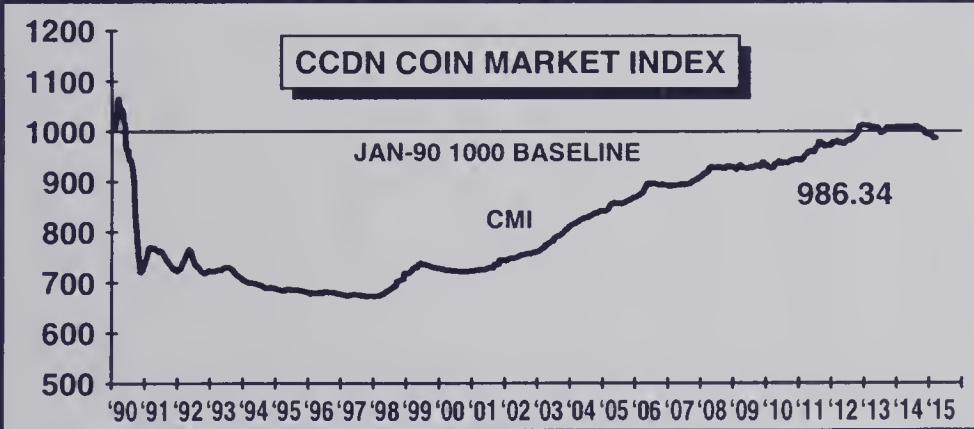

1922 Grant Memorials With Star in Gem holders slip a bit this week to Bid \$3,650 as a PCGS example brought under recent market value at auction. This represents a 24% decline compared to 12 months ago for these coins in PCGS slabs, and a 21% drop for NGC holders. An eye-catching Delaware Tercentenary certified PCGS MS67+ is up for grabs next week in Baltimore, one of ten coins of this grade to be given a Plus designation by PCGS. There are only two coins finer, both MS68.

Gem Red Two Cent Pieces drop a slight 3% in NGC holders, while a PCGS graded Capped Bust Half Dime in MS64 hammered for \$940 recently against a \$980 sight-unseen Bid. Similarly, a Proof With Motto Liberty Seated Half Dollar graded NGC MS65 sold \$65 short of prevailing Bid. Many Mint State Type coins receive higher Bids for NGC Plus graded material, which can be observed on Page H. In Gold Type, MS63 \$5 Libs With Motto drop to \$450, their lowest level since late 2003. Type 3 \$20 Libs drop in the same grade, to a new Bid of \$1,250. Strong Bid support is seen for CAC stickered 1893-CC and 1893-S Morgan Dollars in MS64, MS65 and MS66 as buyers are willing to pay current sight-unseen Bids. PCGS Plus 1927-P, D and S minted Peace Dollars are being sought after at Bid. These and the rest of the CAC and Plus graded material can be seen on Supplemental pages G, H and I. Beautiful Morgan Dollars as well as some GSA

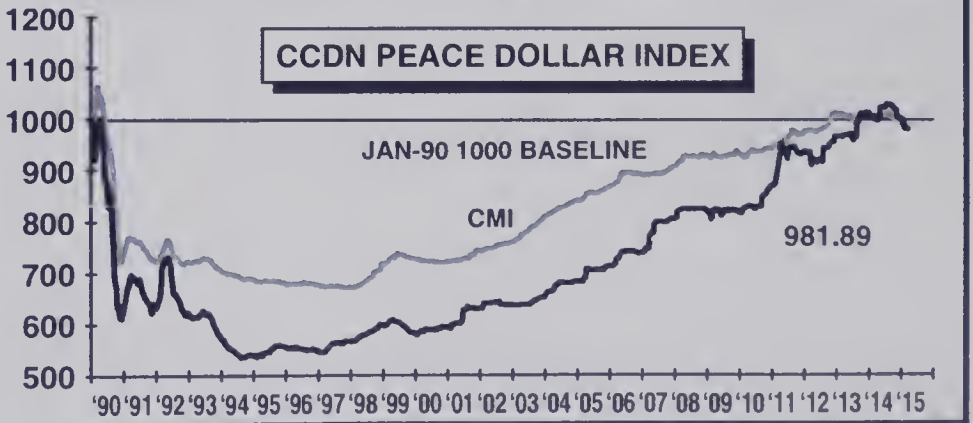

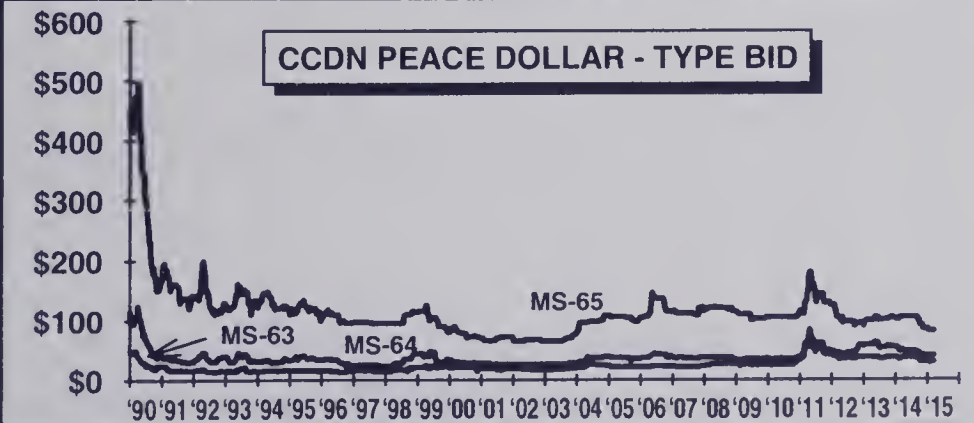

Dollars will be making their way to the auction block in Baltimore next week. A few examples being an 1884-S Morgan graded MS63+/CAC by PCGS as this has a pop of 4 with the Plus sign and pop 5 with 11 finer wearing the CAC sticker. There are also two gorgeously minted 1893-CC Dollars both encapsulated in PCGS holders and graded MS64+ and MS64 as these will look to bring out competitive Bidders. Three GSA Morgan Dollars will take center stage in Baltimore as well, the highlight of the three being an 1881-CC graded MS67 by PCGS as there are fewer than 1% of these graded at this level or higher by PCGS. Solid activity is seen for key date 1934-S Peace Dollars in MS61 through MS65 for NGC as dealers are paying at or near current Bid levels. Stack's Bowers Rarities Night auction will likely see some serious Bidders come out for a rare 1934-S Dollar graded MS65+/CAC by NGC. This having a census of 4 and none finer with the Plus designation and a CAC pop of 49 with 7 finer.

First year 1913 Type One Philly Buffalo Nickels wearing the CAC approval sticker are being targeted in MS65 and MS66 at higher sight-unseen Bids of \$125 and \$185 respectively. PCGS Plus Buffaloes are seeing strong support across-the-board in MS64 through MS65 as dealers are offering to pay at or near Bid. Mercury Dimes stay quiet with the exception of Gem first year Phillies in PCGS+ which tread upwards by 14%. Dealers are thirsty for CAC and PCGS+ Walker material at Bid for earlier dates. Very slight negative activity is witnessed for a few pieces such as 1944-D CAC and 1945-S NGC+ as they slip down to a flat \$100 Bid. Proof Walkers also take some heat in PR66 with 1939 Singles taking a steep \$65 drop. A richly toned 1936 Half graded NGC PR67 CAC displaying warm peach hues will be open to buy next week in Maryland. This coin has an NGC pop of 86 and is tied for finest graded save for a single PCGS slabbed example in PR68. Moving a bit forward in time, a crisp and sharply lined Liberty Bell with a green bean are enough to make many a dealer happy as the first three years of Franklin issues garner plentiful sight-unseen support at Bid for all grades listed.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Precious Metals Make Some Headway All Eyes on East Coast

Precious metals finally made somewhat of a comeback over the last week. Gold jumped back above \$1,200 for the first time in roughly three weeks, and today rests at \$1,205. The white metal hasn't been back over \$17 for a bit longer, and continues to grow, now hitting \$17.12. Platinum landed on \$1,154 and Palladium closed at \$773. This is definitely good news for the participants in Maryland. As for trading on the dealer-to-dealer sight-unseen electronic networks, transactions are way down to about \$40K. This is after several weeks of being in the \$50K region. Dealers are clearly freeing up cash for purchases at the Baltimore Expo & Auction.

An 1890-O Morgan Dollar graded MS66 by PCGS did pretty well at a recent on-line auction bringing in \$4,700 as this has a pop of 25 with none finer. A couple NGC Dollars came up short at auction, an 1878 7TF graded MS63 took in \$100 to a sight-unseen Bid of \$105 and an 1885-O in MS65 saw the winner fork over \$106 as there is a Bid of \$114 being offered. Auction results such as these and many others can be seen in this week's Market columns which are published in the fourth issue of each month providing useful information, not available in any other publication. 1885-CC and 1890-CC Morgan Dollars both in MS61 and in PCGS slabs have tumbled down a bit now at sight-unseen Bids of \$640 and \$470. Two 1921 Peace Dollars performed well at a past on-line sale both NGC encapsulated and graded MS62 and MS63 picking up \$282 and \$340 respectively. At least one buyer is after one of the three PCGS MS67 1922-D Peace Dollars and is looking to dish out \$20,000 to acquire one. A gorgeous pop 164 and 2 finer 1884-CC Morgan graded MS67 by NGC is up for grabs in a weekly on-line auction ending March 31.

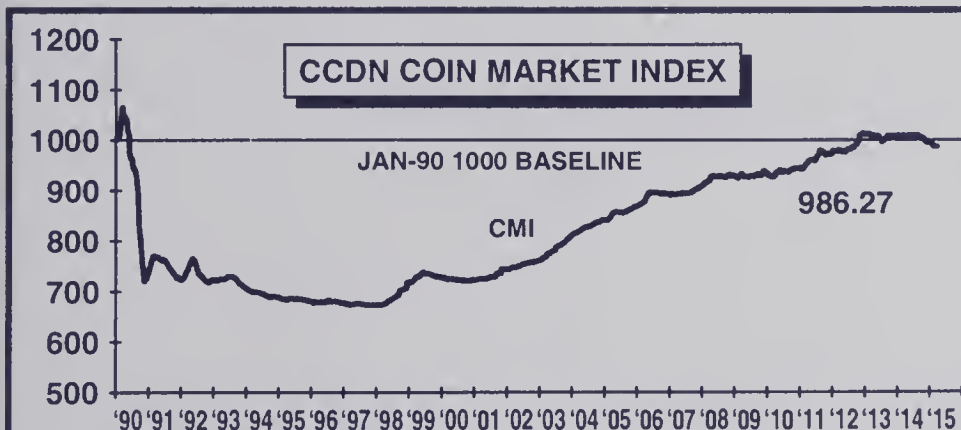

A nice fully horned 1915-D Buffalo graded MS64 by NGC pulled in a sum of \$482 through an on-line auction this past week. Also graded MS64 but in a PCGS holder is a 1929-D Nickel that saw the winning Bidder handover \$260 for this golden toned beauty. David Lawrence is hoping to find a new home for a gorgeously minted 1928-D Buff graded MS65 by PCGS in their weekly sale ending Sunday.

Lower Mint State graded 1936 Albany Halves drop slightly after a soft auction performance. The key 1928 Hawaiian Sesquicentennial has sight-unseen support at Bid for PCGS certified examples in grades MS64 through MS67. 1915-S Panama-Pacific Quarter Eagles decline as one of the just over 500 NGC graded Gems is offered for sale below market, resulting in a new Bid of \$4,950.

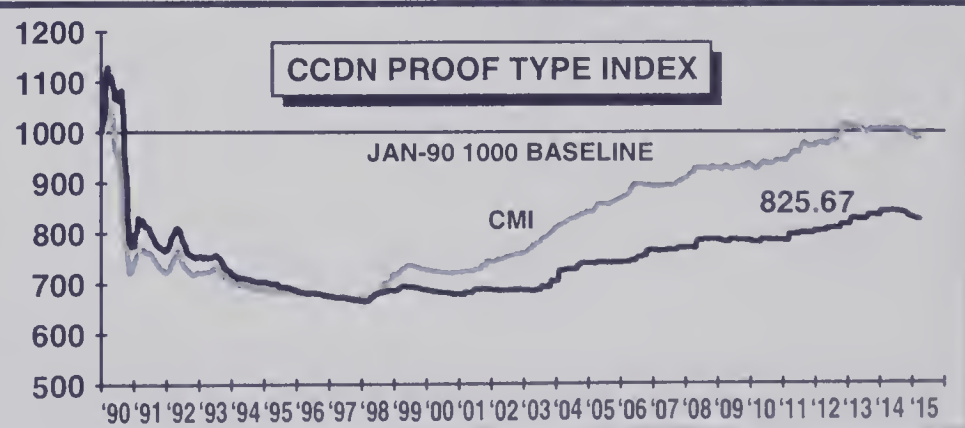

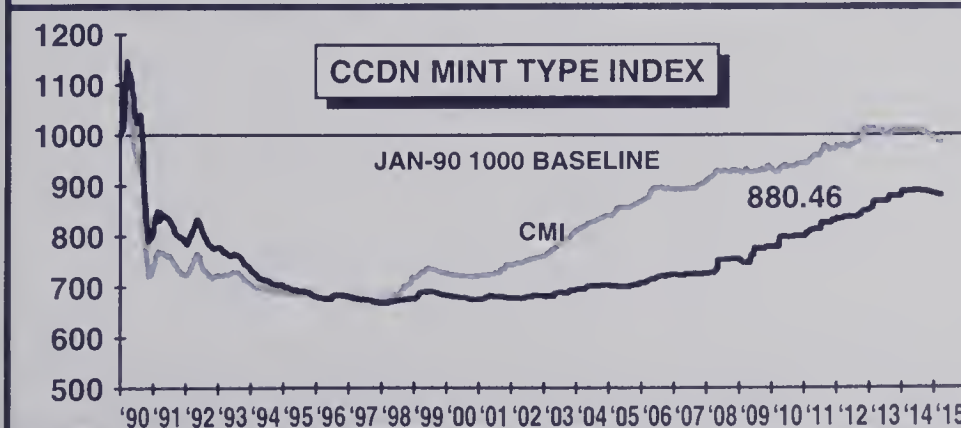

NGC slabbed MS65 Twenty Cent pieces tumble 13% as a somewhat irregularly toned specimen did not fare very well in a weekly auction. To date, NGC has certified 303 coins of the Twenty Cent Type as Gems. In Gold Type, \$2½ Libs are in demand as there are buyers at Bid in every grade from MS61 through MS66, and there is also a buyer for PCGS graded MS67 coins. PCGS has graded 456 (including Plus) MS67 examples of this long running series. The same holds true for MS61 and MS63 \$20 Saints, which have a sight-unseen buyer at current levels.

Mercury Dimes have a bit of a hiccup as one dealer let go of a nice 1917-S example graded Very Choice by PCGS for \$129 during an online auction while sight-unseen Bid stands 12% higher even after falling from \$150. This date had been quite stable, having not seen a decline since late May, 2008. As far as Proofs go, PR64 on through PR66 is the comfort zone for Mercury Singles where the majority of sight-unseen Bidding stands with full support. Walkers have somewhat of a quieter week. Blind-buying abounds all over the place for Mint State issues, particularly 1933-S and earlier. Beyond that date, demand in the low grades (MS61-MS62) remains massive staying very close to Bid while support at Bid begins to get selective as dealers narrow in on high quality material.

Elsewhere for Proofs, 1950 Jefferson Nickels tumble \$5 in a couple of NGC grades. Dimes and Halves take hold of the overall demand at Bid which would otherwise be solid if it were not for a pair of Franklins in PCGS PR64. 1950 and 1951 Halves both sold short at auction with the former year falling a tad 5% short of what dealers will pay without looking.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder.
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. Listing Policy: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; lm - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PCGS DMPL and PCGS DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and PCGS PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

Back Issues

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

- Complete set of the weekly **Coin Dealer newsletter (Greysheet)** from June 14, 1963 to December 19, 2014, now includes 2,628 issues. At \$2.00 each this would normally cost \$5,256, but a complete set is only **\$3,475.**
- Complete set of the monthly **CDN Monthly Supplement** (formerly the Monthly Summary) from August 1976 to December 2014, now includes 461 issues. At \$2.00 each this would normally cost \$922, but a complete set is only **\$665.**
- Complete set of the **CDN Quarterlies** from January 1992, to December 2014, now includes 276 issues, a complete set is only **\$375.**
- Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies** now includes 3,365 issues, and extra savings at only **\$4,250.**
- Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)** from August 22, 1986 to December 19, 2014, now includes 1,406 issues. At \$2.00 each this would normally cost \$2,812, but a complete set is only **\$1,895.**
- Complete set of the monthly **Currency Dealer newsletter (Greensheet)** from September 1980 to December 2014, now includes 412 issues. At \$2.00 each this would normally cost \$824, but a complete set is only **\$600.**
- **For the most complete numismatic pricing library possible, you may order a COMPLETE set of all of the Back Issues listed above, includes 5,183 issues for only \$6,475.**

1 - 10 issues - \$3.00 each
11 - 25 issues - \$2.50 each
26 & over - \$2.00 each

**Or, you can purchase complete sets
for a really dramatic savings**

Verify Your Stickered Coin!

You can use the online CAC Verification Search feature to check the CAC database for ALL coins that CAC has stickered .

Data for each stickered-coin is compiled in CAC's secure database. You can use CAC's FREE online tools to easily verify your stickered coin. What's more, you have access to CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, FREE, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

Metals Volatile

Demand Up For GSA Dollars

Volatility in precious metals has been significant this week. So far, Gold has gone from a low of \$1,183 to a high of \$1,208. Silver jumped from a low of \$16.58 to a high of \$17. Platinum leaped from \$1,117 to \$1,166, and Palladium made a big jump from \$749 to \$789. These price ranges have all been within a period of only three days. Currently, Gold stands at \$1,200; \$16.68 for Silver; \$1,155 for Platinum; and Palladium comes in at \$746. Not too surprisingly, now that the Baltimore Show has concluded, trading among dealers on the sight-unseen electronic networks has risen from about \$40K during the peak of the show, to nearly \$60K.

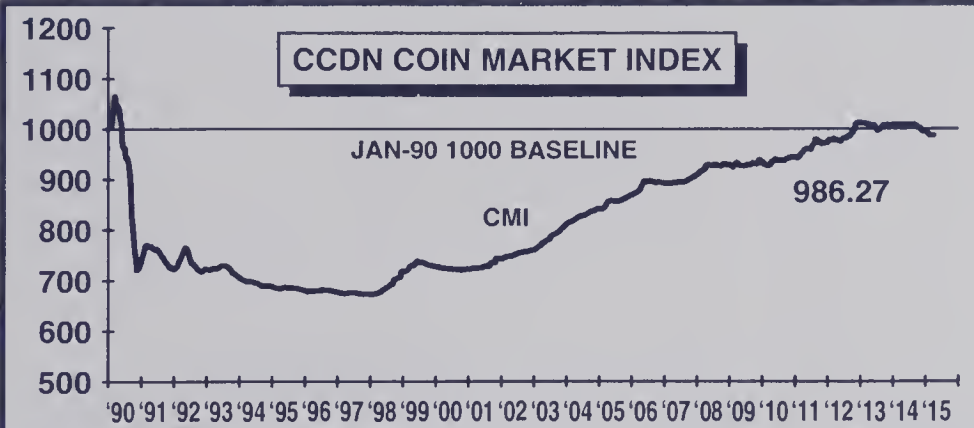

A trio of NGC graded Classic Silver Commems see declines this week, led by the 1927 Vermont in MS66 which endures a 12% drop. Also falling are the 1936 issues of Albany and Bay Bridge in MS64 and MS63, respectively. With a current sight unseen Bid standing at \$4,000, one of the 26 PCGS graded MS67 1892 Columbian Exposition Halves realized \$3,290 in Baltimore, leaving a fair amount of money on the table. This represents the lowest auction hammer price for a non-CAC PCGS MS67 over the past 10 years. Lower Mint State Liberty Seated Dimes and Quarters slide a bit this week, with MS61 Legend Obverse Dimes slipping to a new Bid of \$110 and No Motto Quarters in NGC slabs to \$320. On the demand side, two of the few series that have support with buyers at Bid in all grades MS61 through MS65 are Three Cent Nickels and Barber Quarters. In Proof Type, an NGC certified Gem Barber Half traded at auction 3% below prevailing Bid, coming up \$70 short, as Proof Barber Type material continues to suffer overall.

PCGS and NGC early dated Mercury Dimes see sight-unseen strength all throughout MS64 and MS65 in the Pre-Depression years. Dimes have also adjusted in Gem for those in ANACS slabs in light of recent auction results after one brilliant 1926 issue sold online for \$69. Proof Singles stay calm for the most part this week with the exception of Washington Quarters. 1942 Proofs in NGC PR67 were perturbed somewhat by deflating auction results, dropping Bid below \$200.

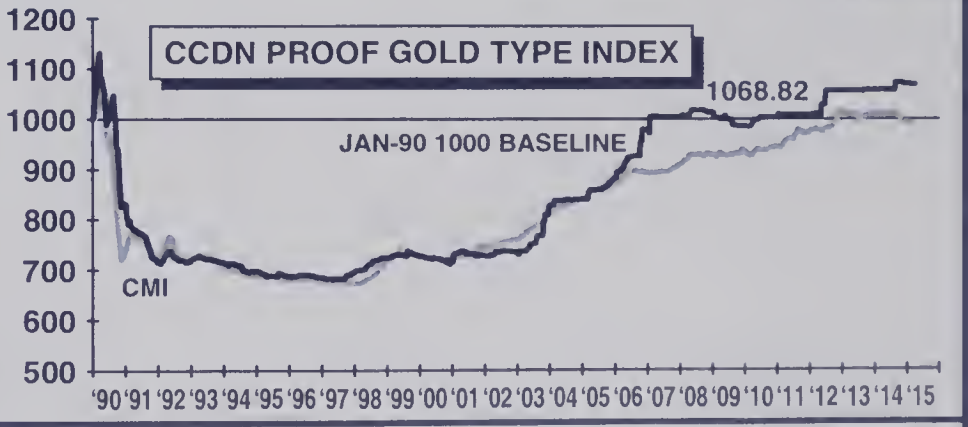

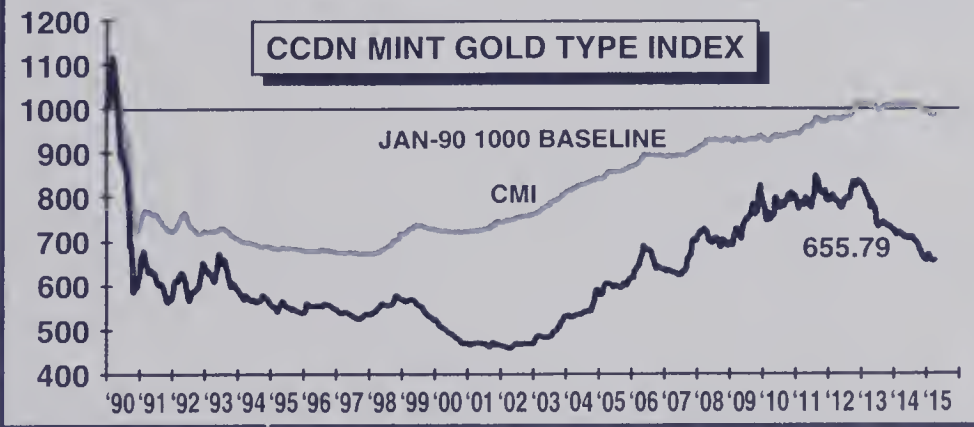

The top lot for Walking Liberty Halves from the Whitman expo on the East Coast was a 1927-S graded MS65 with CAC sticker that amassed a respectable \$17,625. This exclusively San Francisco Half with a combined pop of only 115 and another 15 higher saw its best result since late last June and the second highest price realized ever at auction! Second place is actually a PCGS slabbed three-way tie with a 1921-S in AU53, a 1942 PR67+/CAC and a 1934-S MS65 CAC all nabbing \$8,213. Interestingly, this last coin sold for twice as much as another Half graded MS66 with the same year, CAC sticker. The sole difference is that the issue in Gem had lovely iridescent toning and proved that certain hues command amazing premiums.

A gorgeous CAC approved 1900 Philly Morgan Silver Dollar graded MS66 by PCGS did well at a recent weekly on-line auction bringing in \$530. Strong support was seen for a beautiful bright white 1884-CC Dollar graded MS67 by NGC taking home a whopping \$4,230 in a past internet sale. A nicely golden toned 1878-CC Dollar graded MS63 by PCGS didn't perform to well at auction bringing in \$375 as there is a sight-unseen Bid of \$395. Two better date Peace Dollars saw great results: A 1928 Philly graded MS64 by PCGS and a 1935 San Francisco mint graded MS65 by PCGS, taking home \$1,295 and \$1,235 respectively. A handful of GSA Morgan Dollars with original box and certificate are seeing demand as dealers are paying more for a mixture of dates. Graded GSA Dollars are needed also as buyers are looking to pay at or near current Bid levels for 1878-CC and 1880-CC through 1885-CC in MS64 to MS66. A 1925-S Peace Dollar graded MS64+ by PCGS is hoping to find a new home after a Great Collections sale this weekend as this has a pop of 120 and the Plus sign.

An attractive golden toned 1928-S Buffalo graded MS64 by PCGS captured \$734 through a recent weekly internet auction. A gorgeously struck 1913-D Type 1 Buffalo Nickel graded MS67/CAC by PCGS with a CAC pop of four is up for grabs through a weekly internet auction ending Sunday.

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

Back Issues

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

- Complete set of the weekly **Coin Dealer newsletter (Greysheet)** from June 14, 1963 to December 19, 2014, now includes 2,628 issues. At \$2.00 each this would normally cost \$5,256, but a complete set is only\$3,475.
- Complete set of the monthly **CDN Monthly Supplement** (formerly the Monthly Summary from August 1976 to December 2014, now includes 461 issues. At \$2.00 each this would normally cost \$922, but a complete set is only\$665.
- Complete set of the **CDN Quarterlies** from January 1992, to December 2014, now includes 276 issues, a complete set is only\$375.
- Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies** now includes 3,365 issues, and extra savings at only\$4,250.
- Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)** from August 22, 1986 to December 19, 2014, now includes 1,406 issues. At \$2.00 each this would normally cost \$2,812, but a complete set is only\$1,895.
- Complete set of the monthly **Currency Dealer newsletter (Greensheet)** from September 1980 to December 2014, now includes 412 issues. At \$2.00 each this would normally cost \$824, but a complete set is only\$600.
- **For the most complete numismatic pricing library possible, you may order a COMPLETE set of all of the Back Issues listed above, includes 5,183 issues for only\$6,475.**

1-10 issues - \$3.00 each

11-25 issues - \$2.50 each

26 & over - \$2.00 each

**Or, you can purchase complete sets
for a really dramatic savings**

Dealer Prepare For CSNS

Rare Stella Variety To Be Sold

Once again, precious metals go on a rollercoaster ride. Gold was at a two month high in the beginning of the week at \$1,219 and since has fallen to \$1,194. Silver also started strong at \$17.10 and is currently at a Spot of \$16.16. Platinum began the week at \$1,180 and is now \$1,157. Palladium was \$769 and fell to \$762. Dealer-to-dealer sight-unseen electronic trading has been slow for quite a while now, and just over \$50K in sales has taken place over the last week. Coming up April 22-25 is the 76th Central States Numismatic Society Convention with an auction by Heritage. We have listed several highlights from this sale herein.

Gem 1921 Missouri Centennials are the main decliners in Classic Silver Commems this week, with NGC graded specimens losing 11%. 1935-S San Diego Halves also take a slight adjustment in MS66 to now Bid \$110 sight-unseen. In Classic Gold, 1903 Louisiana Purchase/McKinley Dollars in MS64 fall as a result of lower wholesale Asking prices. As eyes turn to the Central States auction, two standout Commems from amongst the many choice pieces on offer include a 1921 Alabama Centennial 2x2, certified NGC/CAC MS67, one of just four at this level and none finer, and a wildly toned 1915-S Panama-Pacific in a PCGS/CAC MS66 holder.

A handful of Mint State Type issues are affected by lower trading levels in the wholesale market, including NGC graded MS66 Liberty Seated Half Dimes With Arrows, MS65 and MS66 Liberty Seated Half Dollars With Motto, and Very Choice Trade Dollars. Interestingly, a few Full Head Type Two Standing Liberty Quarters have been offered for sale at prices below the current sight-unseen Bid. In Type Gold, the \$3 Indian Princess in PCGS MS66 slabs takes a hit to now Bid \$14,500. Many noteworthy Type coins cross the auction block in Chicago, one highlight being an 1861 Liberty Seated Half Dollar in the lofty grade of MS66+, certified by PCGS with CAC approval, as this popular Civil War date is in demand with Type collectors.

Mercury Dimes are running a bit quietly this week. NGC 1928-D pieces are enjoying fruitful demand at Bid for issues without Full Bands and also command the highest sight-unseen activity with dealers putting down \$1,300 in MS67 without hesitation.

Sight-unseen activity for Halves is mixed. There is plenty of support to go around yet some examples are still having a bit of a rough patch. One lonely 1943 example graded PCGS MS64 came up a wee short of Bid, selling for \$37. 1946-S Halves slip a little bit for NGC slabs graded Superb Gem. Demand is quite strong for Franklin Halves in Very Choice and in Gem for both grading services. However, early 1950's NGC slabs (1951-1955) are getting more limelight for examples with Full Bell Lines up through MS66FBL.

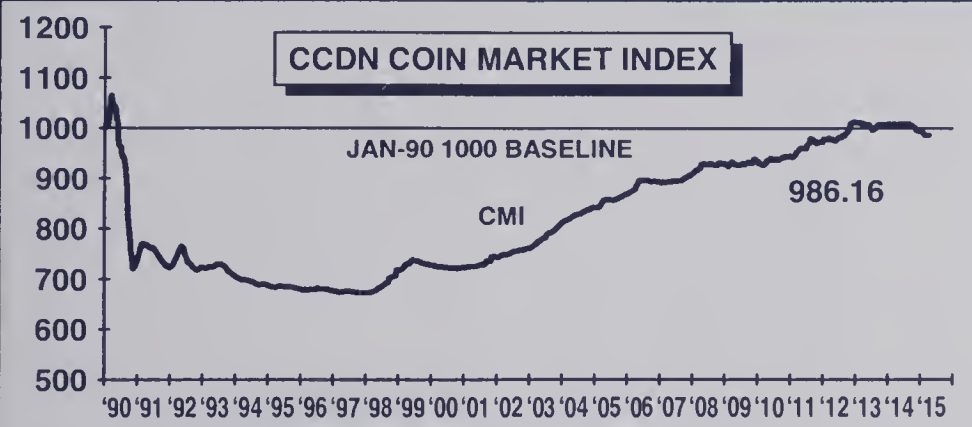

Proof Halves see some uncommon negative activity with first year 1936 pieces taking not one but two hits for those in NGC slabs. After being quiet for the last six months, Gem Singles have trotted downwards by \$150. However, despite this 7% setback, this date is enjoying a steady flow of demand at Bid in neighboring grades PR64 and PR66. Two grades higher, Bid drops 4% to \$4,300 in PR67. Other Singles don't blink an eye and keep their respective demand up in the higher grades.

San Francisco minted 1922 Peace Dollars encapsulated in PCGS holders are tumbling a bit in MS65 as sight-unseen Bid is now at \$1,455. Taking a beating are the NGC and PCGS 1879-S Proof-Like Morgan Dollars in MS65, which have fallen \$11 to a sight-unseen Bid of \$169. This and the rest of the Proof-Like Dollars prices can be seen on Supplemental Page E. An attractive 1880-S Morgan Dollar graded MS67 by PCGS and wearing the CAC sticker is up for grabs through a weekly internet auction

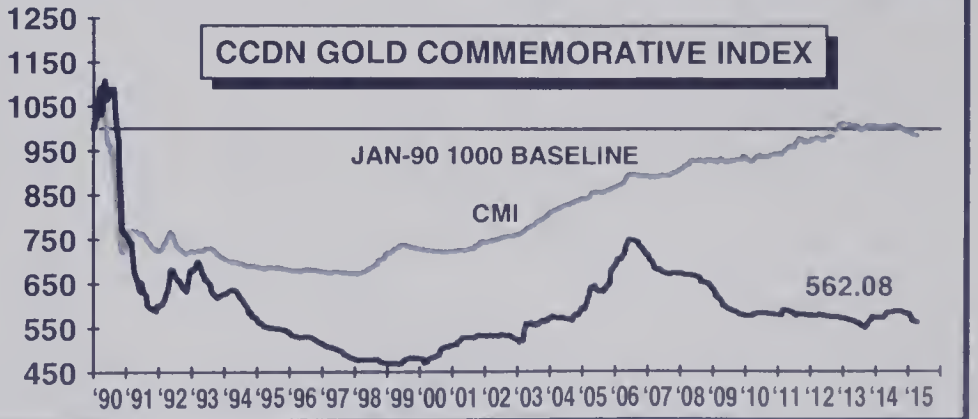

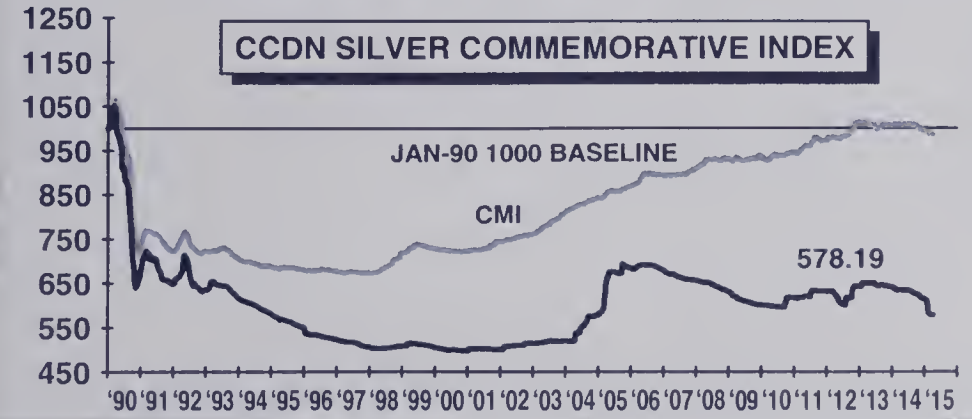

held by Great Collections ending Sunday evening. With a little toning around the edges on the Obverse, a beautiful 1883-S Dollar graded MS64 by PCGS is hoping to find a new home this week through a Stack's Bowers weekly on-line auction as this would be a great addition to someone's Morgan Dollar collection. Three PCGS 1880-CC Morgan Dollars graded MS66, MS65/CAC and MS64+ should grab some buyer's attention through a weekly auction.

A gorgeous golden toned pop 140 Proof 1914 Buffalo Nickel graded PR66 by PCGS is looking to find a new home through a weekly internet auction. PCGS slabbed 1913 Type 1 Philly and Denver minted Buffs are being targeted at current sight-unseen Bids of \$500 and \$1,800 in MS67.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest national reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

The CAC sticker helps to identify a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC-stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the CAC sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

^{^ 650,000}
CAC has evaluated over ~~550,000~~ coins with a market value over ~~\$2.4~~ billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC-stickered coins bring a premium - they are placed only on quality coins.

CAC is a powerful market maker for its stickered coins. What's more, CAC provides liquidity to the market, having purchased coins in excess of ~~\$340,000,000~~ since its inception.

^{^ \$375,000,000}
So, the CAC sticker does not add value - it is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Need to Mail?

Need to contact America's leading numismatic dealers?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2014 Numismatic Dealer Directory™** are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only \$385 — well below the mailing industry standard of \$95/thousand.

Need just one state or region? Need a trial sample?

Pay only 8¢ per address and \$25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2014 Numismatic Dealer Directory.

I understand that my \$385 fee entitles me to only one usage of these addresses.

☐ My check for \$385 payable to CDN, is enclosed. ☐ Visa/Master

FBL Franklins Sound Off In MS65 CAC

Dollars Get Swatted

Dealers are getting ready for the CSNS show in Chicago, which begins April 22 and runs until the 25th. This may explain the low total of \$43K in dealer-to-dealer sight-unseen electronic trading over the last week. For several weeks in a row now this total has been going down. Gold closed at \$1,198 today, staying close to that \$1,200 benchmark. Silver is at \$16.28—falling short once again of \$17 as it has since early this month. Platinum closed at \$1,159 and Palladium is a strong \$780.

A few downticks are seen in the Classic Silver Commems segment this week, beginning with PCGS graded Gem Isabella Quarters which land at a new Bid of \$1,375. 1935 Hudson Sesquicentennials in Very Choice slide a bit as well, a result of recent wholesale offerings. In Classic Gold Commems, the 1915-S Pan-Pac Dollar takes a hit in MS63, back to a Bid last seen in late September 2013. There is a flurry of activity for CAC and Plus graded Commems on Page G, with minus signs outnumbering plus signs by a ratio of more than four to one.

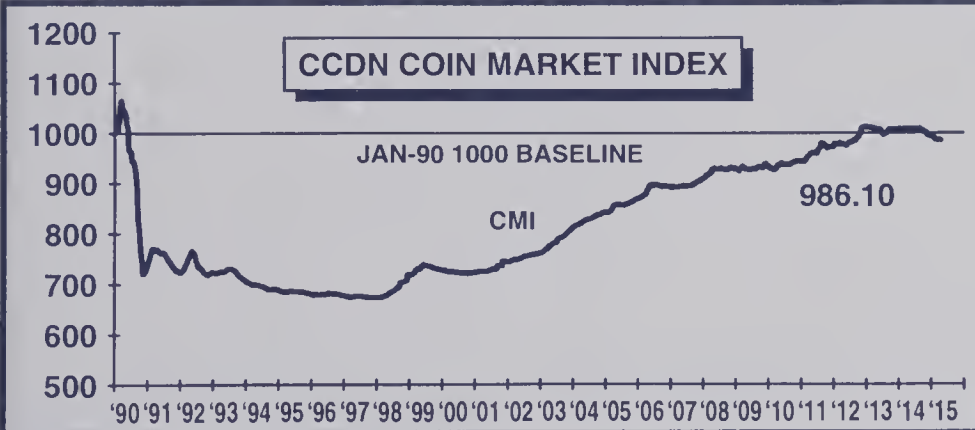

In Mint State Type, Braided Hair Large Cents in PCGS MS62 holders drop 6% to now Bid \$170. Also in MS62, Gold \$5 Libs have a new sight-unseen Bid as these have been offered at lower Ask prices. On Page H, CAC stickered Barber Halves in Gem receive a 4% gain, and nine Gold Type issues with CAC approval move up, led by Gem \$2½ Libs increasing by 9%, with the others mostly concentrated in the MS64 grade.

PCGS 1903 Philly Morgan Dollars in MS63 are seeing a bit of a setback this week falling to a sight-unseen Bid of \$59 as the rest of the grades from MS61 to MS66 are needed at current Bid levels. A mixture of Morgan and Peace Dollars are dropping like flies for PCGS and NGC CAC and Plus material in numerous grades. A key 1879-CC GSA Dollar graded MS64+ by PCGS and also having the CAC approval sticker will be up for grabs in Chicago. Only two NGC encapsulated Peace Dollars, both Philly minted, made the cut to be in the Platinum Night sale; a

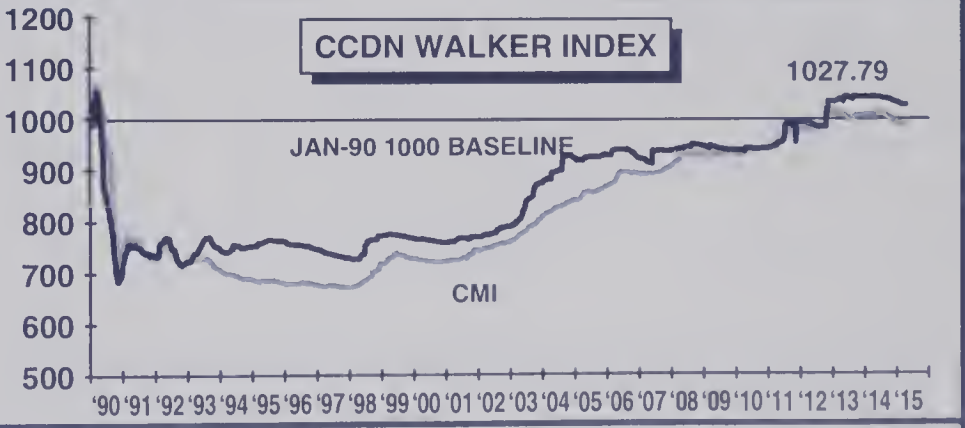

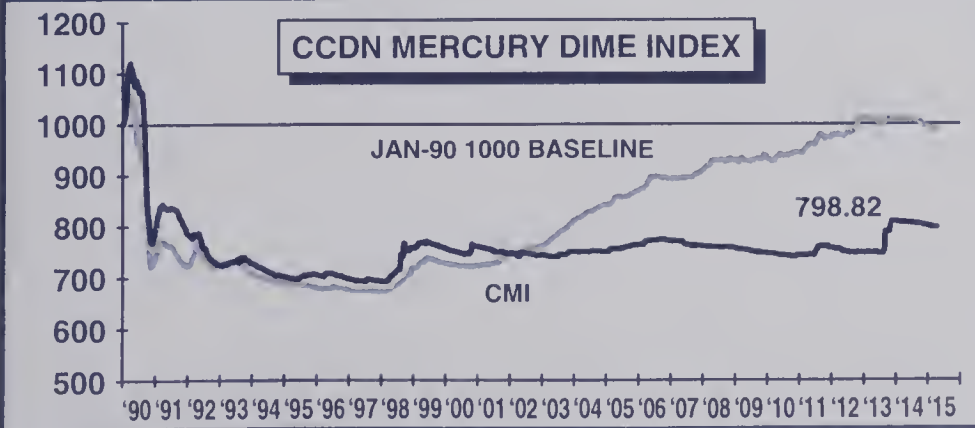

1927 graded MS66 and a 1934 graded MS66+ ★/CAC. PCGS Plus 1937-D 3-Legged Buffaloes are being sought-after in MS65 and MS66 as at least one dealer is offering to pay \$35,000 and \$60,000 respectively. 1915-D and S Nickels in PCGS holders are being targeted in MS64+ through MS66+ at current Bid levels. 1934 Philly Buffalo Nickels in MS65 wearing the CAC approved Sticker have hit a bump this week falling to a sight-unseen Bid of \$225. These results and the rest of the CAC and Plus graded material can be seen on Supplement pages G, H and I. A gorgeously toned 1937-D 3-Legged Buff graded MS66 by PCGS will hope to bring some serious Bidders out when this beauty takes the stage at the Platinum Night sale next week.

Full Bands on a Mercury Dime can sometimes make for a coin selling with a hefty premium. In this case, such Dimes with PCGS+ designations have dealers screaming in Very Choice and Gem to grab as much material as possible with sight-unseen support at Bid for a wide variety of common issues up through key dates. Common date Walking Liberty Halves sputter a bit and fall 3% to now Bid at \$112 which are now down 6% from the start of 2015 and 16% lower from this time last year. In the realm of CAC stickers and Plus signs demand is going wild. Demand for NGC+ slabs center around the earliest of Walkers where several varieties of 1917 pieces find support at Bid. Green bean quality Halves continue their trend with a cacophony of support for many issues in all grades reported with the exception of a couple of Bay Area issues.

Slight negativity is affecting some high graded Merc and Walker Proofs. PR67 Singles tread down modestly for CAC Types. For those Singles without a green bean demand is robust for slabs from both grading services. Dealers are clamoring with support for FBL Franklins in Gem CAC with Denver examples ringing loudest. Out of the 14 minted issues Bidders are targeting all but four with demand at or near sight-unseen Bid.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest national reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 650,000 coins with a market value over \$2.9 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over \$375,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

May To Be Record Setting Month

US Mint Observes National Coin Week

National Coin Week is here for 2015. Beginning in 1983, President Ronald Reagan set up the third week in April for people to get to know about numismatics. Dealers can certainly benefit from this with special promotions and themes relating to their merchandise. The theme this year is "Building Tomorrows: Inspiration and Innovation at World's Fairs." Dealer-to-dealer, sight-unseen trading is getting back to normal after several weeks of low numbers. In the last week, transactions have totaled over \$180K. Precious metals are still a bit unstable, with Gold at \$1,194; Silver closing with a price of \$15.80; Platinum at \$1,137; and Palladium at \$770.

A pair of PCGS 1921 Mercs, one in MS65FB minted in Denver and the other MS66FB from Philly, snagged \$8,225 in Chicago at the CSNS sale. Neither coin sells at auction often. The latter, a combined pop 67 with only seven numerically finer, last sold in summer of 2013 and the most recent non-CAC example hammered three years ago. Also, this is the best showing for this Denver date at auction for a specimen lacking a green bean.

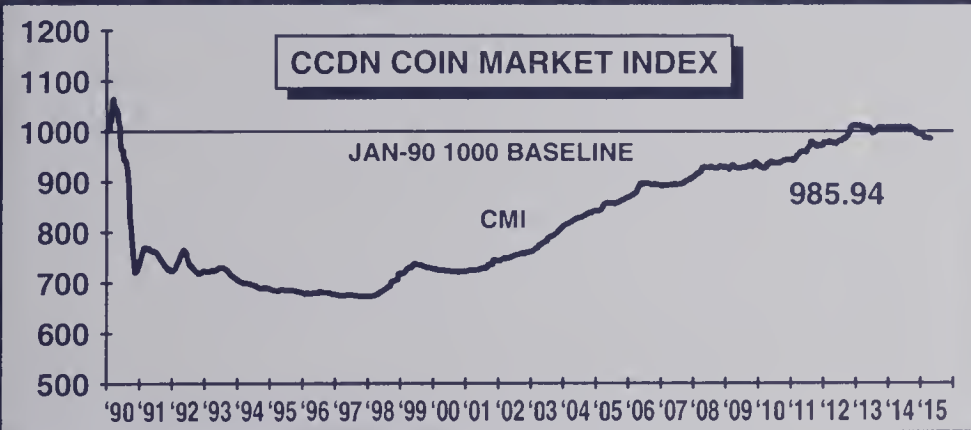

Activity for cream of the crop MS67 Walkers clusters around Short Set years with Denver minted material getting a little bit more attention keeping Bid solid for PCGS slabs. Several Half Dollars are selling short of Bid, most notably 1938 issues in PCGS slabs. Via online auction, one such coin came up way under, selling for only \$146, while others are paying 50% more without blinking an eye. Proof Walkers had a bit of a snag with PCGS 1938 Phillies in Gem as one example sells 6% short of sight-unseen Bid during wholesale trading, at only \$565.

A bit of negativity is found this week in the Classic Silver Commems segment, mostly centered on the MS65 and MS66 grade levels. A PCGS certified MS66 1935 Texas PDS Set takes a hit after hammering for \$588 at public auction, which is the lowest recorded price since December of 2003. The other big movers on a percentage basis include the Alabama Centennial in NGC MS64 holders and Lincoln-Illinois in PCGS Gem slabs declining 17%

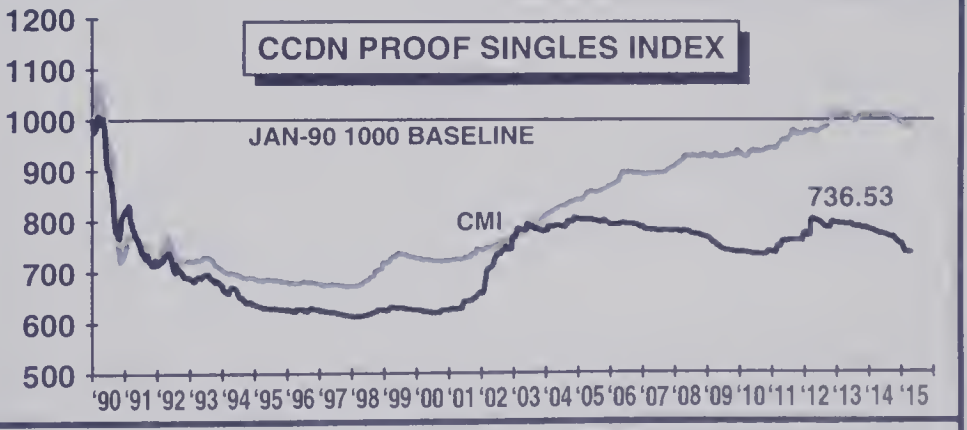

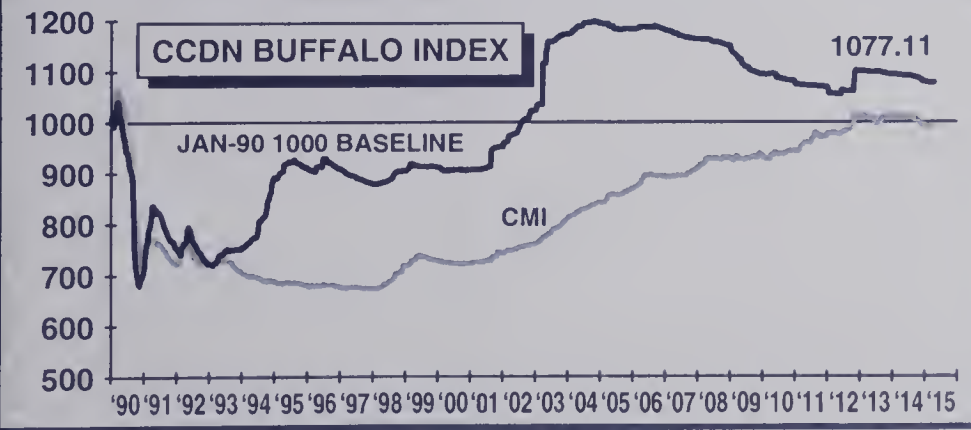

and 13% respectively. Mint State Gold Type is active, with MS61 and MS62 \$20 Libs showing weakness. NGC graded MS61 \$20 Saints traded at \$1,210 recently, despite the fact that a national dealer is currently Bidding \$1,235 sight-unseen. The ever-popular \$20 High Relief declines a bit in Choice as a dealer looks to move one out of inventory. In Proof Type, a few issues leave money on the table by passing through auction at levels below current sight-unseen Bid. These include NGC PR62 Liberty Nickels, PCGS PR61 Liberty Seated Dimes, and NGC PR65 Barber Halves.

MS65 1900 Philly Morgan Dollars encapsulated in PCGS holders and 1900-O Dollars in both PCGS and NGC have fallen to a sight-unseen Bid of \$114. Speaking of 1900-O Dollars, there is an example graded MS66 by NGC having the CAC approved sticker up for grabs in a weekly auction ending Sunday. Also up for grabs through a weekly auction is a gorgeous pop 21 with 28 finer 1895-O Morgan Dollar graded MS62 by NGC. At a recent online auction a 1927-D Peace Dollar graded MS63 by NGC did well, bringing in \$410—this is \$130 more than what is being offered sight-unseen. Auction results such as these and many others can be seen in this week's Market column which is published the fourth issue of each month providing useful information, not available in any other publication. An online sale is hoping to find a new home for a beautiful minted 1922-D Peace Dollar graded MS66 by NGC as this has a pop of 262 with 16 finer.

Philadelphia teens for Buffalo Nickels are being targeted for both PCGS and NGC in MS64 as dealers are offering to pay current sight-unseen Bids to get these examples. In a weekly auction going on now a nicely struck 1938-D Buff Nickel graded MS67 by PCGS hopes to find a new home in someone's registry set as this coin has great eye appeal. Also on the market through an internet sale are two first year Buffalo Nickels, one a 1913 Philly Type 1 graded MS66 by PCGS and the second a 1913 Philly Type 2 graded MS64 by PCGS.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell list, coin show and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; 1m - Lowest asking price appearing last month; "H" Trade appearing last month; "ot" Trade older than 2 months; a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Verify Your Stickered Coin!

You can use the online CAC Verification Search feature to check the CAC database for ALL coins that CAC has stickered .

Data for each stickered-coin is compiled in CAC's secure database. You can use CAC's FREE online tools to easily verify your stickered coin. What's more, you have access to CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, FREE, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

Chicago Auction Hammers \$46 Million

Gold Takes A Hit

The CSNS show had quite a successful auction, realizing just over \$46 million. We have listed some of the many highlights herein. Sight-unseen trading over the electronic dealer-to-dealer networks is picking up momentum. Last week the total was \$180K, and this week came in at over \$215K. Precious metals remain rather volatile, especially with Gold. The yellow metal fell off a cliff today, dropping to \$1,182, the largest one day decline in nearly two months. Silver has been below \$17 since the first week of the month, and is now at a Spot of \$16.12. Platinum has taken a loss to come in at \$1,140, and Palladium has dropped a bit, closing at \$777. The Denver Coin Expo, celebrating 30 plus years, will hold a show May 6-9, with a live auction May 8.

An 1894-S Dollar and an 1896-S Dollar both in PCGS slabs and graded MS63 did well at a recent on-line sale bringing in respectable amounts of \$1,225 and \$3,700. 1902 Philly Morgan Dollars in MS64 encapsulated in PCGS holders are seeing a bit of a decline this week dropping to a sight-unseen Bid of \$116. GSA Dollars in original government box with certificate are being targeted at or near current Bid levels. Negativity is seen for NGC slabbed 1884-CC GSA Morgan Dollars graded MS65 as they are now Bidding \$440. Key-date 1928 Philly Peace Dollars in PCGS holders are seeing activity in a negative way in MS63 and MS64 as sight-unseen Bids are now down at \$620 and \$845 respectively. Only two Peace Dollars made the cut to represent at the Platinum Night sale and they did not disappoint bringing in \$25,850 for the 1927 graded MS66 by NGC and \$37,600 for the 1934 graded MS66+ ★/CAC by NGC.

A gorgeous golden toned 1931-S Buffalo graded MS67 by PCGS changed hands for a whopping \$28,200 last week in Chicago which was the top lot for Nickels. A pair of NGC 1918 Philly minted Nickels graded MS63 and MS64 did well through a recent weekly on-line sale bringing home \$240 and \$450.

Some minor changes are found this week in Classic Silver Commems, as Gem Booker T. Washington Halves slip 10% to a Bid of \$27. Other modest decliners are the 1936-S Oregon Trail in

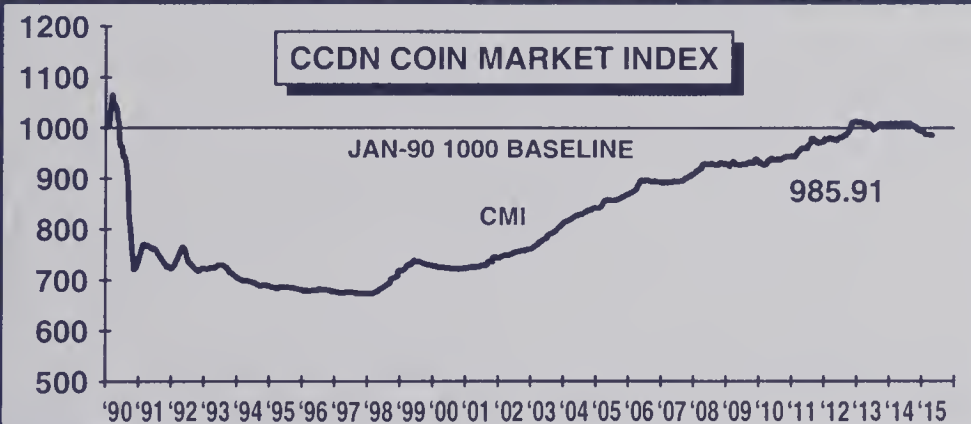

MS66 and PCGS certified Delaware Tercentenary also in MS66, which each drop 2%. Commems fared very well overall in the recent CSNS auction, with the Texas Centennial a standout, as no less than five examples brought five figures, including three hammering over \$20,000 a piece.

MS66 Barber Quarters in NGC holders take a steep drop after a disappointing auction result, dropping back below \$1,000 to their lowest level on record. Five years ago the sight-unseen Bid on these coins was \$1,200 and ten years ago it was \$1,225. The current Bid is an indicator of two trends: the separation of coin quality within a certified grade by buyers and a perception of changing grading standards employed by the major grading services. In Gold Type, MS67 \$20 Saints receive higher Bids.

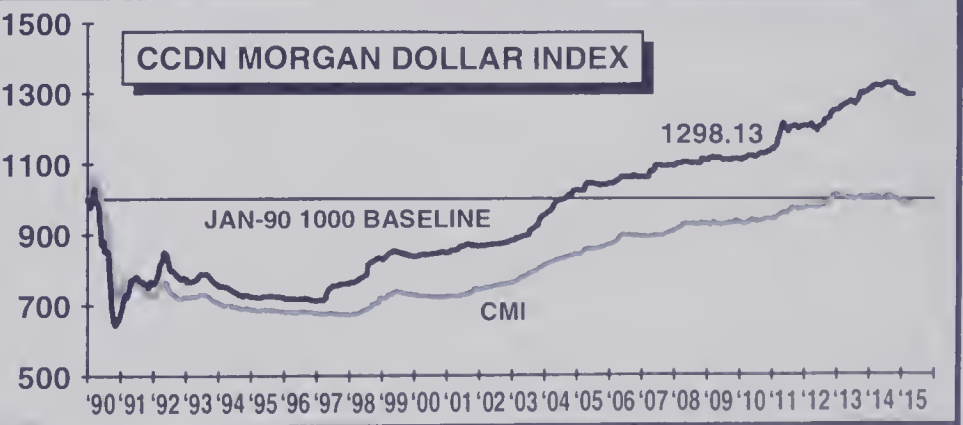

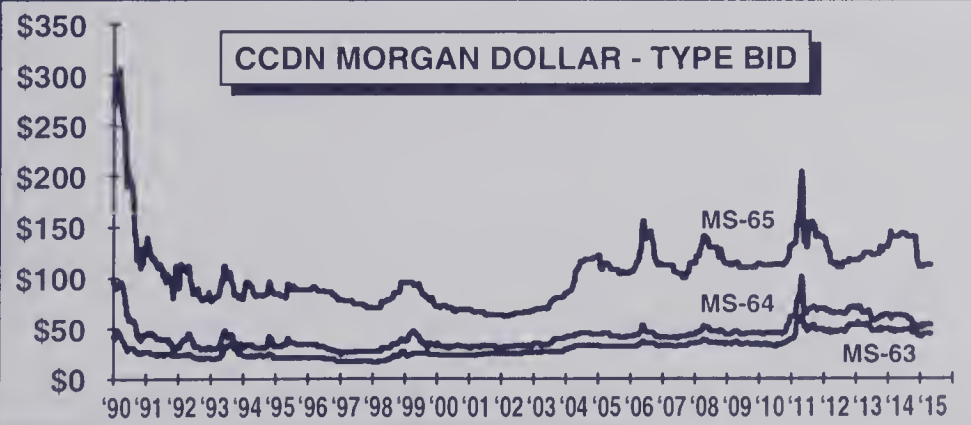

Mercury Dimes are getting rocked in the higher grades with several fully banded dates coming up short at public auction. Most of these affected Dimes are early semi-key dates which are not seen at auction often. In Gem, 1920-D Mercs in PCGS slabs scurry downwards by \$250. NGC slabs also endure a bit of pain in MS65 as well with 1917-D pieces taking a 14% tumble as Bid adjusts to an even \$3,000. Sight-unseen support hasn't seen this level since late August, 2013. In the MS66FB and MS67FB columns, PCGS holders are targeted for minus signs as 1920-S Dimes, among others, dip down below \$7,000 in the former grade and more common 1939-D pieces give up \$10 in the latter.

Walking Liberty Halves see a couple of dips with some later dated S-mints. Firstly, we see PCGS 1944-S pieces backtracking 12% to a lower Bid of \$180. This is the first time that this date has seen a sight-unseen level below \$200. A lesser drop of around 5% makes its way to 1941-S Halves in NGC slabs after some weak auction results force Bid down to \$420. Proof Singles are running silent for the most part this week with no minus signs to report.

Heritage	Price Realized

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

UPDATE!

The CAC sticker helps to identify a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC-stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the CAC sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ^{^ 650,000} ~~550,000~~ coins with a market value over ^{\$ 2.9 billion} ~~\$2.4 billion~~. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC-stickered coins bring a premium - they are placed only on quality coins.

CAC is a powerful market maker for its stickered coins. What's more, CAC provides liquidity to the market, having purchased coins in excess of ~~\$340,000,000~~ since its inception.

So, the CAC sticker does not add value - it is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

The Beautiful Bison Note A Story Of Enduring Popularity

Few examples of collectible American Paper Money have maintained the popularity and value of the Bison Note. One can only speculate as to the reasons for such long-standing endearment, but at least a few notions come to mind. First, the sheer beauty of its design, courtesy of Raymond Ostrander Smith, certainly must be considered. A well-balanced obverse features a trio of dominant images: The regal portraits of Meriwether Lewis on the left and William Clark on the right, both engraved by GFC Smillie, provide a fitting frame for the star of the Note at center stage: The American Bison. The beast is depicted in full form on a grassy plain, looking both strong and confident. This Series of 1901 \$10 Legal Tender Note also provides a splash of color on its obverse by way of another visual triad: a bold red Roman Numeral X, forming a backdrop for the word itself, artfully identifies the Note's denomination. Incidentally, this "X" shape is the source of one of the many nicknames for a ten dollar bill—"sawbuck"—inspired by its resemblance to the carpenter's tool. At the right of the Bison's hind quarters is the red serial number, and just below it, completing the rouge trifecta, the intricate Seal of the Treasury. Not to be ignored, both explorers are fortunate enough to be attended to by a classically beautiful woman. While the obverse of the Note captures the notion of the American West in particular, the more understated, yet powerful imagery of the reverse features an allegorical figure of America in general—Columbia. The feminine form, fittingly named after Christopher Columbus, occupies the central portion of yet another visual triad, that of simple, elegant arches. Classical imagery is repeated with Roman columns flanking Columbia, as she stands peacefully and triumphantly between them.

In addition to its aesthetic quality, the purpose of the Bison Note's issuance is of significant consequence. The "Buffalo Bill" was created in 1901 largely to promote both the Louisiana Purchase Exposition of 1904 and the Lewis and Clark Centennial Exposition of 1905. Of course, the purpose of issuance sheds light on the design and imagery choices of the Note. One can certainly understand that, in addition to the obvious inclusion of the famed explorers' portraits, the Bison was a fitting central image on the Note. As perhaps the most important animal of the very environment

becoming a part of our rapidly and exponentially expanding country, what better choice than this strong, beautiful and uniquely American animal? Known as Pablo, the North American bison depicted on the Note is based on a watercolor drawing by Charles R. Knight, who used a live specimen "model" from the Washington Zoological Park as well as a photograph from the United States National Museum. Marcus W. Baldwin subsequently made the engraving of Pablo from Knight's work. This image proved to be quite popular, and was later used in a number of other places, including the US

postage stamp of 1923 as well as the Series 692 \$1 Military Payment Certificate. Stating its purpose from a legal standpoint, the Bison Note is the only

Large Size Note to include the provision that authorized its issuance, stated as follows: THIS NOTE IS A LEGAL TENDER FOR TEN DOLLARS SUBJECT TO THE PROVISIONS OF SECTION 3588 R.S.

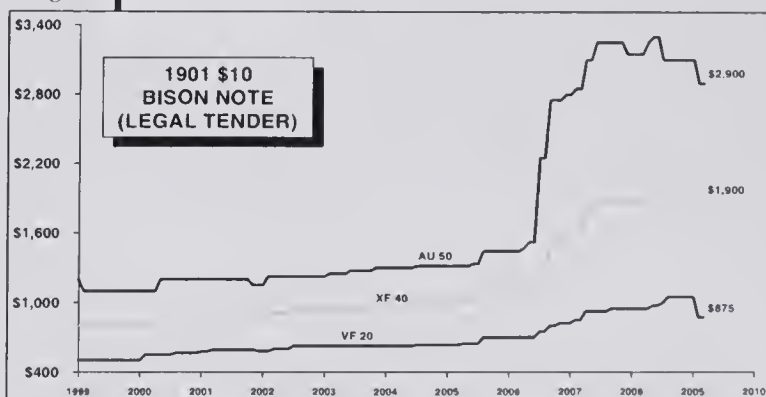

Of course, along with the beauty and purpose, the rarity of the Bison Note makes it all the more coveted. With only 3,000 to 4,500 specimens estimated to exist, and just over 1,700 graded, one may assume, understandably, that finding an example would

be difficult. Luckily for collectors, demand is so strong for this Note, that any major Paper Money auction or numismatic expo will almost definitely include several examples for purchase. As a case in point, the Heritage auction in Orlando, Florida, as part of the January 2009 FUN show, offered over thirty specimens. While some look for particular Friedberg numbers from the total of nine available, the typical collector is happy with the most common example of the Bison Note, which was printed from 1901-1922, and replaced the Series 1869 to 1880 "Jackass Note." The "Poker Chip" Note Series of 1923 followed the Bison Note.

Ultimately, it may very well be the deeper meaning behind of the Bison Note that accounts for its ongoing popularity. The Note captures so much of what was—and

still is—important to American identity: exploration and expansion, personified by Lewis and Clark, the strength and unique quality of the American Bison, and the presence of Columbia on the reverse, the ultimate symbol of America's very existence. It is quite a package for a single piece to carry, and this Note does it with grace and beauty.

GRADING

Sight-Seen wholesale prices are for accurately graded Notes — Certified or Raw.

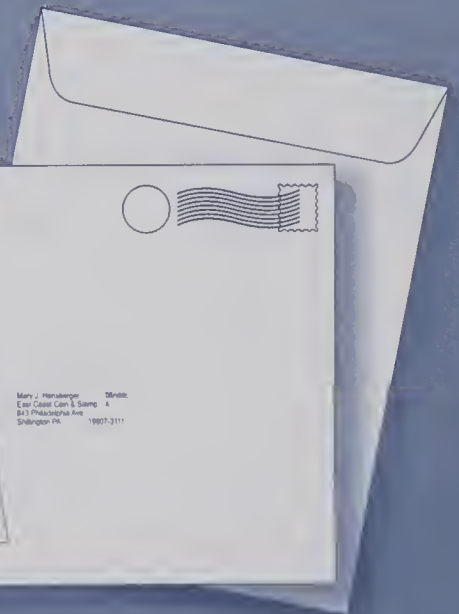

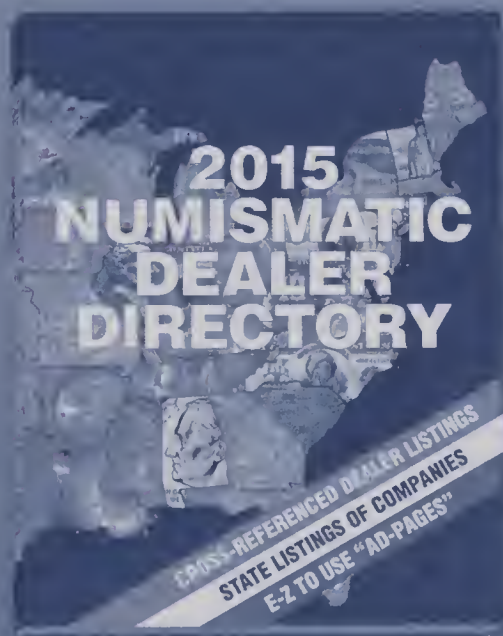

Superb Crisp Uncirculated-67	A nearly flawless Note with perfect centering. Full wide margins all around. Colors are totally bright, crisp and vibrant. Quality is outstanding.
Gem Crisp Uncirculated-65	An almost perfect Note. Better than average margins. No aging or fading.
Very Choice Crisp Uncirculated-64	A bright Note that's slightly below Gem quality. Margins and color are above average. A Note that may have slight centering problems.
Choice Crisp Uncirculated-63	A nice new Note but not quite Gem. Centering may be a little off. May show some aging or light counting smudges or wrinkles.
Crisp Uncirculated-60	No trace of circulation. Can have centering problems, pin holes, counting smudges, wrinkles, close margins, or a corner tip fold (not into design).
Almost Uncirculated-50	(Almost new) These will be much the same as a "new" Note except for a single fold or several corner folds.
Extra Fine-40	Circulated; may have some folds; still has some crispness.
Very Fine-20	Some circulation; may show several folds and will have lost some of its crispness and color.
Fine-12	Well-circulated with little crispness remaining; edges may be rough.
Very Good-8	Will be fairly well-soiled; may be significantly worn; might have roughness around the edges with only minute problems.

Use of the Friedberg numbering system is by license granted by the Coin and Currency Institute, Inc.

Gardner Collection, Part III Up Next Light Electronic Trading

Dealers are preparing for the Eugene H. Gardner Collection, Part III auction by Heritage scheduled for May 12 in New York. We have listed several of the many highlights herein. Sight-unseen trading on the electronic dealer-to-dealer networks over the past week has come in at \$120K, well below what we've seen lately. Perhaps dealers are opting to stay more liquid for the upcoming auctions and shows. The Atlanta Coin & Currency Expo is set for May 15-17 at the Gwinnett County Fairgrounds in Lawrenceville. Precious metals have settled down a bit, but remain somewhat anemic. Gold closed at \$1,182. Silver Spot is currently \$16.27. Platinum came in at \$1,131 and Palladium hit \$786.

1882-CC, 1883-CC and 1884-CC Dollars for both PCGS and NGC are being sought-after in MS63 and MS64 as at least one dealer is offering higher sight-unseen Bids to get these examples. NGC slabbed 1882-CC Morgan Dollars have dropped 11% this week in MS66 as they are now at a sight-unseen Bid of \$635. Six beautiful rainbow toned Proof Morgan Dollars, all graded either PR67 or PR68 and encapsulated in PCGS or NGC holders, will be making their way to the auction block in New York. An attractive 1926-S Peace Dollar graded MS65 by PCGS did well through an on-line auction bringing in a whopping \$900. This is \$200 more than the sight-unseen Bid. Proof-Like Morgan Dollars are seeing a couple minus signs for NGC in MS65PL, examples like the 1879-S are now at \$168 and 1888-O have dropped to \$430. New York will hope to find a new home for a nicely minted 1922 Matte Proof Peace Dollar graded PR66 by PCGS in The Rarities Auction.

1913 Type 1 Philly and Denver minted Buffalo Nickels in MS67 for PCGS are needed at current sight-unseen Bids of \$500 and \$1,800 respectively. Two gorgeous Proof Buffalo Nickels will be up for grabs through the Gardner Collection III, examples being a 1915 graded PR67/CAC by PCGS and a 1937 graded PR67/CAC by PCGS.

MS66 Stone Mountain Memorials fall 16% to now Bid \$160, eclipsing the previous low of \$175 that was last seen in October of 2012. Also at the MS66 level, 1920 Maine Centennials in NGC holders scale back by \$20. NGC graded 1920 Pilgrim Tercentenary Halves also decline in grades

MS64 through MS61. The 1939 Oregon Trail PDS Set in MS67 takes a hit, as an NGC graded Set hammered at auction for \$1,880. In Classic Gold Commems, 1904 Lewis & Clark Dollars in MS63 drop 7%, along with the One Dollar Pan-Pac in Gem.

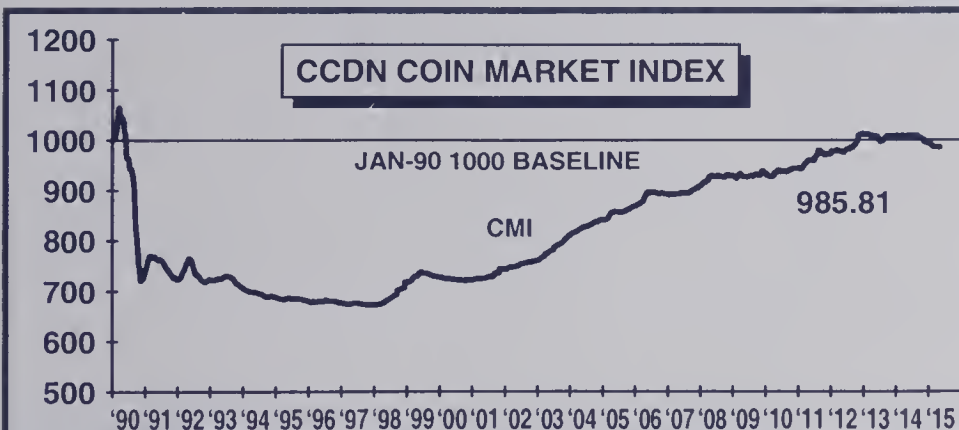

In addition to the coins listed below, the Mint State Type coins available in the Gardner Part III sale next week are tremendous. Much of the Liberty Seated coinage is certified MS66 and MS67, along with many Superb Gem Proofs and finest knowns. \$2½ Indians in PCGS MS62 slabs drop to an even \$300, matching their NGC counterparts. A Proof Barber Half Dollar in Very Choice is offered in the wholesale market at \$1,275, which is \$35 below the current sight-unseen Bid.

Mercury Dimes are keeping quiet with no shifting up or down, but a couple of dates are starting to get noticed a bit more. 1928-D issues are grabbing support at sight unseen Bid across-the-board on up through MS67 for non-FB pieces in NGC holders.

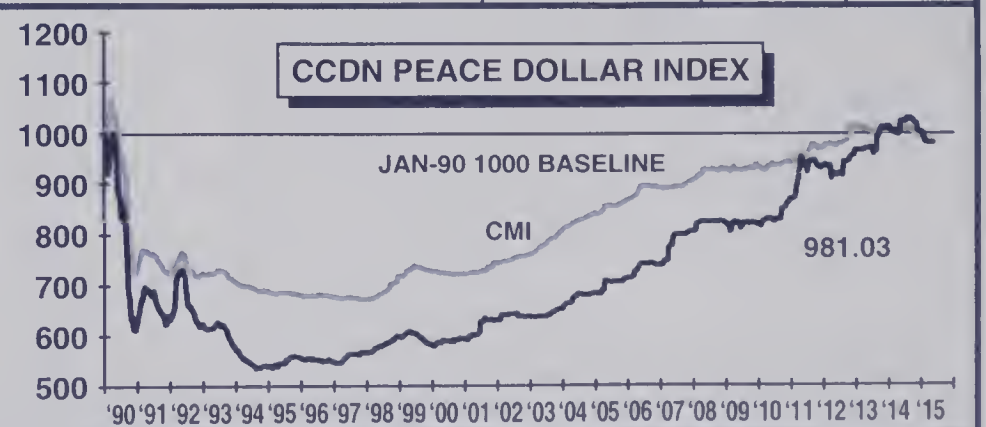

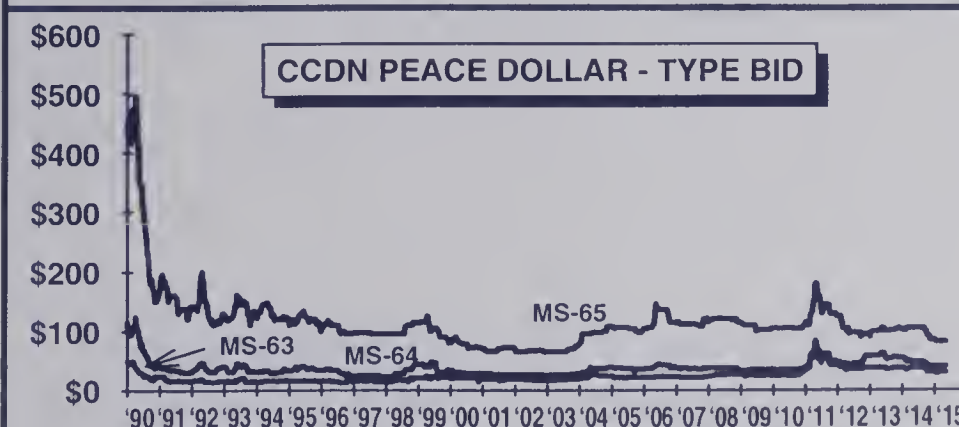

Activity for Walking Liberty Halves is slightly on the negative side this week. Gem for the most part is affected by some less than thrilling auction results pushing sight-unseen Bid modestly lower. Then, there is the case of 1943-S pieces. After spending some time at a Bid of \$150 this NGC issue has taken a spill with a 33%

drop. Two other Halves amass double digit declines as well with 1944-S and 1946 each falling 12%. Elsewhere, declines are much less severe and are spread out across the grading spectrum. Franklin Halves enjoy their strongest support for nearly every issue with Full Bell Lines in Very Choice which can be seen on our Supplemental Page F. Sight unseen demand holds steady at \$28 with a tiny exception for final year 1963-D pieces, graded by NGC, which shed a couple of bucks. Brilliant Proof Singles show little to no change.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

www.CoinPlex.com

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Proolike. Bids for P/E's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

The Gold coins in this chart trade very infrequently. These are the last known Bids.

Bids for Lincoln Cents are for full Red specimens in MS64 and higher.

Matte Proof Cent Bids for grades of PR64 and better are for full Red Cents. PR63 and lower Bids are for Red and Brown Cents; See the Proof Type Coins page for Type Bids in all colors.

www.cdnpublications.com

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 650,000 coins with a market value over \$2.9 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over \$375,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

Vol. XXX No. 20 May 15, 2015 Single copy price \$5.00

Gardner Collection, Part III Garnerers \$13.8 Million Gold Spikes To Three-Month High

The Gardner Collection, Part III, hosted by Heritage, hammered nearly \$13.8 million May 12 in New York, and we have listed some of the many highlights herein. This should certainly give a shot in the arm to the numismatic community. Sight-unseen trading over the electronic dealer-to-dealer networks has come to a virtual standstill during the past week, with only \$72K changing hands. Some good news for precious metals is present as Gold has spiked to \$1,225, a three-month high, possibly on the recent weakness of the Dollar. Silver has benefited as well, jumping to \$17.50. Platinum is up to \$1,162 and Palladium is currently resting at \$780.

1904-S Morgan Dollars are being sought-after in MS64 through MS66 for both PCGS+, NGC+ and also holders wearing the CAC approved sticker as dealers are offering to pay current Bid levels to get these examples. CAC stickered 1899 Philly Morgan Dollars in MS66 are being targeted at a higher sight-unseen Bid of \$1,800. A nicely minted 1883-S Dollar graded MS64 by PCGS is hoping to find a new home through a weekly on-line sale. 1884-CC and 1885-CC Morgan Dollars graded MS65 wearing the CAC approved designation have fallen a bit this week to sight-unseen Bids of \$470 and \$950. Common date Peace Dollars in MS64 have taken a hit dropping to a Bid of \$39.

A few gorgeously minted Buffalo Nickels are up for grabs through a weekly on-line auction put on by David Lawrence ending Sunday. One of them is a beautiful, yellow toned 1915-D graded MS66/CAC by PCGS; next is a pop 2 with none finer 1928-S graded MS67+★ by NGC; and last is the ever-so-popular 1937-D 3-Legged Buff graded MS67 by NGC with only three graded at this level and none finer which will make a great addition to someone's registry set. Speaking of the key 1937-D 3-Legged Buffalo Nickel there is at least one dealer hunting for one in MS64+ and MS65+ and will pay a sight-unseen Bid of \$35,000 and \$60,000 as long as they are encapsulated in PCGS slabs. These and the rest of the CAC and Plus graded material can be seen on Supplemental pages G, H, and I published every third week of the month.

Mercury Dimes mark a modest dip of 9% for 1935-S pieces in PCGS slabs. CAC examples are slipping also as 1943-S FB pieces in Very Choice lose 9% as well and glide down to a sight-unseen Bid of \$50. In the Gardner sale, a

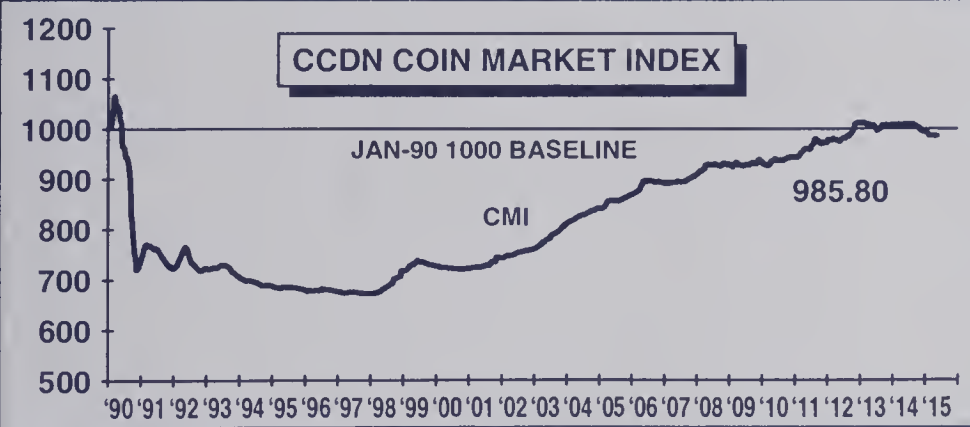

new high price was recently reached for a 1919 Walking Liberty Half graded PCGS MS66/CAC. At a price realized of \$32,900, this piece, with a combined pop of 34 and five finer, commanded a significant premium over the highest selling non-CAC counterpart (same grade and service). That counterpart sold in late April for \$9,400 less, representing a staggering 40% difference. Recently, there has been significant interest in this key date. The last time that any like example came up with a green bean at auction was a year and a half ago in November 2013, in this case an NGC coin, where even then it nabbed a price of \$16,500, only half of this week's haul. Activity for Proof Singles is on the downside for CAC Mercs and Walkers. Dimes see a modest \$10 decline for more commonly seen issues in Gem while Halves encounter more severe cuts. The biggest drop in Bid is for 1937 pieces in PR64 which lose 16% and 1936 issues in PR66 which suffer a \$200 setback.

Gem 1935 Hudson Sesquicentennials drop 5%, bringing these Halves, of which there have been over 1,200 graded at this level, to a new sight-unseen Bid of \$760. In wholesale activity, an 1893 Columbian was offered at \$6,000 against a current Bid of \$6,500. Looking to Page G, a few CAC-stickered issues of Silver Commems decline in MS65 and MS66, including the Isabella Quarter, Lincoln-Illinois, 1921 Pilgrim, and Spanish Trail. The New Rochelle in Gem and Premium Gem with CAC endorsement is the recipient of higher Bids on the positive side.

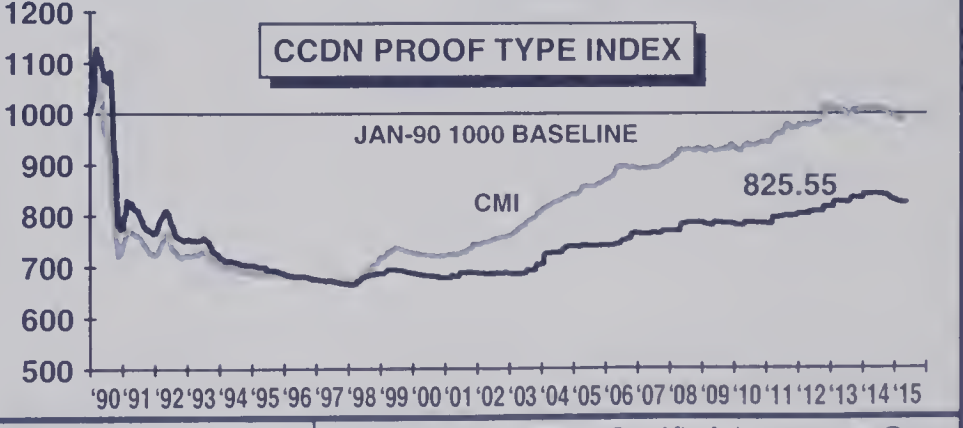

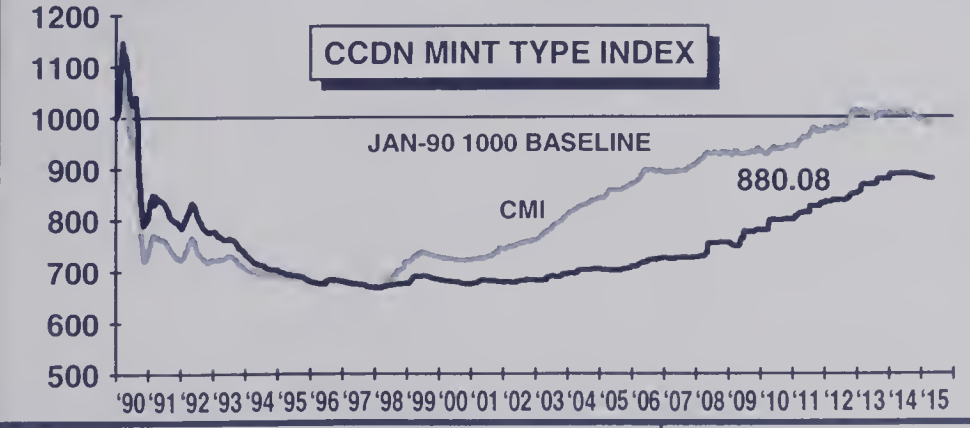

A pair of Liberty Seated Dime Types in Premium Gem retreat this week, both in NGC holders. First, the No Stars two-year Type, NGC population just 28, falls 10% to \$5,250. The three-year With Arrows Type, with a reported NGC population of

68, takes a smaller step back of 3% to \$2,250. This movement was triggered by lower wholesale offerings. Proof Liberty Seated Dimes, With Legend in PR67 NGC slabs also decline nearly 5%, dropping below \$2,000 for the first time ever in our reporting.

Heritage	Price Realized
1814 Classic Head Cent, CAC	PCGS MS67BN \$158,625

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Verify Your Stickered Coin!

You can use the online CAC Verification Search feature to check the CAC database for ALL coins that CAC has stickered .

Data for each stickered-coin is compiled in CAC's secure database. You can use CAC's FREE online tools to easily verify your stickered coin. What's more, you have access to CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, FREE, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

Back Issues

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

- Complete set of the weekly **Coin Dealer newsletter (Greysheet)** from June 14, 1963 to December 19, 2014, now includes 2,628 issues. At \$2.00 each this would normally cost \$5,256, but a complete set is only **\$3,475.**
- Complete set of the monthly **CDN Monthly Supplement** (formerly the Monthly Summary from August 1976 to December 2014, now includes 461 issues. At \$2.00 each this would normally cost \$922, but a complete set is only **\$665.**
- Complete set of the **CDN Quarterlies** from January 1992, to December 2014, now includes 276 issues, a complete set is only **\$375.**
- Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies** now includes 3,365 issues, and extra savings at only **\$4,250.**
- Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)** from August 22, 1986 to December 19, 2014, now includes 1,406 issues. At \$2.00 each this would normally cost \$2,812, but a complete set is only **\$1,895.**
- Complete set of the monthly **Currency Dealer newsletter (Greensheet)** from September 1980 to December 2014, now includes 412 issues. At \$2.00 each this would normally cost \$824, but a complete set is only **\$600.**
- **For the most complete numismatic pricing library possible, you may order a COMPLETE set of all of the Back Issues listed above, includes 5,183 issues for only \$6,475.**

1 - 10 issues - \$3.00 each
11 - 25 issues - \$2.50 each
26 & over - \$2.00 each

**Or, you can purchase complete sets
for a really dramatic savings**

CERTIFIED COIN DEALER

CCDN—a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

newsletter

Vol. XXX No. 21

May 22, 2015

Single copy price \$5.00

A Busy Spring Market Pogue Sale Begins

The Long Beach Expo is on the horizon, scheduled for June 4-6 with an auction by Heritage. It's been rather busy in the numismatic marketplace, especially for this time of year when dealers are usually planning their summer vacations. Instead, participants have been attending shows and significant auctions, which continue with the D. Brent Pogue sale. A dealer in Nebraska has stirred things up a bit by finding a third specimen of the 1919 Double Die Dime, with John Hodson's still being the finest known. Dealers and collectors are urged to check their coin amassments in search for yet another example. Sight-unseen trades continued to drop over the last week on the dealer-to-dealer electronic networks, now at a remarkably low \$50K. Precious metals have had a bumpy ride lately, with Gold spiking to a three-month high last week, jumping to an even higher \$1,228 this Monday, only to tumble back down to just above \$1,200 the next day. Some speculators have stated that \$1,200 is the "correct" price for Gold at this time and that the adjustment was necessary. Silver, too, rode Monday's wave to \$17.71 before rapidly coasting down to \$17.11. Platinum was hit hard, falling from \$1,179 to \$1,152 and Palladium adjusted from a strong showing Monday of \$793 to a current level of \$776.

PCGS encapsulated 1894 Philly Morgans in MS61 are seeing a little setback this week falling to a sight-unseen Bid of \$2,955. Two CAC stickered 1880-S Dollars graded MS65DMPL and MS67 both in PCGS holders took home \$1,075 and \$695 respectively. A nice rainbow toned, with a pop 50 and 2 finer, 1888-O Morgan Dollar graded MS66 by NGC will be up for grabs through an internet auction this week. Generic PCGS Peace Dollars are seeing a bit of demand in MS64 as sight-unseen Bids are now at \$40.

At a recent online auction, an attractive semi-key 1915-D Buffalo Nickel graded MS66 by PCGS and wearing a CAC approved sticker brought in a nice sum of \$5,475. Two NGC slabbed Nickels picked up the same amount of \$165 through an auction this week—a 1930 graded MS65 and a 1935 graded MS66. Auction results such as these and many others can be seen in this week's Market column which is published the fourth issue of each month providing useful information

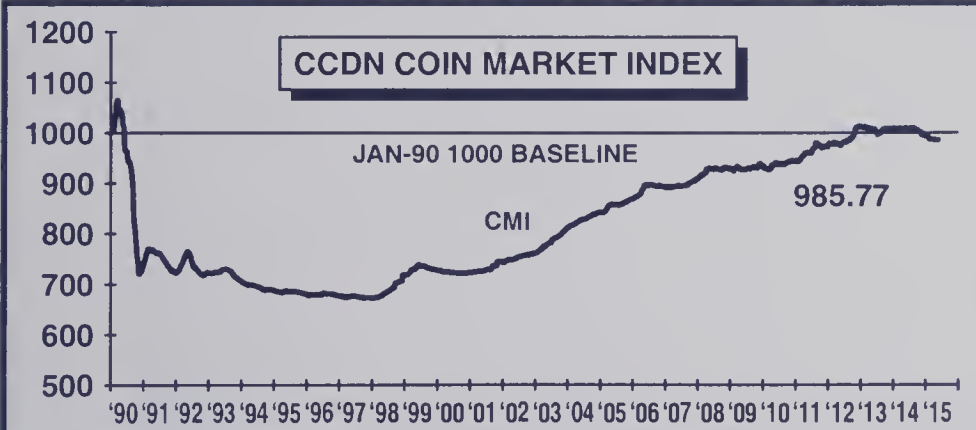

not available in any other publication. A lightly toned, 1916-S Buff graded PCGS MS66+/CAC with a pop of 11 and none finer is looking to find a new home through an online auction ending Sunday.

There are a few movers in Classic Silver Commems this week, starting with Gem level Long Island Halves which fall to a new Bid of \$98, settling below three figures for the first time. Very Choice Lexington-Concords in NGC holders drop by 6%, and the 1936 Albany declines in two grades: PCGS MS65 examples by 3% and NGC graded MS66's by a modest 2%. Nearly 225 Classic Commems are available in the upcoming Long Beach auction, including, among other issues, nine Isabella Quarters.

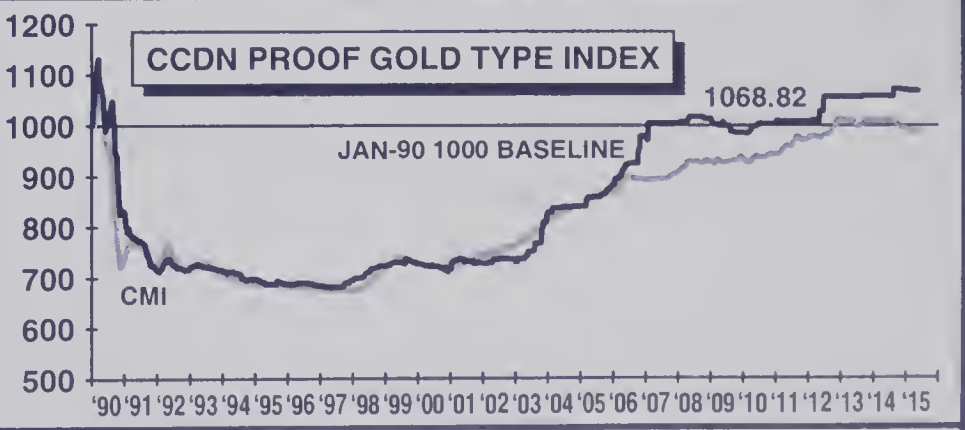

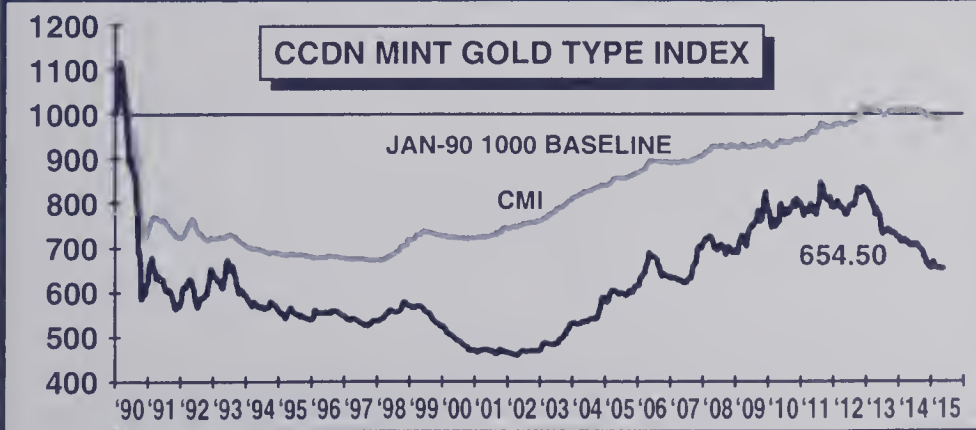

MS63 Classic Head Half Cents with the Brown designation in NGC slabs decline very slightly this week as the sole mover in the Mint State Type segment. In Gold Type, MS61 and MS62 Type III \$20 Libs drop a bit in line with lower asking prices. While coverage of the recently concluded Pogue Part I sale will be extensive, one interesting result is that there are now a pair of one-year-type 1796 Quarters that have broken the \$1 million mark: Newman and Pogue.

Sight-unseen activity for Mercury Dimes sees newfound buyers raising Bid for 1935-S issues in MS64FB in both grades which bounce back to \$100 after a dip last week. On the downside and going forward a decade, 1945-S Mercls slip quite a bit, up to 22% for pieces in PCGS MS67. Bid levels for this date are back to where they were in November, 2013. There is some light discounting again in Superb Gem with 1937 PCGS examples, but nothing too severe.

Walkers witness a couple of coins coming up short. Shown in this week's Market column, two Halves in PCGS slabs are selling below their sight-unseen Bids. 1939 pieces in MS67 see only a \$15 difference. However, for 1936 examples the spread is a bit more extreme. With a sale price of only \$128 a Gem Philly was let go for cheap when confirmed buyers are paying a full 25% more. We see a few Proof Singles trading lower this week. Washington Quarters take some moderate hits in various grades with the hardest going to 1950 PCGS pieces in PR63 and PR64 which fall as much as 21% after subpar selling online.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder.
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sold into coin dealers, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; **lm** - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC-stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the CAC sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

\$ 2.9
billion

CAC has evaluated over ^{^ 650,000} ~~550,000~~ coins with a market value over \$2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC-stickered coins bring a premium - they are placed only on quality coins.

CAC is a powerful market maker for its stickered coins. What's more, CAC provides liquidity to the market, having purchased coins in excess of \$340,000,000 since its inception.

^{^ \$375,000,000}

So, the CAC sticker does not add value - it is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Single copy price \$5.00

So Cal Auctions Arrive

Metals Soften

The Long Beach Expo is scheduled for June 4-6 with an auction by Heritage. Included herein is a preview of the sale. Of course, the Pre-Long Beach auction, set for May 31 thru June 1, by the Goldbergs, will set things off and running. Precious metals fall below benchmark levels. Gold is currently at \$1,188 which is in contrast to all of last week when the yellow metal closed above \$1,200. Silver, now at \$16.65, is also down from all of last week's closes which were above \$17. Palladium is holding in there at \$784. Dealer-to-dealer sight-unseen trading on the electronic networks is currently at a standstill, with only \$40K changing hands.

Key date 1893 Philly Morgan Dollars in MS63 are seeing a bit of a setback this week dropping to a sight-unseen Bid of \$940. A 1901 Dollar graded MS63 by PCGS brought home \$12,890 in a past internet auction. A variety of 1883-CC Morgan Dollars will be up for grabs at the Pre-Long Beach auction next week. \$70 was left on the table after a 1928 Peace Dollar graded MS63 by NGC changed hands for \$550 as there is a sight-unseen Bid of \$620 being offered. Five beautiful, lightly toned 1895-S Morgans graded MS63, MS64 or MS65 and in PCGS and NGC holders will hope to find new homes after the Long Beach show.

Previously mentioned in last week's issue, the 1916-S Buffalo Nickel encapsulated in a PCGS holder and graded MS66+ CAC racked up a whopping \$7,000 through a recent online sale. A 1931-S Nickel graded MS67 by PCGS and tied for finest known will be taking center stage next week hoping to find a new home after the Long Beach show. Also looking to make some noise are two 1937-D 3-Legged Buffaloes graded MS63 by PCGS and MS64 by NGC both with great attractive toning.

The 1936 Long Island Tercentenary certified PCGS MS67 is the primary mover in Classic Silver Commems, as it falls 13% to a sight-unseen Bid of \$2,400. This comes as a result of an example hammering for \$1,700 via a weekly online auction, nearly 30% below the level at which there is a buyer. Later date PDS Sets also see some declines. One of the 86 PCGS graded MS66 Lafayette Dollars is offered in the

Goldberg Pre-Long Beach sale, and Heritage offers one of the just four California Diamond Jubilee Halves that have been graded PCGS MS67+.

Hundreds of Mint State Type coins are available to dealers and collectors this upcoming week via public auction. Series that have particularly strong offerings include Coronet and Braided Hair Large Cents, Liberty Seated Half Dollars, and Early Silver Dollars. Mint State Gold Type remains active despite the recent sluggishness of the Gold Spot price, with multiple transactions seen at current Bid levels. \$20 Saints have buyers at or near Bid for grades MS61 through MS64.

Goldbergs' upcoming sale in Beverly Hills will show off a small number of Mercury Dimes, but among them are Mile High treasures like a Mint State 1916-D graded NGC MS61FB and one of only seven CAC approved 1942/1-D overdates

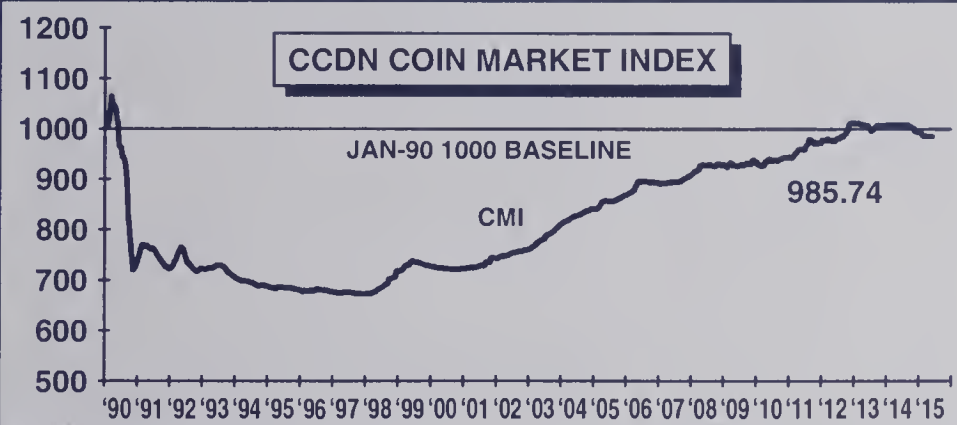

graded MS65FB by PCGS. Each will be a huge feather in its collector's cap. Demand picks up for Proof Dimes as we see Gem level 1940 strikes in NGC slabs climb to \$145. What's more, Heritage will be offering a similarly dated Dime. A pristine Proof Merc graded NGC PR68 with only two finer will cross the auction block in Long Beach.

Among other Proof Singles, a nice offering of extremely high-grade material is set to fall under the gavel. Two CAC certified coins stand out: an outstanding 1937 Nickel graded PCGS PR68 and a 1942 PCGS PR69 Dime. The first coin, which isn't a scarce find even in Superb Gem, becomes nothing short of a scavenger hunt in PR68. For the latter, although being one of the more common Proof Singles for this denomination in the PR61-PR67 range; the vividly toned

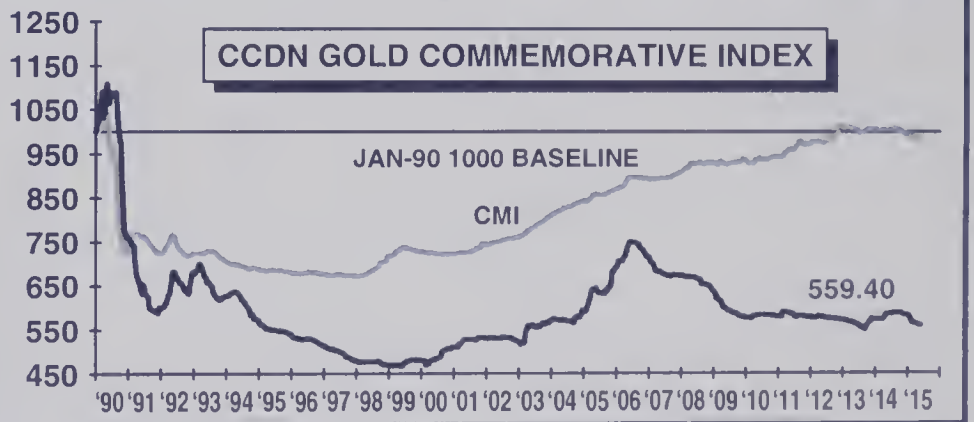

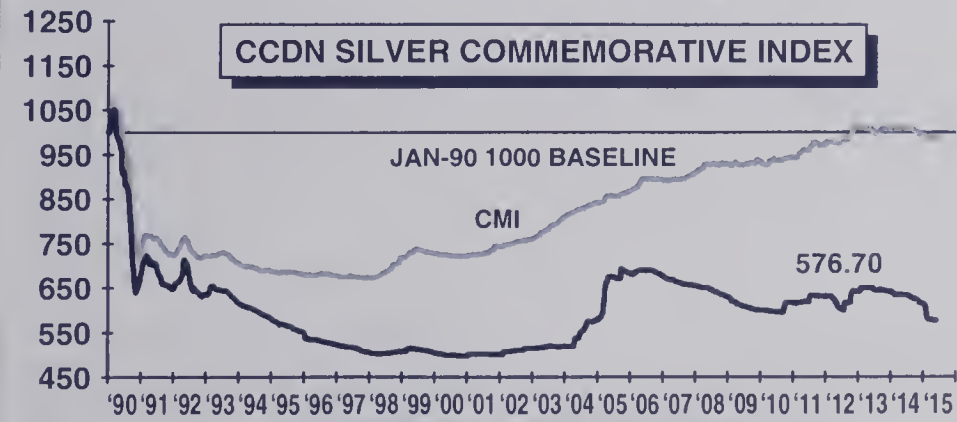

1942 Mercury Dime, one of three graded and the sole CAC verified, could fetch a new high price beating the previous sum of \$15,275 paid back in November 2013 for a non-CAC NGC slabbed example.

Walking Liberty Halves see light auction activity and wholesale trading this week. Demand at Bid for high quality material (MS66-MS67) has started to contain itself within the Depression Era and War Years.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MERCURY DIMES

CCDN does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 650,000 coins with a market value over \$2.9 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over \$375,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

Long Beach Expo Launches Goldbergs Bring In Over \$5.2 Million

The Long Beach Expo is underway, and it's a buyer's market, at least for relatively common material. Gold Spot is down a bit from last week, currently at \$1,175. Silver has also fallen slightly, now at \$16. Platinum closed at \$1,099, and Palladium fell to \$755. Sight-unseen dealer-to-dealer trading on the electronic networks has picked up significantly over the last week to reach \$153K in transactions. The Goldberg Pre-Long Beach auction wrapped up June 1 and brought in a preliminary total of over \$5.2 million. This healthy showing should give some inspiration to collectors and dealers at the Expo.

The sole mover in Classic Silver Commems this week is the 1927 Vermont Sesquicentennial in Gem, which drops to a sight-unseen Bid of \$270, a slight 2% move. In Classic Gold, the 1903 Louisiana Purchase/McKinley Gold Dollar in MS66 PCGS holders retreats 5%, dropping below \$1,500 for the first time since March 2014.

Gem level Trade Dollars in PCGS slabs take a 13% tumble as lower wholesale asking prices are observed. Liberty Seated material takes a couple more hits as the gap widens between the "haves" and the "have-nots" for all denominations of this design Type; the "haves" being coins with desirable toning and sharp strikes versus ones that may be dull, mottled, or otherwise less than original. With Legend Dimes in PCGS MS67 drop 6% and No Motto Quarters dip below the \$4,000 mark to Bid \$3,800, the first time since April of 2008 below that figure. The activity in Gold Type centers around Type III \$20 Libs, with modest decreases in MS63 and MS64. Lower denomination Types (\$2½, \$5) in MS62 and MS63 are trading at or very near their sight-unseen Bid level.

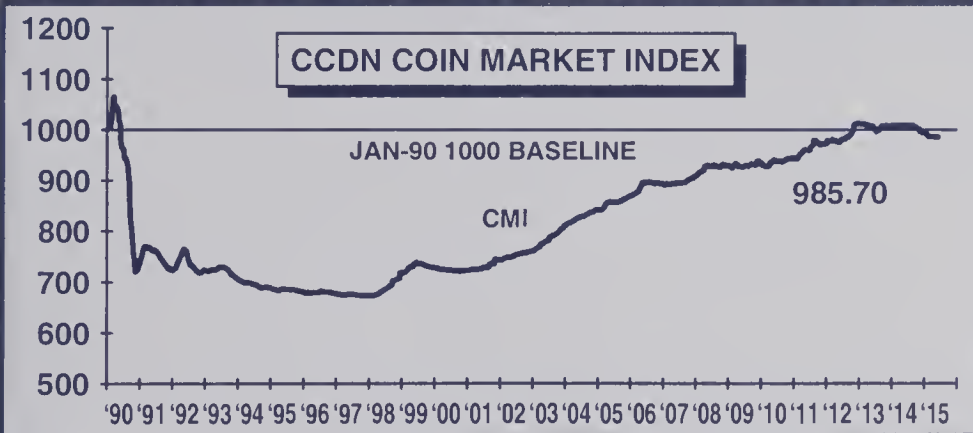

At a past online auction an 1878-CC graded MS67 by NGC saw the winning Bidder fork over \$16,500 for this pop 9 with none finer. A few Carson City Morgan Dollars got hammered this week for PCGS and NGC in MS63 falling to lower sight-unseen Bids. Semi-key date 1899-S Dollars for PCGS in MS61 are now down to a Bid of \$320. 1887/6-O Morgan Dollars encapsulated in ICG holders graded

MS63 have fallen about 5.5% to a sight-unseen Bid of \$1,135. At least one dealer is after NGC MS64 graded 1878-CC GSA Dollars at a higher Bid of \$930 as long as they have the certificates with them. A number of government issued GSA Dollars with box and certificates are seeing discounted sight-unseen Bids as dealers look to cut down on inventory. These prices can be seen on page D which is published the first week of every month. PCGS slabbed 1927-D Peace Dollars in MS65 have slipped to a sight-unseen Bid of \$3,780 due to poor prices realized at auction.

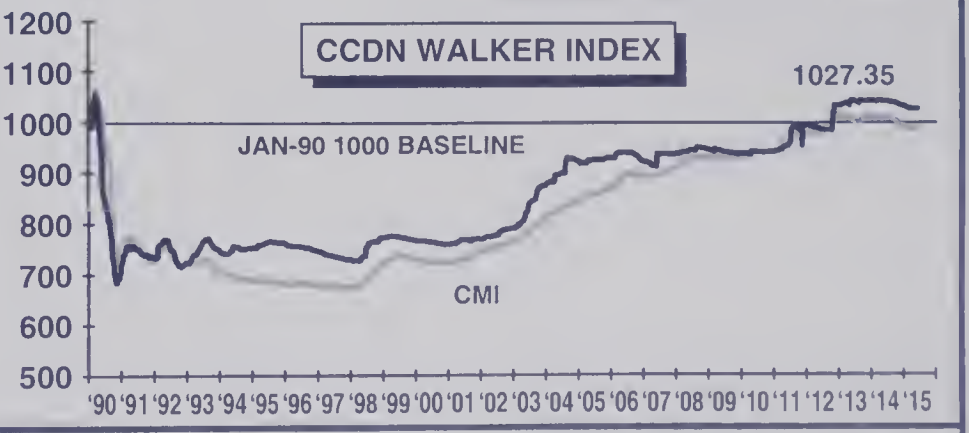

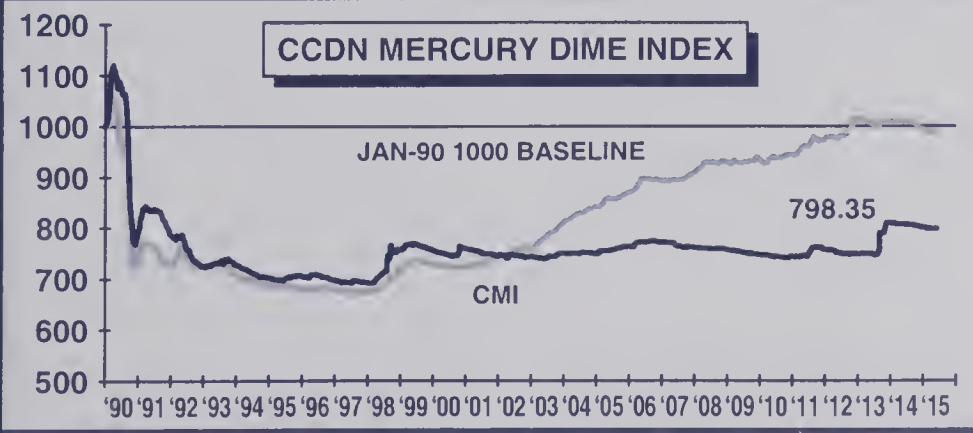

A PCGS slabbed 1929-D Buffalo Nickel did well in a past online sale bringing in \$1,075 – almost double its sight-unseen Bid of \$620. An NGC 1915-S and a PCGS 1924-D both graded MS65 did well through an internet auction picking up \$2,950 and \$3,350 respectively. Key-date 1914-D Nickels graded MS67 by PCGS have fallen 7% to a Bid now of \$6,750 which hasn't been seen this low since August 2002 when it was at a sight-unseen Bid of \$6,800. Mercury Dimes in general are steady while market makers focus their attention in Long Beach.

Although sight-unseen Bid remains unchanged at \$220, an MS65 PCGS 1938 Walking Liberty Half sold significantly short when it received a final sale price at online auction that was 35% shy of what dealers are willing to pay for this issue in Gem. Also in PCGS Gem, 1943-D issues travel downwards after some light online selling to now stand at \$120 Bid. General trends in the market are showing a pick-up in demand for these Halves in grades like MS61 and MS62 as more dealers are willing to pay close to Bid for such material.

Bid for Proof Mercury Dimes is encountering pressure to fall in PCGS PR66 as an example recently sold for \$400 matching what buyers will pay sight-unseen. For NGC pieces there is a modest decline with Proof Walkers retreating somewhat in Gem as the 1939 Proof scales down to \$460. Singles received a lot of attention at Goldberg's Pre-Long Beach sale. One such lot, a nicely toned 1937 Washington Quarter in PCGS PR67, had a disappointing show at auction and sold for only a bit over \$500 sending Bid down a steep 28%.

Verify Your Stickered Coin!

You can use the online CAC Verification Search feature to check the CAC database for ALL coins that CAC has stickered .

Data for each stickered-coin is compiled in CAC's secure database. You can use CAC's FREE online tools to easily verify your stickered coin. What's more, you have access to CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, FREE, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

“Because Confidence is Priceless”

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Every Numismatic Library needs a complete set of the
COIN DEALER newsletter family of publications

Back Issues

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

- Complete set of the weekly **Coin Dealer newsletter (Greysheet)** from June 14, 1963 to December 19, 2014, now includes 2,628 issues. At \$2.00 each this would normally cost \$5,256, but a complete set is only **\$3,475.**
- Complete set of the monthly **CDN Monthly Supplement** (formerly the Monthly Summary from August 1976 to December 2014, now includes 461 issues. At \$2.00 each this would normally cost \$922, but a complete set is only **\$665.**
- Complete set of the **CDN Quarterlies** from January 1992, to December 2014, now includes 276 issues, a complete set is only **\$375.**
- Combined weekly **CDN (Greysheet), Monthly Supplement & Quarterlies** now includes 3,365 issues, and extra savings at only **\$4,250.**
- Complete set of the weekly **Certified Coin Dealer newsletter (Bluesheet)** from August 22, 1986 to December 19, 2014, now includes 1,406 issues. At \$2.00 each this would normally cost \$2,812, but a complete set is only **\$1,895.**
- Complete set of the monthly **Currency Dealer newsletter (Greensheet)** from September 1980 to December 2014, now includes 412 issues. At \$2.00 each this would normally cost \$824, but a complete set is only **\$600.**
- **For the most complete numismatic pricing library possible, you may order a COMPLETE set of all of the Back Issues listed above, includes 5,183 issues for only \$6,475.**

1 - 10 issues - \$3.00 each
11 - 25 issues - \$2.50 each
26 & over - \$2.00 each

**Or, you can purchase complete sets
for a really dramatic savings**

Vol. XXX No. 24 June 12, 2015 Single copy price \$5.00

So Cal Sales Hammer Over \$22 Million CMI Continues Drop

With the Goldbergs and Heritage combined, the Southern California auctions hammered over \$22 million. One can't help but speculate if this total would have been even higher if not for the upcoming Pogue II sale coming up September 30 in New York by Sotheby's. Dealers may very well be biding their time, and saving their money for this much anticipated event. Further evidence of this strategy can be seen with the low total of sight-unseen transactions on the electronic dealer-to-dealer networks, which amounted to just above \$60K over the last week. The CCDN CMI has been dropping steadily since late August of 2014, creeping lower and lower nearly every week. June 18-21 is slated for the 39th annual Memphis International Paper Money Show. This event will feature multiple guest speakers, a nearly 200 table Paper Money bourse, and PCGS registry set awards.

Moderate activity this week in the Classic Silver Commems segment, led by the 1922 Grant Memorial With Star in NGC MS66 holders, as they take a plunge by nearly 18% after an example realized \$6,755 at public auction, going to their lowest Bid on record. NGC has graded 55 coins at this level with nine finer. Gem 1934 Maryland and MS63 Huguenot-Walloon Halves also take moderate losses. In Classic Gold Commems, the 1917 McKinley in MS65 declines a bit, and NGC slabbed MS66 1905 Lewis & Clark Gold Dollars drop below \$10K for the first time since May of 2012.

PCGS graded MS67 Liberty Seated Dimes With Legend take a 9% drop, as a relatively attractive specimen brought \$2,585 at a weekly online auction. PCGS has graded 187 pieces of this With Legend Type at MS67 to date. A wonderfully toned 1795 Flowing Hair Half Dime certified MS65+/CAC by PCGS took home a healthy \$47,000 at the Long Beach auction. Mint State Gold Type is relatively stable, with the \$3 Indian in PCGS MS62 holders edging down slightly.

NGC slabbed 1882-CC Morgan Dollars have slipped a little this week in MS64 now at a sight-unseen Bid of \$210. Morgan and Peace Dollars did well at last week's Long Beach Expo, some examples being an 1893-CC Dollar graded MS64+/CAC by NGC racking up a whopping \$23,500; two CAC approved 1891-S both encapsulated in PCGS holders graded MS65 and MS66 bringing home \$1,940 and \$5,640 respectively. Two Peace Dollars that stood out at auction were

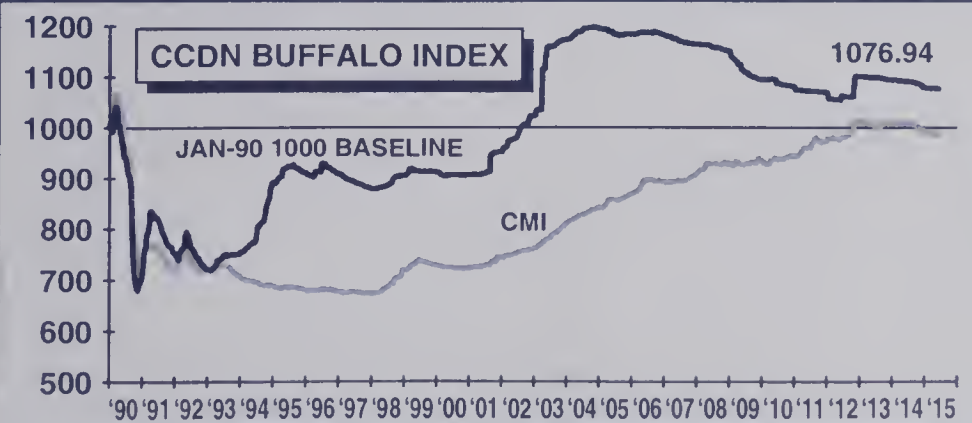

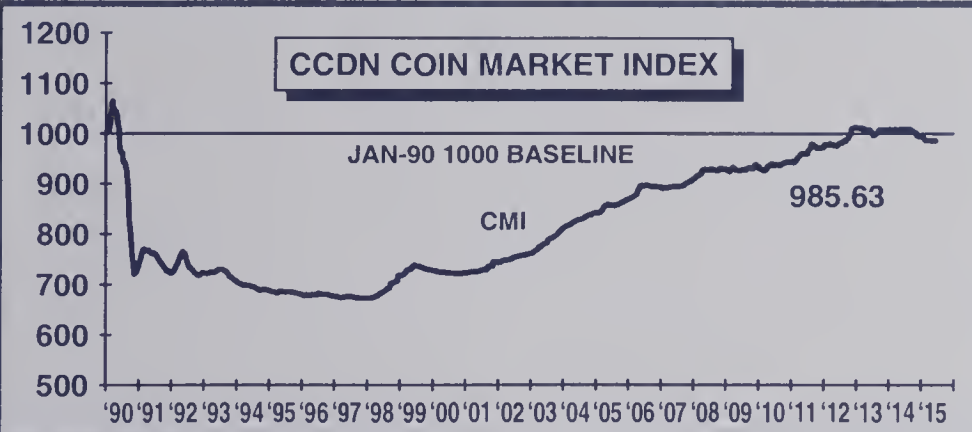

both in PCGS holders, a 1922-D graded MS66+/CAC and a 1925 Philly graded MS67/CAC both bringing in a nice chunk of change of \$5,405 and \$5,170. A serious buyer is after PCGS 1878 7/8TF Proof-Like Morgan Dollars in MS64PL and will pay a sight-unseen Bid of \$385 to get these examples. This can be seen on Supplemental Page E.

A 1935 Buffalo graded MS66 by PCGS and 1938-D/S Buffalo graded MS65 by NGC saw a similar outcome both picking up \$140 through a recent internet sale. A beautifully toned 1926-D Buffalo Nickel graded MS66 by PCGS and wearing the CAC approved sticker did some damage in Long Beach taking home a nice sum of \$7,638. Also doing well at last week's show was a gorgeous rainbow toned 1913 Type 1 Buff graded MS67+/CAC by PCGS seeing the winning Bidder fork over \$4,583.

Winged Liberty Dimes had a few noticeable declines after light selling at Heritage's recently held auction at the Expo. Among the drops are 1942/1-D issues in NGC MS64FB slabs. These Merces see their sight-unseen Bid slide down \$175 after an example, not often seen at auction, sold for \$6,755. 1920 saw a couple of drops as well with NGC Full Banded specimens trending downwards after similar auction results in Gem and Superb Gem. Moving forward 10 years, 1930 examples had a rather good showing when one example in MS65FB hammered \$1,410 in Long Beach which marked this date's best non-CAC showing since August 2013.

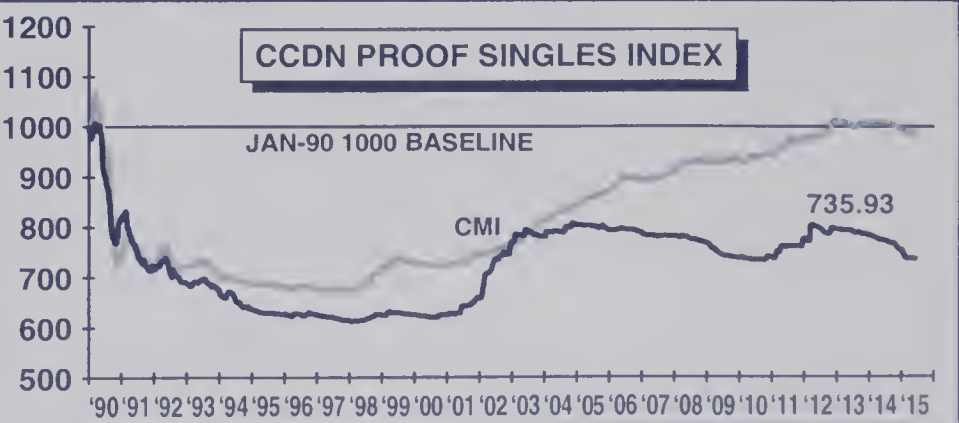

Later date Walkers took quite a stumble with some of the lesser declines for 1938-D Halves in NGC MS67 coming in at 10%. 1929 Denvers in Gem PCGS capsules take a \$300 drop. However, 1945-S issues really saw some pain as their Bid deflates a whopping 36% to \$1,480 in NGC MS67 after auction activity in Southern California.

There were a couple Halves which actually sold short of Bid but the shortfalls were minor. There was some interesting mixed activity with superbly graded Proof Singles. We see 1936 Mercury Dimes in the highest grade listed tumble nearly \$100 to a Bid of \$1,655 following the sale last week of an illustrious NGC PR67 piece with a pop of 151 and 11 finer. Quarters saw a bit of a jump with 1937 pieces in PCGS PR67 rising to a sight-unseen Bid of \$485.

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective with less reflectivity than the deep-mirror Prooflike. Bids for P/Ls are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

UPDATE!

The CAC sticker helps to identify a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC-stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the CAC sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ^{^ 650,000} ~~550,000~~ coins with a market value over ^{\$ 2.9 billion} ~~\$2.4 billion~~. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC-stickered coins bring a premium - they are placed only on quality coins.

CAC is a powerful market maker for its stickered coins. What's more, CAC provides liquidity to the market, having purchased coins in excess of ~~\$340,000,000~~ since its inception.

So, the ^{^ \$375,000,000} CAC sticker does not add value - it is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

NEED TO CONTACT AMERICA'S LEADING NUMISMATIC DEALERS?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2015 Numismatic Dealer Directory**™ are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only \$385 — well below the mailing industry standard of \$95/thousand.

Need just one state or region? Need a trial sample?
Pay only 8¢ per address and \$25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2015 Numismatic Dealer Directory.

I understand that my \$385 fee entitles me to only one usage of these addresses.

☐ My check for \$385 payable to CDN, is enclosed. ☐ Visa/Master

Gold Rises On Fed Meeting

Quick Break Before Summer F.U.N.

As the numismatic marketplace absorbs the action from the Long Beach Expo and its associated auctions, several smaller regional shows fill in the gap. A couple of examples include the Raleigh Money Expo, scheduled for June 26-28, which will feature coins, Paper Money and stamps, and the Colorado Springs Coin Show, June 26-28. Gold made a big jump today, shooting up to over \$1,205 in intraday trading and closing at \$1,202. Spot for the yellow metal has been below the \$1,200 level for several weeks, and some analysts speculate that today's rise is, at least in part, due to the "dovish" report recently submitted by the Fed in keeping interest rates low with no hurry to raise them, as well as the dire economic situation in Greece. Silver moved up slightly, now sitting at \$16.15. In addition, the Nasdaq reached a new high of \$5,132.95. Platinum came in at \$1,083, and Palladium closed a bit lower at \$718.65. Trading on the dealer-to-dealer electronic networks over the last week has risen to over \$110K, compared to last week's \$60K total.

PCGS certified MS66 Long Island Commems take a 4% decline, as this population 480 coin went a little light at auction. Elsewhere, lower Asks are seen for Gem Boone and Hudson Halves. CAC stickered Gettysburg Commems are Bid higher across-the-board, while a few MS66/CAC issues fall slightly to the downside. A handful of minus signs are seen in Classic Gold Commems, all at the MS66 grade level and all from recent auction transactions. Both dates of the Lewis & Clark Gold Dollar move lower, and for the 1905 the only two instances of an MS66 grade coin bringing less than Five figures in recent history has been within the past month.

No Drapery Liberty Seated Half Dimes graded MS67 by NGC slip 6% as an 1839 dated example brought a soft price at auction. Gem PCGS certified Barber Quarters also take a very slight step back. In Gold Type, the ever-popular \$20 High Relief in MS63 goes to a sight-unseen Bid of \$17,000 and Type III \$20 Libs in MS62 adjust slightly after a number were offered at discounted prices. A few Gold Types have also been offered in the wholesale market at below CCDN Bids, one example being a \$3 Indian in MS62.

PCGS encapsulated 1922-S and 1927-D Peace Dollars, both in MS64, have stumbled a bit this week falling to sight-unseen Bids of \$200 and \$700. Two better

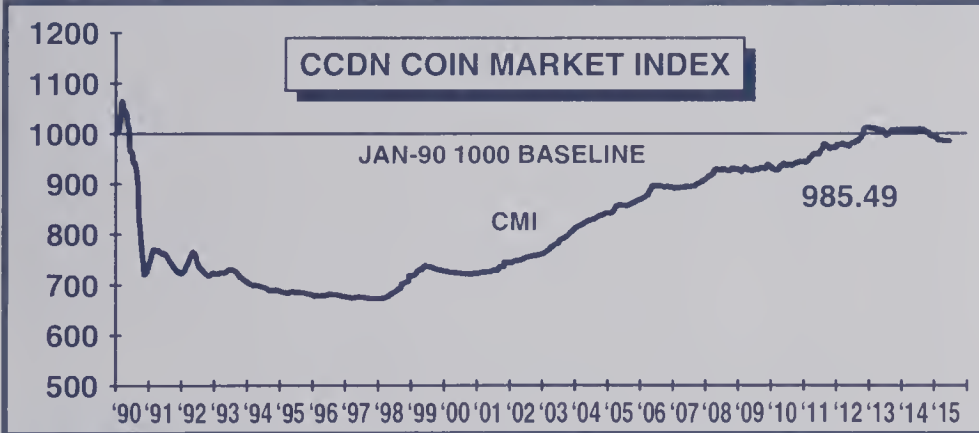

date CAC approved Philly Morgan Dollars are seeing declines, examples being the 1891 in MS65 now at \$6,700 and the 1892 in MS64 dropping to \$1,020. Also, common date CAC Morgan Dollars are seeing the negative aspect of things slipping to a sight-unseen Bid of \$250. These and the rest of the CAC and Plus graded material can be seen on Supplemental pages G, H and I published every third week of the month. At a recent online sale, a nicely minted 1934-S Peace Dollar graded MS63 by PCGS saw the winning Bidder fork over \$3,630. The Coronet Collection of finest Morgan Dollars hopes to bring serious buyers to Sin City. A couple PCGS highlights are an 1883-CC graded MS68/CAC and a key date 1892-S graded MS67/CAC.

A gorgeous, rainbow toned 1916/16 Double Die Obverse Buffalo Nickel graded MS63 by PCGS with a CAC pop of 2 and none finer will take center stage in Las Vegas next week. A couple other PCGS Buffaloes looking to make some noise at the same auction are a 1924-D graded MS66/CAC and a 1925-S graded MS65.

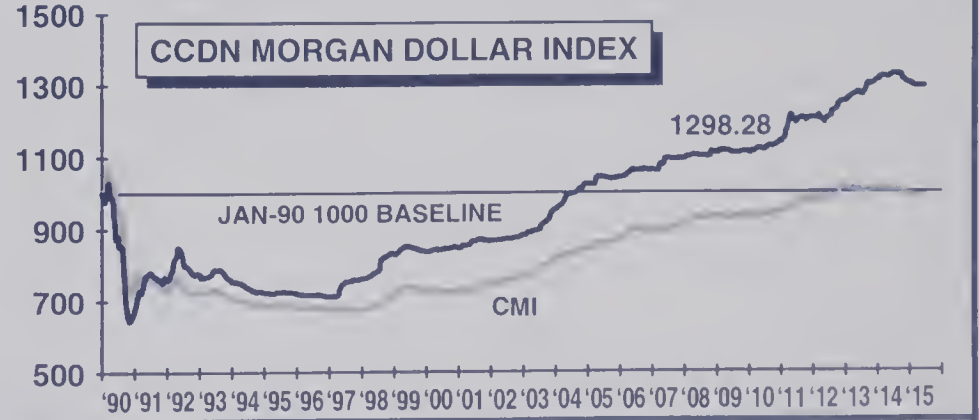

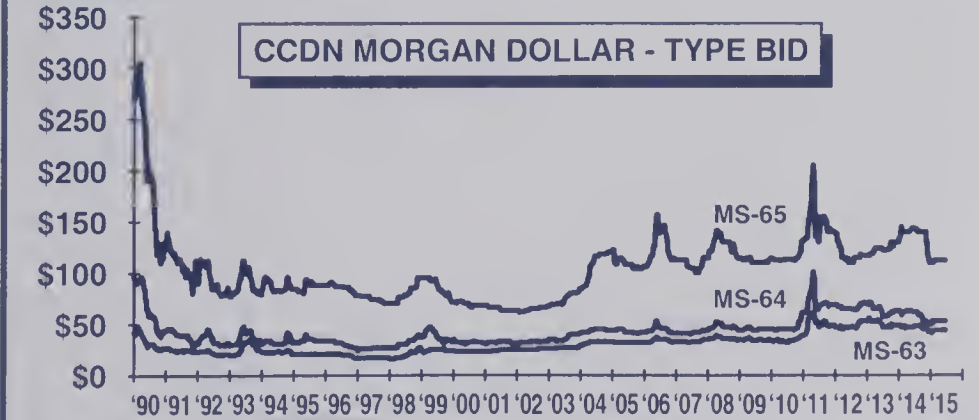

Mercury Dimes snatch up huge demand for PCGS+ slabbed material in Very Choice and Gem. For the non Plus issues, sight-unseen support congregates in the early 1930's in the same two grades.

Several CAC adorned Walkers get tripped up in the higher grades of MS65 and MS66 with the largest drop going to 1934 Halves at 14%. Most demand for regular issues is locked up at sight-unseen Bid (for the aforementioned high grades) for 1935 and earlier. CAC and PCGS+ issues follow this trend as well. However, for the latter, buyers are keeping their eyes on common dates in MS64+ and their offers close to Bid. One date, 1943, saw an example in NGC MS64 actually sell short of Bid at auction.

One Cent and Five Cent 1936 Brilliant Proof pieces see solid Bidding for PCGS+ examples in Very Choice. Proof Halves see plentiful support for earlier dated Franklins. For those Halves with Full Bell Lines, a special treat will be offered in Las Vegas, the finest known 1958-D specimen will cross the auction block. Graded NGC MS67+★ and one of only two adorned with a CAC label, this unique combination serves to distinguish this stunning coin that contains vibrant toning with "killer colors".

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

www.ccdn-bids.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

</

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 650,000 coins with a market value over \$2.9 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over \$375,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

Dealers Flock To Florida Palladium Hits Two-Year Low

While all eyes are on the F.U.N. Show, another Floridian expo will take place first—the Clearwater 2015 Coin Show, July 2-5 in Innisbrook at a golf and spa resort. Summer F.U.N. is up next, July 9-11 in Orlando at the Orange County Convention Center. The coin caravan will then carry on to the Whitman Coin & Collectibles Baltimore Expo, July 16-19 at the Baltimore Convention Center, with an auction by Stack's Bowers. This is the Expo's 43rd year. Not long after last week's jump in Spot for Gold, following the Fed meeting, the yellow metal dropped noticeably. Gold has fallen below the \$1,200 benchmark to \$1,172. Silver declined to \$15.81. Platinum is up slightly to \$1,084, and Palladium is down to \$679, at a two-year low.

Looking at the Market column this week, a handful of transactions can be observed which affect certain Classic Silver Commem issues. A 1921 Pilgrim Tercentenary graded NGC MS64 experienced its weakest auction result since January of 2014, taking sight-unseen Bid to \$120. The better Alabama 2x2, in MS64 certified by PCGS, drops 7% after bringing \$423 at public auction. NGC slabbed MS67 Cincinnati Music Center Halves also take a 6% decline. There have been just 49 coins of this Type graded MS67 by NGC.

Type I Three Cent Silvers in MS63 is the sole mover in Mint State Type this week, showing a slight 4% decline, as most recent auction prices for Type coins have been solid overall. This may signal that the market has found a bottom, at least temporarily, for some of the Types that have been under pressure recently, namely Liberty Seated and Barber material. Looking forward, a lovely first-year Barber Dime, certified PCGS/CAC MS67+ will be up for grabs in the Summer F.U.N. sale. Gold Type is stable, with strong sight-unseen support at Bid for both Quarter Eagle Types.

A gorgeous lightly golden toned key 1889-CC Morgan Dollar graded MS63 by NGC which has a pop of 65 with 49 finer did some damage at a recent online auction bringing in a whopping \$41,800. Two PCGS slabbed 1878-CC Dollars graded MS64+/CAC and MS64DMPL/CAC both saw great support at auction bringing home \$750 and \$3,275 respectively. Auction results such as these and many others can be seen in this week's Market column which is published the fourth issue of each month providing useful information not available in any other publication. A beautifully minted 1881-CC graded MS67 by NGC with a pop of 181 with 4 finer is up for grabs through a David Lawrence online auction ending Sunday. Also in a weekly online auction is

an attractive 1924-S Peace Dollar graded MS64+/CAC by PCGS hoping to bring some serious Bidders to the table. 1888-O Dollars encapsulated in PCGS holders are seeing a 16% decline to a record low of \$1,100 in MS66. Common date PCGS Peace Dollars in MS64 have dropped a bit to a sight-unseen Bid of \$39.

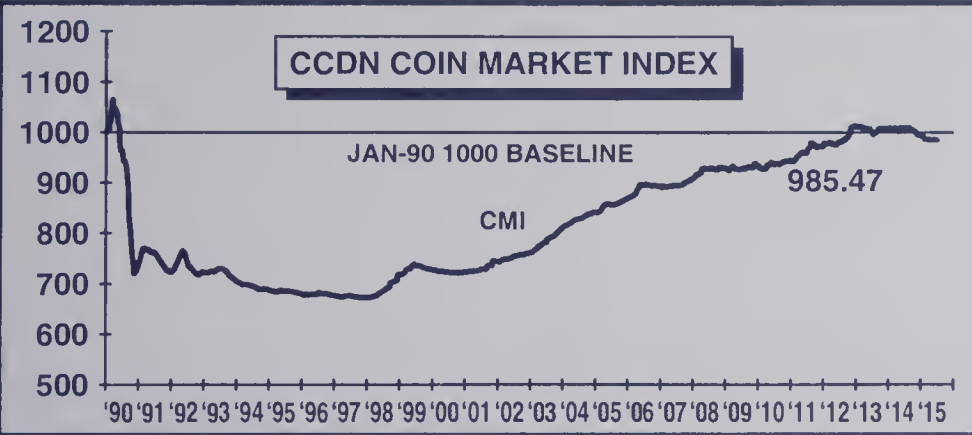

A stunningly golden toned pop 6 with none finer 1929 Nickel graded MS67 by PCGS racked up a huge sum of \$11,550 at a recent online sale. 1927 Philly Buffalo Nickels in PCGS holders are taking a hit in MS65 falling to a sight-unseen Bid of \$160. NGC certified MS66 1934-D Buffs take a 13% drop to a new sight-unseen Bid of \$845. A Type One 1913-D Buffalo Nickel graded MS67/CAC by PCGS is available at a Great Collections weekly internet sale ending Sunday.

Activity is on the lighter side for Mercs. In the Full Bands arena, there is a 3% slip in Gem. Demand is drifting away from the higher grades and beginning to congregate in Very Choice and in Gem for either grading service, bands or no bands.

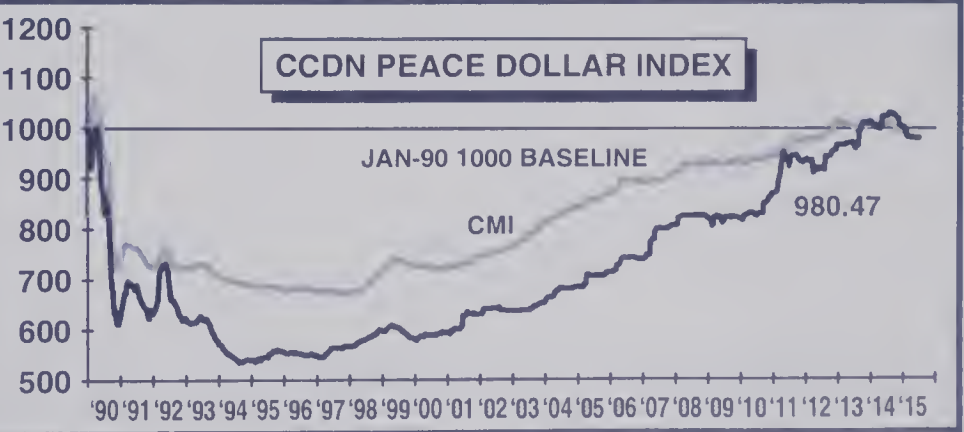

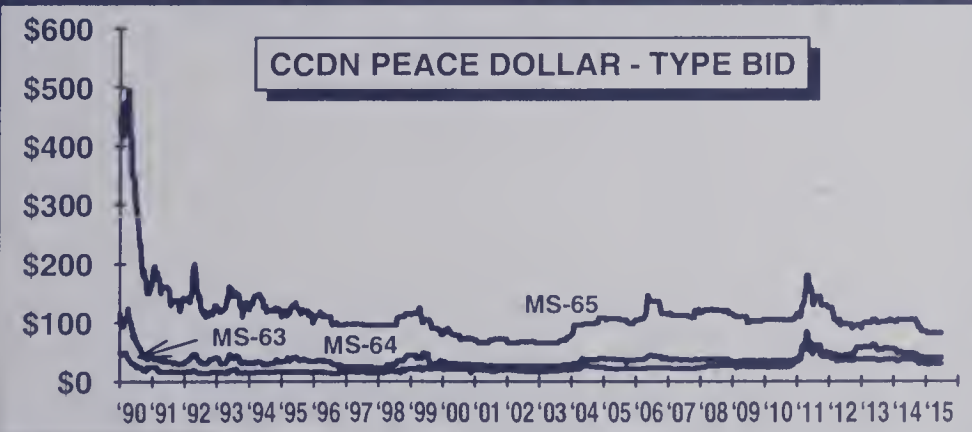

Middle grade Walkers give way to lower Bids, to the tune of 4%-5%, after light online auction results for more common material from the 1940's. A pair of common date 1945 Walkers in MS66, one a Philly the other a Denver, took a couple steps down and underperformed at auction, selling as much as 13% under sight-unseen Bid for the latter. Also, 1944-D is proving to be the most popular date, with support across all grades, in this series with buyers laying in wait to pony up prices, just back of Bid at the very least.

Proof Lincoln Singles made a notable sale in PR66 when an NGC graded 1938 piece commanded a respectful \$325 at the sound of the digital gavel representing a new best for this date, grade and slab. For Dimes in the same grade, the heat is on 1937 Singles as fresh auction results, shown in this week's Market column, now collide with what sight-unseen buyers are willing to pay.

This issue is dedicated to the memory of Shane Downing, Publisher and Editor of the Coin Dealer Newsletter. Shane took over CDN after his father, Ronnie Downing, passed away in 1997. Following his father's example, Shane worked tirelessly for the betterment of numismatics by providing readers with accurate coin pricing information through meticulous research and extremely hard work. His integrity was unquestionable and his work ethic was unmatched. His presence will be greatly missed. Shane is survived by his mother, wife, two daughters, and two sisters.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; 1m - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

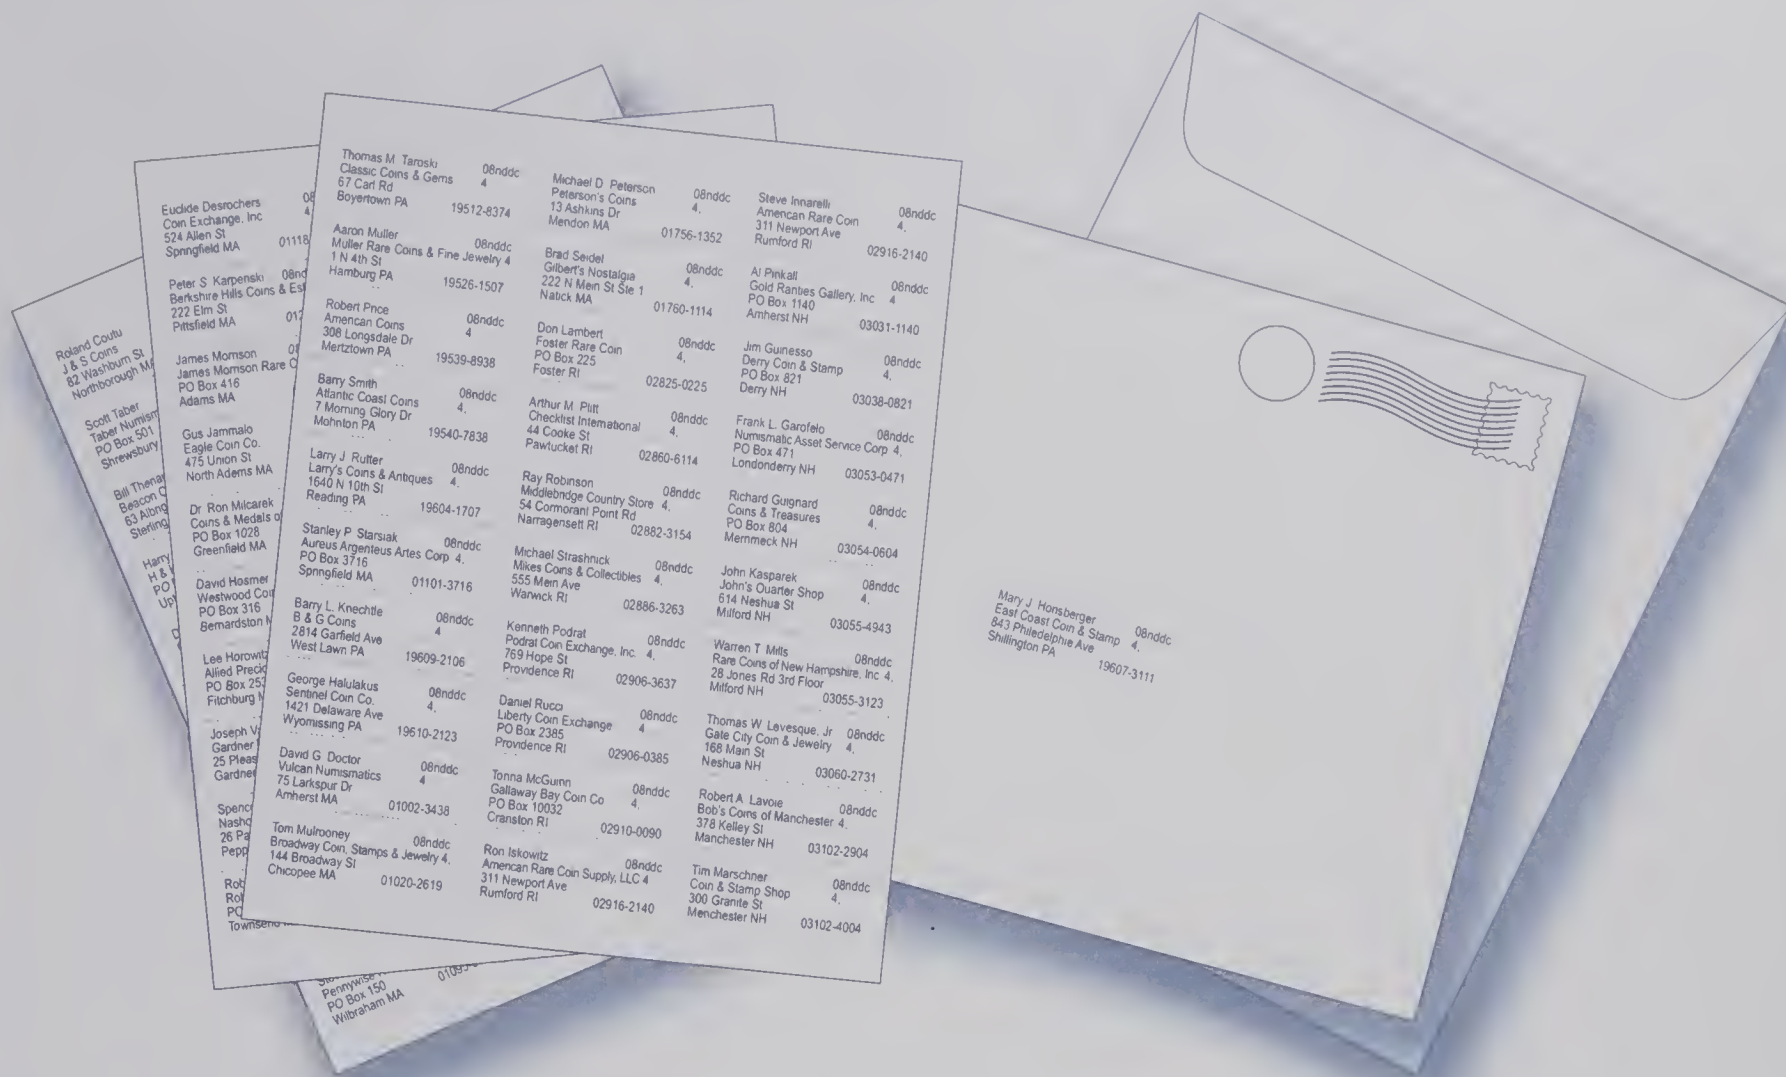

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Need to Mail?

Need to contact America's leading numismatic dealers?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2015 Numismatic Dealer Directory™** are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only \$385 — well below the mailing industry standard of \$95/thousand.

Need just one state or region? Need a trial sample?
Pay only 8¢ per address and \$25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2015 Numismatic Dealer Directory.

I understand that my \$385 fee entitles me to only one usage of these addresses.

☐ My check for \$385 payable to CDN, is enclosed. ☐ Visa/Master

July 3, 2015

Single copy price \$5.00

Precious Metals Volatile

Greek Crisis Impacts Markets

As the results at the most recent Long Beach Show demonstrated, along with the prices realized at the Legend Regency XII sale (see highlights herein), high-end material is in strong demand. Common, below average coins, however, remain in dealers' inventories. Time will tell how long this pattern continues as we come to the Summer F.U.N Show and the Baltimore Expo this month. Precious metals are seeing some weakness lately. Gold has dropped to \$1,169, a several week low. Silver stands at \$15.56, also down from last week. Platinum and Palladium are actually up, at \$1,088 and \$701 respectively.

Norfolk Bicentennial Halves in MS65 down through MS61 drop this week as a Gem specimen brought a disappointing result at auction. The popular and long-lived Boone Bicentennial steps back 9% in Gem to a sight-unseen Bid of an even \$100. Classic Commem Gold Dollars continue their cold streak, with PCGS certified MS64 Grant with Star pieces taking a nearly 20% drop, along with the 1917 McKinley in MS63, also PCGS graded, after a specimen brought \$535, which is \$5 below the prevailing sight-unseen Bid. Despite this, two notable Classic Silver Commems brought solid prices in Las Vegas last week, both certified MS67/CAC: a 1918 Lincoln at \$7,640 and a 1935-S San Diego at \$3,175.

Mint State Type is stable again this week, as dealers and collectors prepare for Florida and Baltimore. Type coin enthusiasts have an excellent selection to look forward to with the Kaselitz Collection sale in two weeks. A great Type candidate, an 1831 Capped Bust Half Dollar, certified PCGS MS64/CAC brought a healthy \$3,650 in Vegas. Certified Gold Type, is active, with both Type III \$20 Libs and \$20 Saints being traded over one of the electronic networks at the MS61 and MS62 grade levels at prices that range from 5% to 7% over melt value.

A beautifully minted key 1889-CC Morgan graded MS64/CAC by PCGS did well in Las Vegas last week bringing in a whopping \$141,000 which was part of the Coronet Collection. Also from the same sale was a gorgeous, golden toned 1892-S Dollar graded MS67/CAC by PCGS seeing the winning Bidder fork over \$446,500. MS67 1888-S Morgan Dollars encapsulated in PCGS slabs is experiencing a bit of a setback this week dropping to a sight-unseen Bid of \$24,500. A nice assortment of Morgan and Peace Dollars will be taking center stage in Orlando

next week. One highlight is an 1879-S Dollar graded MS68PL by PCGS which is tied for finest known which will hope to bring serious Bidders to the table. A stunning 1893-S Morgan graded MS63 by PCGS would make a great addition to someone's registry set. A key date 1928 Peace Dollar graded MS66 by PCGS with a pop 15 and none finer will look to find a new home after the Orlando show.

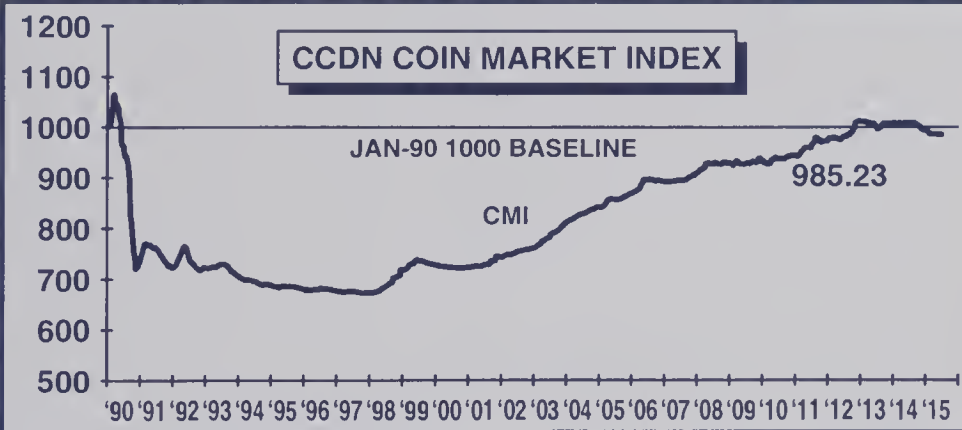

PCGS 1915-S Buffalo Nickels in MS65 are witnessing an 18% decline to a sight-unseen Bid of \$1,640 as well as PCGS and NGC encapsulated 1920-S Buffs in MS64 now falling around 21% to Bids of \$1,750 and \$1,800. A beautiful, rainbow toned 1921-S Buffalo Nickel graded MS64/CAC by PCGS will look to steal the show in Orlando next week.

Higher graded Merces (64 and better) encounter weakness for select Full Band material with 1929-D issues taking the brunt of the declines. At a 17% slide, this NGC piece's Bid has sunk below \$300 for the first time since early November, 2013. For Superb Gem specimens, a small oddity has occurred. 1944-D PCGS FB pieces have fallen slightly while their NGC counterparts actually march into positive territory as both coins land at a Bid of \$104.

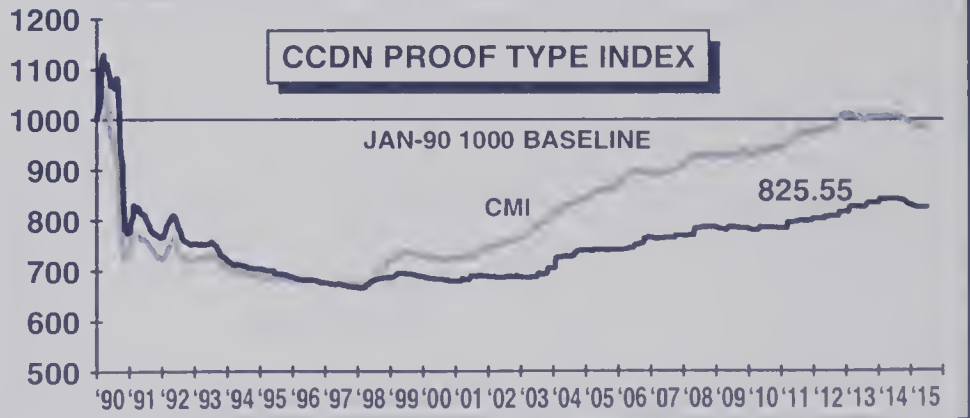

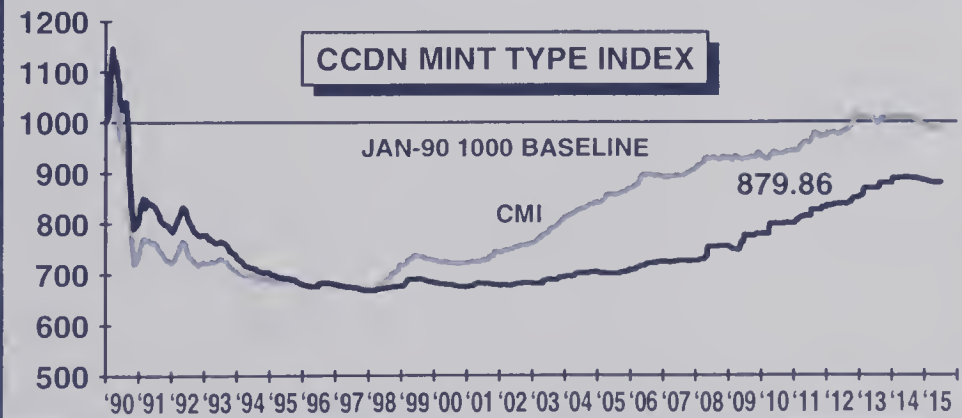

Among the scores of Walking Liberty Halves offered in Florida, plenty of key dates will be sure to whet the appetites of dealers with deeper pockets. Classic early dates such as 1921-D, 1919-D, and 1917-D Reverse, graded PCGS MS63, MS64 and MS65 respectively, command the highest Bids thus far. General market trends show a few minus signs with Bids trailing down 4-5% including one date, 1943 in NGC MS64 that sold short of sight-unseen Bid at only \$40 during an online auction.

Proof Singles will be a sight to behold at the upcoming sale in Orlando. For issues reported here 67 lots will be up for grabs with Cents having 11 lots, Nickels with five lots, Dimes with 11 lots, Quarters with nine lots and Halves with 31 lots. A trio of Brilliant Proof Type 2 1936 Buffs will be among the Nickel lots: two PCGS PR67 examples and another NGC PR65 piece.

Metals Take A Dive Baltimore On Deck

Precious metals really took a dive this week. Not great timing with the F.U.N. show underway, and Baltimore coming up shortly after. It is speculated that the economic turmoil in Greece and now China are part of the metals' downfall. Gold now stands at \$1,159, while Silver is at a Spot of \$15.35. Platinum and Palladium have landed on \$1,022 and \$638 respectively. Perhaps these wrinkles will be ironed out by the time the big ANA World's Fair Of Money comes around August 11-15 in Chicago. Trading over the dealer-to-dealer electronic networks is quite low, as one might expect during a good sized show. The total over the last week is a very anemic \$36K.

Wholesale Asks of certain Classic Gold Commem issues impacts their prices this week. The 1904 Lewis & Clark Expo Gold Dollar in both MS64 and MS65, graded by PCGS, each drop by 12%. For this issue in Gem, which has a combined PCGS/NGC population of 499, the current level is still 11% higher than the all-time sight-unseen low Bid. Also in Gem, 1916 McKinley Gold Dollars slide to \$900, the first time Bid is below the four figure mark since late in 2013.

While sharp, short-term moves in the Gold Spot price do not generally affect higher Mint State Gold Type (as opposed to long term price action), MS61 and MS62 do show some effects, with Double Eagles in these certified grades dropping a bit this week. A couple better date \$20 Saint-Gaudens take adjustments, seen on supplemental Page F. A pair of NGC certified MS65 1922-S Saints, a well-known condition rarity that has a total NGC population of just 15, were sold recently, with one bringing \$17,625 and the other \$18,800. Also, PCGS slabbed MS63 High Relief \$20's go to a Bid of \$17,000.

NGC encapsulated 1879-O Morgan Dollars in MS62 have taken a bit of a hit, falling 9.5% to a sight-unseen Bid of \$115. Also experiencing a little setback are PCGS 1879-CC Proof-Like Morgan Dollars in MS63PL dropping to a Bid of \$6,080 which can be seen on Supplemental page E. With a CAC pop of 41 and none finer, a purple toned 1879-S Morgan Dollar graded MS68/CAC by

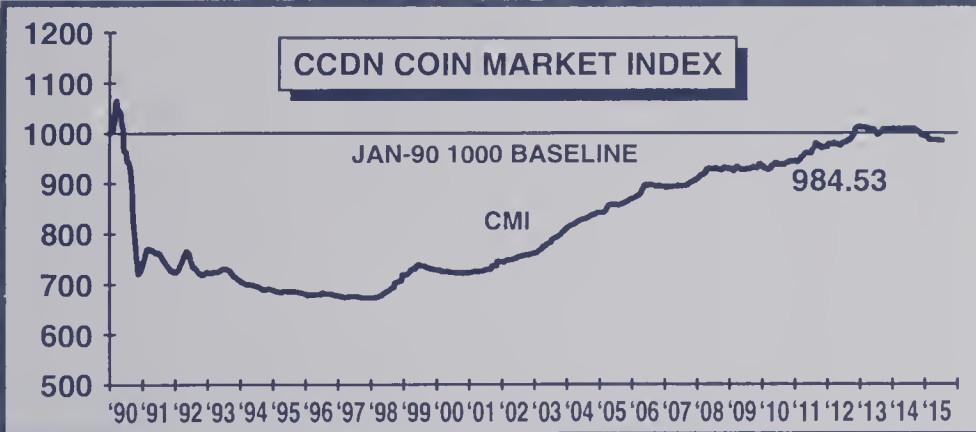

NGC is up for grabs through a weekly online auction ending Sunday evening. Tied for finest known, a gorgeous 1902-O Dollar graded MS67 by NGC hopes to find a new home through an online sale this weekend. A stunning CAC approved 1879-CC Capped Die Morgan Dollar graded MS63 by PCGS will look to make some noise in Baltimore. 1925-S Peace Dollars in NGC slabs have taken a hit falling in MS61 and MS62 to sight-unseen Bids of \$75 and \$100.

1913-D Type 1 Buffalo Nickels in MS67 are being sought after as one dealer is offering to pay a sight-unseen Bid of \$1,800 for PCGS examples. Next week's Baltimore show will showcase a variety of key 1937-D 3-Legged Buffaloes with grades ranging from AU55 up to MS64 in both PCGS and NGC holders.

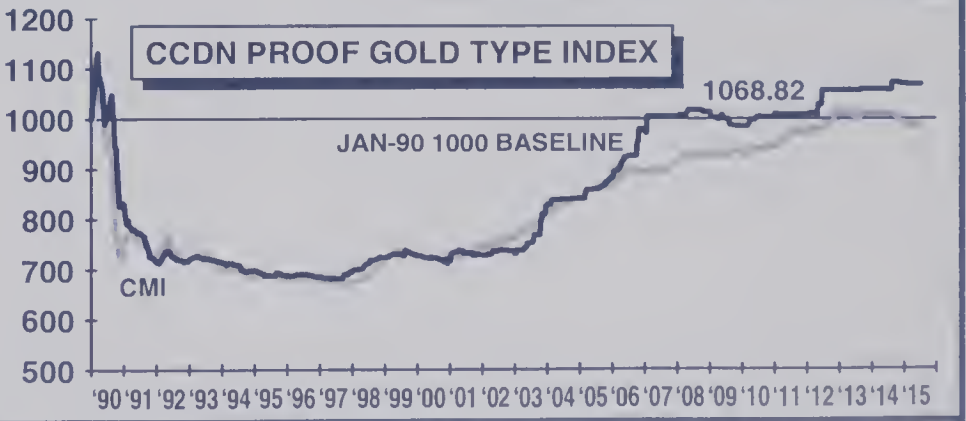

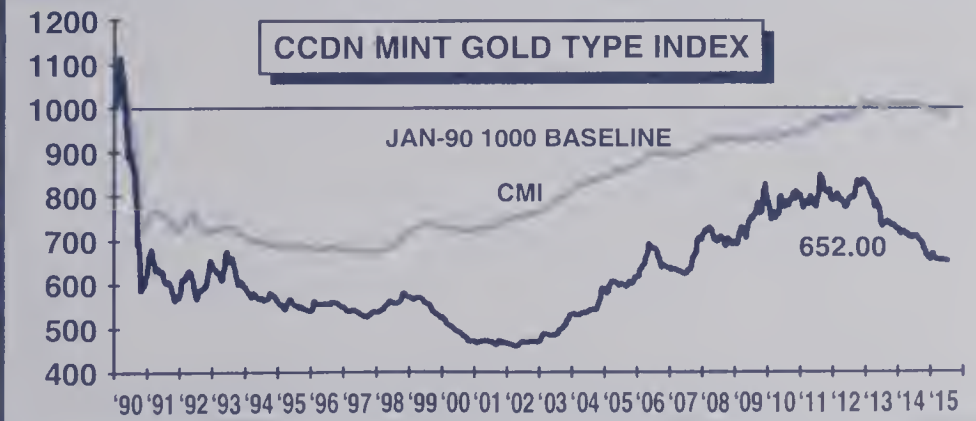

Key Date 1921 Merics made a rare showing recently at auction. These beauties don't float around too often and are picked off quickly. An example in PCGS MS66+FB, one of only two so designated and CAC stickered, pulled in a nice haul of \$10,282. This was the first time in just about two years that this coin has surfaced at auction. PCGS 1926-D issues within the same grade share a similar history. This pop 95 Dime with 27 finer made for a nice grab after a seldom seen CAC example brought \$5,055 at auction.

Walkers will be offered via more than 100 lots on the floor and online in the upcoming sale in Maryland and will represent material all across the grading spectrum. Among the more sought-after dates will be a nice PCGS/NGC pair of 1934-S Halves graded MS64, a pleasant looking 1928-S in NGC MS64/CAC, which is currently enjoying solid sight-unseen support at Bid, and a chance at a key 1921-D in NGC MS63.

A delectable 1937 Proof Buffalo described to be in "Stellar Superb Gem" will be offered next Friday in Baltimore. This PCGS PR68/CAC piece is among the finest certified with a population of only 21 and one finer. Half Dollar Singles see stress and strain with a narrowing gap between buyers and sellers for 1942 pieces after an example selling online for \$423 comes up against Bidders paying \$400.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the buyer and seller. Prices fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

BUYING

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/Ls are usually much lower than for DMPLs, but command some premium over non-P/L strikes.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client sight-seen trades can be expected to occur at substantially higher levels in many cases.

UPDATE!

The CAC sticker helps to identify a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC-stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the CAC sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ^{^ 650,000} 550,000 coins with a market value over ^{\$ 2.9 billion} \$2.4 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC-stickered coins bring a premium - they are placed only on quality coins.

CAC is a powerful market maker for its stickered coins. What's more, CAC provides liquidity to the market, having purchased coins in excess of \$340,000,000 since its inception.

So, the CAC sticker does not add value - it is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

Vol. XXX No. 29 July 17, 2015 Single copy price \$5.00

F.U.N. Brings In \$8.3 Million Dealers Descend On Maryland

Now that the F.U.N. show is over, with a successful Heritage auction totaling over \$8.3 million, all eyes are currently on Baltimore. This expo is celebrating its 43rd year, and runs from July 16-19 with an auction by Stack's Bowers. Precious metals continue to slide, as Gold has come down to \$1,144. Silver is holding onto \$15, but is still down from last week. Platinum is lower as well with a Spot of \$1,012, and Palladium is also struggling a bit with a current Spot of \$632. It's no surprise that trading on the dealer-to-dealer electronic networks would be low, now at a mere \$35K, with all the big shows in the mix.

The better 1921 Pilgrim Tercentenary in Gem takes the steepest fall this week in Classic Silver Commems, as PCGS certified examples go to a Bid of \$155, which represents the first time the price has dipped below \$200 for this population 734 coin. The Lafayette Dollar in multiple grades makes moves, with the greatest mover in percentage terms being NGC MS61 examples, which decline 18%. Few Classic Gold Commems are immune from declines this week, as a result of heavy selling pressure. The relatively scarce 1917 McKinley Gold Dollar in MS67, with a combined PCGS and NGC population of 124, plunges to a new Bid of \$2,100.

Premium and Superb Gem level coins show the primary activity in the Mint State Type segment. With Motto Liberty Seated Half Dollars certified MS67 by NGC dip to a level not seen since May of 2009, although they are still more than 30% higher than the all-time recorded low Bid. PCGS slabbed MS66 Twenty Cent pieces take a 6% hit, as this popular and short lived Type came up a bit soft at auction. In Gold Type, both Type I and Type II Gold Dollars take steps back. Type I Dollars in PCGS MS66 slabs have seen a particularly precipitous slide, as these coins were Bid well over \$5,000 just one year ago.

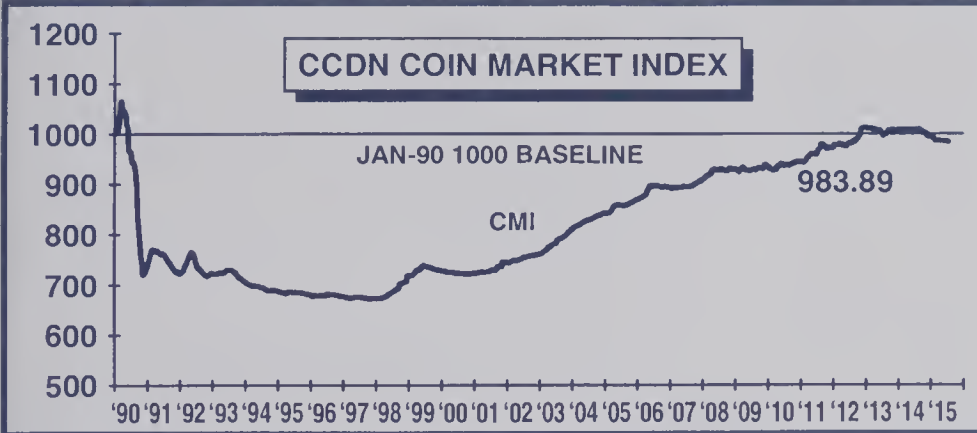

Mercury Dimes make minimal downward strides as PCGS slabs lose a few bucks in Very Choice and better. Up for grabs in Baltimore several classics feature prominently including a PCGS 1930-S graded MS67FB/CAC. This pop 15 coin with three finer (none numerically finer) is one of just five with a green bean and shows lovely golden iridescence. Full Banded issues in general sporting a PCGS "+" show a cluster of support at Bid for 1931-D through 1935-D correlating with demand for like dates of non "+" counterparts.

Better dated Washingtons have seen better days. Minus signs appear for CAC examples in Gem as 1932-S pieces fall by \$270 and now sit below \$4,000 after recent online auction activity. On the east coast, a sharply struck example graded PCGS MS64/CAC will be up for Bidding at the Expo.

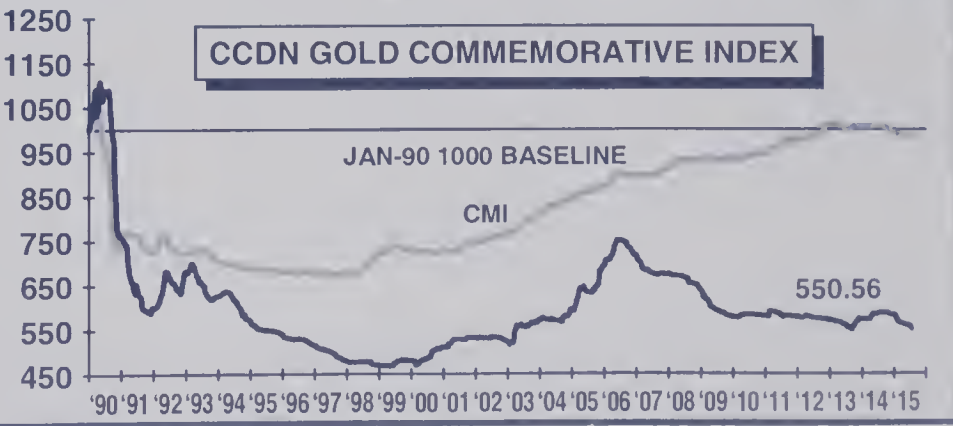

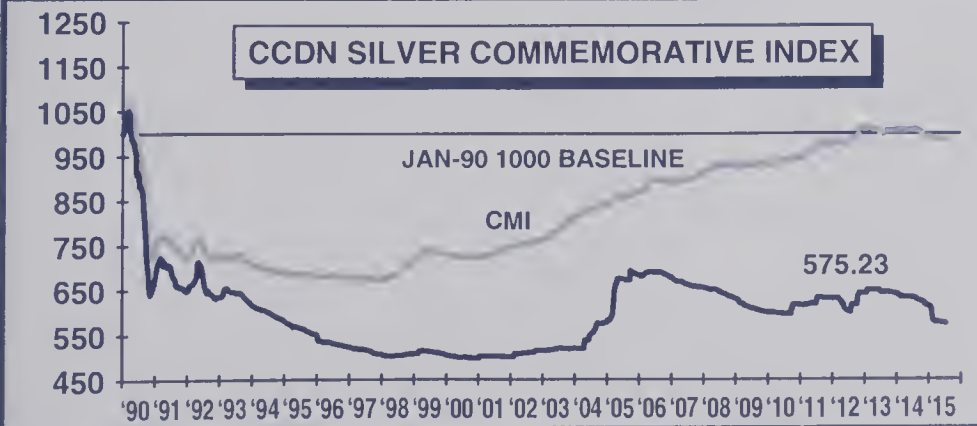

The sale will also feature several semi-key Walking Liberty Halves near the middle of the Mint State grading spectrum. Many more lots with a wide variety of grades, including Proof Singles, will be offered at the online only sale on the 21st. Several dates in CAC Gem have scaled back. In some cases, these retreats have been significant. For example, 1945-S Halves with green beans have fallen back 32%.

A gorgeous CAC approved 1893-CC Morgan Dollar graded MS64+ by PCGS racked up a nice sum of \$25,850 at last week's F.U.N. Show in Orlando. Also from the same sale was a beautiful, lightly toned 1894 Dollar graded MS64/CAC by PCGS which received a winning Bid of \$8,815. An 1894-O Morgan graded MS64 by NGC took home a whopping \$9,350 through a recent online sale. Strong support is seen for PCGS and NGC encapsulated 1904-S Morgan Dollars in MS61 to MS65 as dealers are offering to pay current sight-unseen Bids. Better date NGC Peace Dollars are seeing a bit of a downfall in MS61 through MS64. Common date Morgan Dollars having the CAC designation are being targeted in MS64 and MS65 as at least one dealer has raised the sight-unseen Bids to \$74 and \$155 respectively. These and the rest of the CAC and Plus graded material can be seen on Supplemental pages G, H, and I published every third week of the month.

A Type 2 Philly 1913 Buffalo Nickel graded MS66 by PCGS didn't have so much F.U.N. in Orlando leaving \$36 on the table as there is a buyer offering \$530 sight-unseen. CAC approved 1937-D 3-Legged Buffalo Nickels in MS64 have stumbled a bit, falling to a sight-unseen Bid of \$7,500, which can be seen on Supplemental Page I. A golden toned pop 3 with none finer 1937-D 3-Legged Buffalo graded MS67 by NGC is up for grabs on David Lawrence's web store. The last time one at this grade level was up for auction or on the market was in November of 2009 when Stack's Bowers sold one for \$97,750.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

BUFFALO NICKELS

	CAC		
--	-----	--	--

The frame that holds a masterpiece does not influence its value.

Likewise, a quality coin will always bring a premium in any holder, with or without a CAC sticker.

Then why do CAC stickered coins bring a premium?

CAC just makes it easier to identify quality coins that are solid for the grade. CAC has evaluated over 650,000 coins with a market value over \$2.9 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That means you can have confidence in the value of a coin.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over \$375,000,000 worth of coins. Look for the CAC sticker - you'll find a quality coin in its holder.

Gold At Five-Year Low

Early Copper Strong In Baltimore

Precious metals have certainly been on a downward trend for the last several weeks. Gold is now under the \$1,100 mark, which is a five-year low. Silver has dropped below \$15. Platinum is down to \$980 and Palladium is at \$626. The totals on the electronic, dealer-to-dealer trading networks have been low as well, most likely as a result of many shows coming up with big auctions that push dealers to become more liquid. While low, this week's total, at roughly \$60K, is certainly higher than last week's \$35K. Having cash available now will certainly pay off when future shows arrive. For example, the Missouri Numismatic Society is holding a show in St. Charles as we go to press, and the big ANA World's Fair of Money comes to Chicago August 11-15.

Wholesale offerings of Classic Silver Commems take center stage this week, as dealers adjust their asking prices to the current market. NGC certified MS66 Lafayette Dollars slide 14%, while PCGS graded Fort Vancouvers in the same grade drop 10%. Another Premium Gem in decline is the Alabama Centennial 2x2 in NGC slabs which goes to a new Bid of \$1,500, a level last seen in October of 2012. Only modest changes this week in Classic Gold Commems, with the 1916 McKinley in NGC MS66 holders down 2%.

The slightly better date 1897-S Morgan in NGC MS63 slabs see a nice increase this week as they are now Bid \$102 sight-unseen. As can be seen in this week's Market Column, a handful of Morgan Dollars and a slew of Peace Dollars have traded recently below their prevailing sight-unseen Bid, both via wholesale and public auction. Some examples include Very Choice 1896 and 1890 Dollars in NGC holders, and Peace Dollars primarily in the MS61 and MS62 grades, such as the 1934 in NGC MS62, which realized \$90 against a Bid of \$110. The Baltimore sale saw 80 lots of Peace Dollars go under the gavel, with the top realized price being \$8,225 for a PCGS graded Gem 1934-S.

Two specimens of a rare and sought-after Type, a Gem 1853 Arrows and Rays Liberty Seated Quarter certified by PCGS, population 17, were offered in the Baltimore auction. One, an olive green and steel grey toned example,

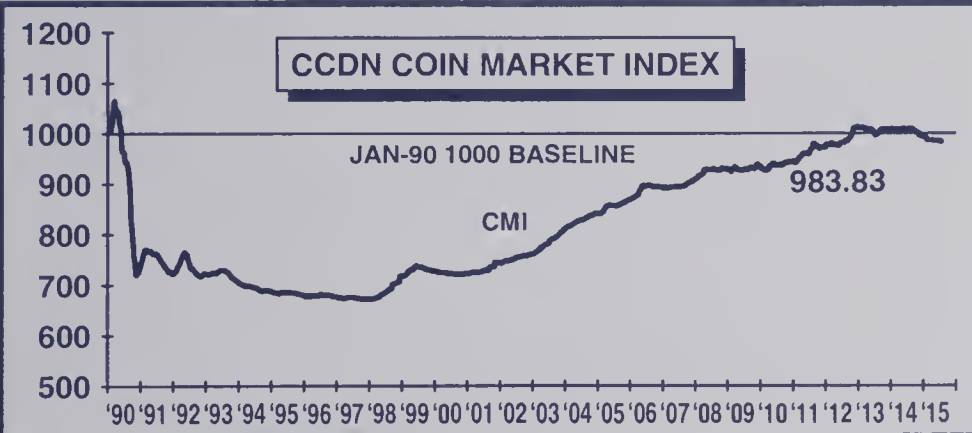

realized \$8,815, while the other, the only Gem to receive the Plus designation from PCGS (and a CAC sticker) brought \$12,925. With Motto Liberty Head Eagles in PCGS MS66 holders dip 5% as a 1901-S dated specimen is offered in the wholesale market at a lower asking price. Overall demand, measured in the presence of buyers at Bid, remains for most Gold Type issues, especially in grades MS61 through MS63.

Buffaloes made a score in Baltimore with a 1937-D Three-Legged example graded PCGS MS65/CAC which pulled in \$38,188. This is respectable considering that this is the highest price realized since mid December, 2012. However, one grade down in Very Choice, there's a pullback in Bid stemming from another PCGS piece selling for just over \$5,400.

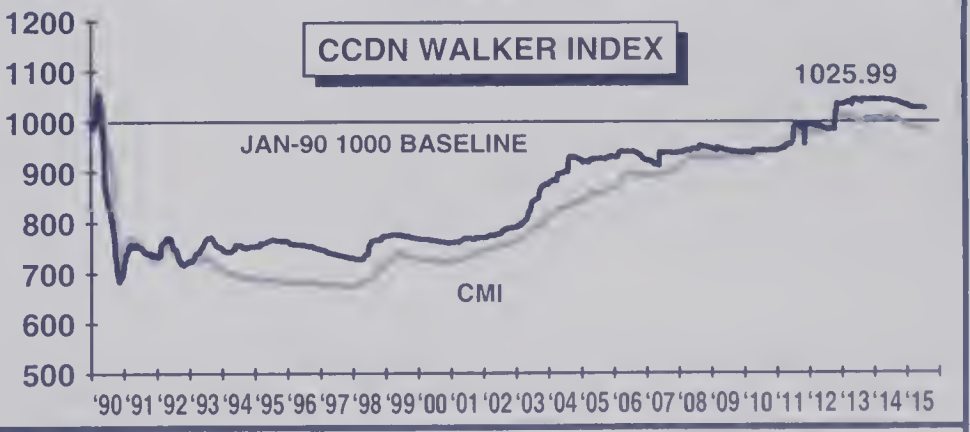

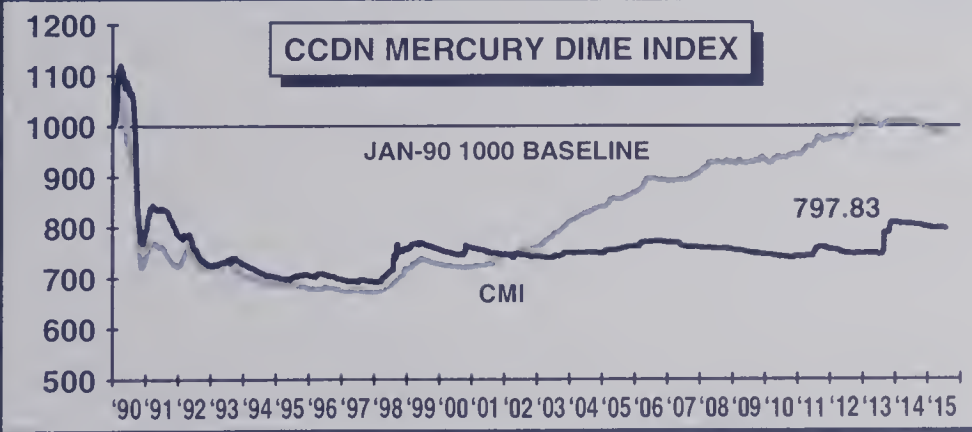

A whopping 40% drop in Bid is at the forefront of Mercury Dimes. Weak selling online saw a 1944 Philly graded NGC MS65FB pull in a meager \$21 sending Bid down considerably. Another less severe but still quite noticeable drop was for PCGS 1937-D issues, also MS65FB. Sight unseen demand is clustered tightly around Very Choice and Gem non-Full Band early dates extending through the end of the 1920's.

Walking Liberty Halves are awash with many common dates being let go for less than their sight-unseen Bid. The most egregious of these occur in Very Choice for PCGS slabs. Both 1942-D and 1941-S sell at significant sub par levels of 31% and 20% respectively below what Bidders are paying. Another steep drop was in PCGS MS62 for 1938-D pieces with a 26% shortfall. A rather remarkable price was fetched at online auction for a PCGS 1917-D Obverse in Gem which hammered for \$11,275 over the weekend. This tops a previous \$9,400 high set in Jan. 2014 by a PCGS+/CAC example.

A couple of minus signs pop up for Proof Singles but are drowned out by positive activity within Dimes. A multitude of increases for both grading services, more so for PCGS, grace the later dated Winged Liberties with boosts as much as 5%.

PCGSProfessional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGCNumismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month, 1m - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PCGS DMPL and PCGS DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and PCGS PL dollars will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully, deep mirror prooflike specimens.

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Can You Afford to be out of the Loop?

Information is Power. Join the Future of Electronic Coin Trading.

Introducing CoinPlex - a revolutionary coin trading network exclusively for dealers. Now you can take full advantage of real-time bid and ask values on all coins graded with PCGS+ and NGC+ designations with or without a CAC sticker. In addition, CoinPlex offers an unrestricted bidding platform for generics like Morgans, Saints and Libs.

The CoinPlex network puts a wealth of real-time information at your fingertips. As a member, you can browse the results from all of the major auction firms, review CAC population data, bid on and list coins, and instant message other members. What's more, for a limited time Charter Membership is available at the guaranteed low price of \$100 per month.* You can opt out at any time without penalty.

With all of the benefits membership in the CoinPlex network offers, can you afford to be out of the loop? Join today as we build the best market possible - together.

* Price guaranteed for three years. Cancel at any time without penalty.

Verify Your
CAC Stickered
Coin

And Get Your
FREE
POP Report!

Verify Your Stickered Coin!

You can use the online CAC Verification Search feature to check the CAC database for ALL coins that CAC has stickered .

Data for each stickered-coin is compiled in CAC's secure database. You can use CAC's FREE online tools to easily verify your stickered coin. What's more, you have access to CAC's Population Report – an absolute “must have” if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, FREE, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's a convenient way to access a gold mine of CAC coin data, the FREE CAC POP report.

NEED TO CONTACT AMERICA'S LEADING NUMISMATIC DEALERS?

Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the **2015 Numismatic Dealer Directory**™ are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And current is a promise taken seriously — the database is updated daily. All for only \$385 — well below the mailing industry standard of \$95/thousand.

Need just one state or region? Need a trial sample?
Pay only 8¢ per address and \$25 set-up.

YES, I want to order mailing labels averaging 5,000+ names and addresses from the 2015 Numismatic Dealer Directory.

I understand that my \$385 fee entitles me to only one usage of these addresses.

☐ My check for \$385 payable to CDN, is enclosed. ☐ Visa/Master

Baltimore Auction Tops \$9 Million Metals Remain Weak

Yet another week goes by with metals in the dumps. Gold is still under \$1,100 at \$1,088. Silver stays below its most recent watermark of \$15 and is at a current Spot of \$14.73. Platinum and Palladium are also generally lower at \$985 and \$616 respectively. Dealers are clearly saving their cash for the upcoming ANA World's Fair of Money. This five day numismatic extravaganza should act as a roughly mid-year barometer of the rare coin market, and will take place at the Rosemont Convention Center in Chicago, August 11-15. Baltimore had quite a successful show and auction which brought in over \$9 million.

The New Rochelle Half is the primary mover in Classic Silver Commems this week, as a decline in MS64 graded coins causes a slide in Bid down through MS61. As can be seen, this issue, along with a handful of others, has very small spreads as the certified grade advances from MS61 to MS65. In these cases, the given certified grade may not be as important as an individual coin's strike, luster, and toning. These factors, regardless of what the holder says, will ultimately determine the coin's price.

A beautifully minted pop 5 and none finer, 1881 Philly Morgan Dollar graded MS67 by PCGS will be on the auction block in Chicago hoping to find a new home. Also through the same auction is a gorgeous CAC approved (pop of 8 with 5 finer) 1884-S Dollar graded MS63 by PCGS looking to make some noise at the ANA show. These are always sought-after in Mint State due to the overuse of these coins for this year and Mint. NGC encapsulated 1881 Philly examples in MS66 have taken a 9% hit, falling to a sight-unseen Bid of \$1,350. A recent online sale saw a stunning 1885 Carson City Morgan graded MS66/CAC by PCGS rack up \$1,870—this is \$570 more than the current sight-unseen Bid being offered. Better date 1934-S Peace Dollars in PCGS slabs are seeing strong support at current Bid levels for MS61 through MS66 examples.

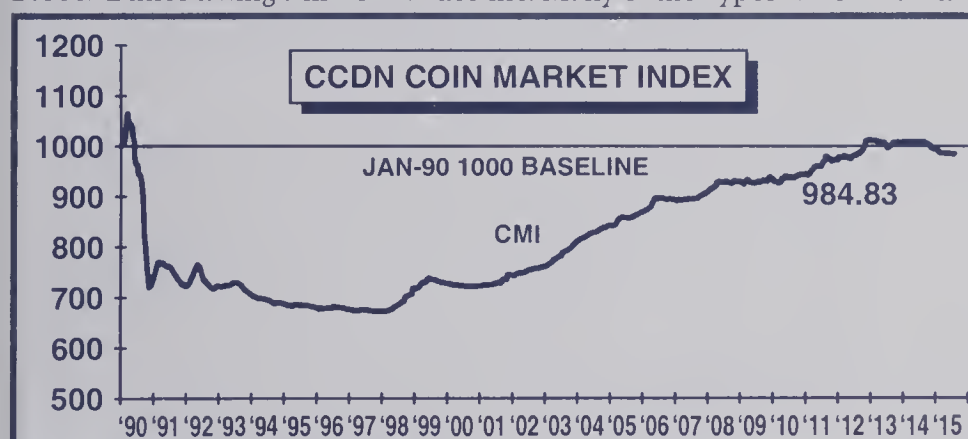

The sight-unseen market for Mint State Type trudges on, with NGC MS62 Barber Dimes taking a minor 4% decline. Many of the Types which maintain

high trading volume, such as Barber Quarters, Liberty Head Nickels, and Indian Cents are at the levels of three to four years ago. In a market such as this, coins which can be regarded as nicer than expected for sight-unseen trading can be purchased for low prices, creating opportunity for those with an appetite for some risk. Sight-unseen Bidding continues to be solid for generic Gold Type coins as buyers provide demand as Gold Spot remains at year to date lows.

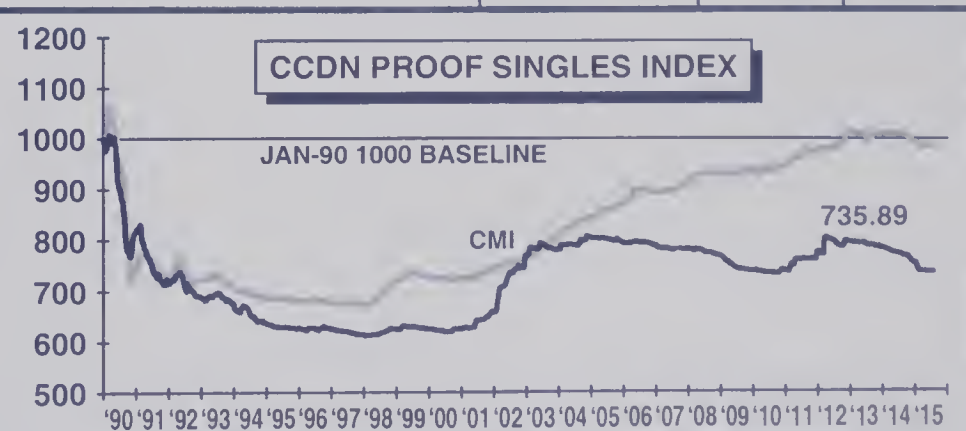

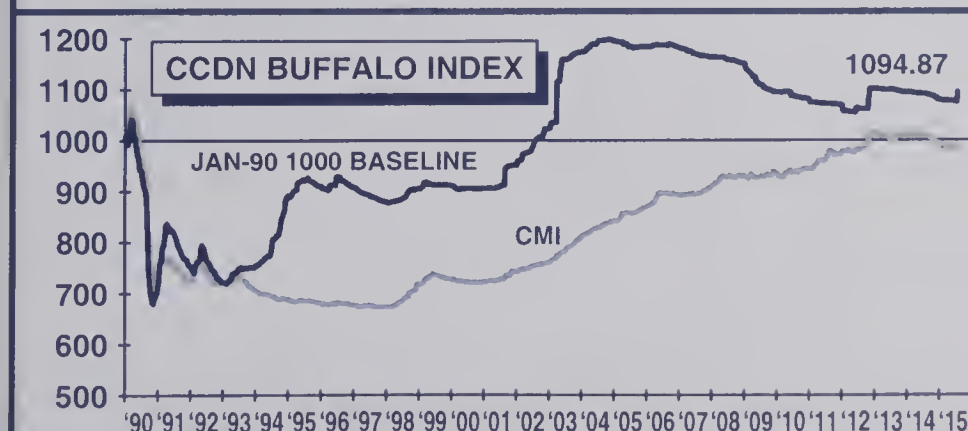

Strong support is seen for PCGS and NGC first year, 1913 Type 1 and 2 Buffaloes in MS64 as dealers are willing to pay current sight-unseen Bids to get these examples. An attractive golden toned CAC pop of 20 (with 5 finer) 1913-D Type 2 Buffalo Nickel graded MS66 by PCGS will be taking center stage in a couple of weeks in Chicago. A weekly online auction ending Sunday is offering a beautiful 1927-S Buff graded MS64 by PCGS which would make a great addition to any Buffalo collection.

At a recent online Heritage auction, a pleasant looking early date PCGS MS66 1916-S with green bean and all took in a cool \$382 on Tuesday. This is the best showing since February 2013 for this issue. Twenty Mercury Dime lots will be up for grabs at the next online sale including four lovely Proof Singles. Among the higher graded material coming up will be the 1940 in MS68. Heritage's last sale of this pop 20 coin (with none finer) was in 2008.

Letting go of Walkers from a certain time period, namely Short-Set years, is on the increase in the middle MS grades of Choice and Very Choice. Some of these discounts are mild and some dramatic. 1942-D Halves in PCGS MS64 was a rather spectacular case where despite having a sight-unseen Bid of \$84 this coin netted only \$58 at a recent online auction making for a 31% shortfall. Elsewhere, the market is steady with the aforementioned grades enjoying demand at Bid. Coming up soon next week is an online sale by Heritage where dealers will have the chance to acquire a semi-key Superb Gem NGC 1939-S Walker with a combined pop of 295 having only one finer.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationwide reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

August 7, 2015

Single copy price \$5.00

Commemoratives Come Down Gold Dollar Collection One Of Many Highlights

While dealers prepare for the ANA World's Fair of Money, slated to run August 11-15, precious metals remain uncooperative, with Gold stubbornly residing below \$1,100. The yellow metal closed today at \$1,090. Silver has been unable to surpass \$15 lately, and is now at \$14.70. Platinum fell to \$952, and Palladium ended up below \$600 at \$598.

A good amount of activity is present for Classic Silver Commems, with more than a few sight-unseen Bids changing due to weekly auction results. Three different PCGS graded 1893 Columbian Expo Halves in MS64 sold through the same online auction at prices of \$52, \$64, and \$89, showing the impact of toning, or lack thereof. Washington-Carver and Booker T. Washington Halves in MS65 decline, as collectors and specialists in this series mainly look for these Types in MS67 and higher. The Elgin Centennial in NGC MS66 holders drops 16% to a new Bid of \$160, the lowest price on record. As can be observed on Page A, Classic Commems certified by ICG and ANACS get a thorough review and are brought into line with the current market.

PCGS encapsulated 1883-CC Dollars in MS63 are witnessing a 5% adjustment slipping to a sight-unseen Bid of \$180. At a past internet sale, an 1880-CC Morgan graded MS66 by PCGS saw the winning Bidder fork over a nice sum of \$1,865. Next week's ANA sale will showcase a beautiful pop 103 (with none finer) 1879-S Morgan Dollar graded MS68 by PCGS which will hope to bring out serious buyers. A gorgeous pop 10 with none finer 1899-S \$1 graded MS67 by PCGS and wearing the CAC approval sticker will take center stage in Chicago. Last time one at this graded level was on the market or sold at auction was in January of 2011 when Heritage sold one for \$19,550 which was non-CAC. At least one dealer is looking to pick up twenty of each of the 1880-CC and 1885-CC GSA Dollars graded MS65 by NGC and will pay sight-unseen Bid of \$1,250 and \$1,300 to get these examples. A first year 1921 Peace Dollar graded MS67 by PCGS and having a pop of 7 and none finer will look to find a new home in

someone's Registry Set after next week's ANA show.

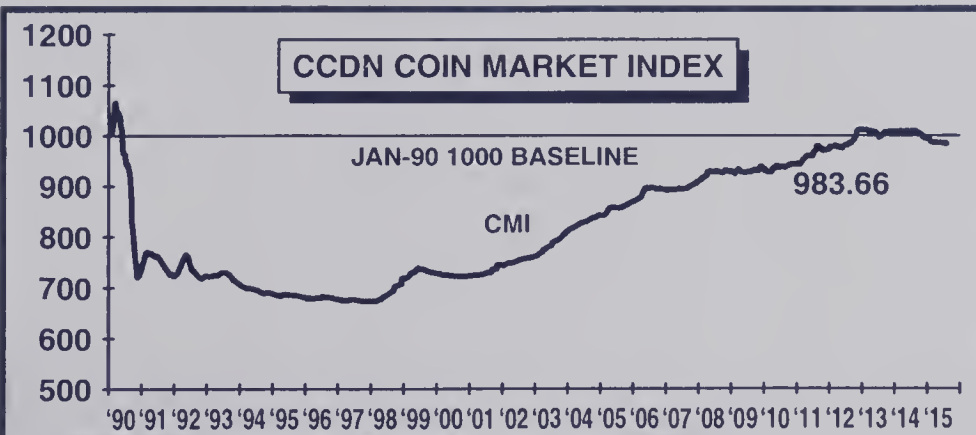

One of the many highlights of next week's ANA sale from Heritage is a run of condition census and finest known Barber Half Dollars, many pedigreed to the well-known Duckor Collection. Although all are choice pieces, the standout is the PCGS/CAC MS67 1904-S, with a PCGS population of three. The steady decline in the gold spot price takes its toll on lower Mint State Gold Type this week, as the spread between sight-seen and sight-unseen Bids narrows.

A rare Buffalo Nickel variety is up for grabs in Chicago. A 1913 Philly Type One 3-1/2 Legged Buff graded MS64/CAC by PCGS will hope to make some noise. Two attractive 1937-D 3-Legged Buffalo Nickels will be taking center stage in The Windy City, both in PCGS slabs and graded MS64 and MS64+/CAC. A recent internet sale saw a nicely minted 1934-D Buff graded MS64 by PCGS bring home \$230.

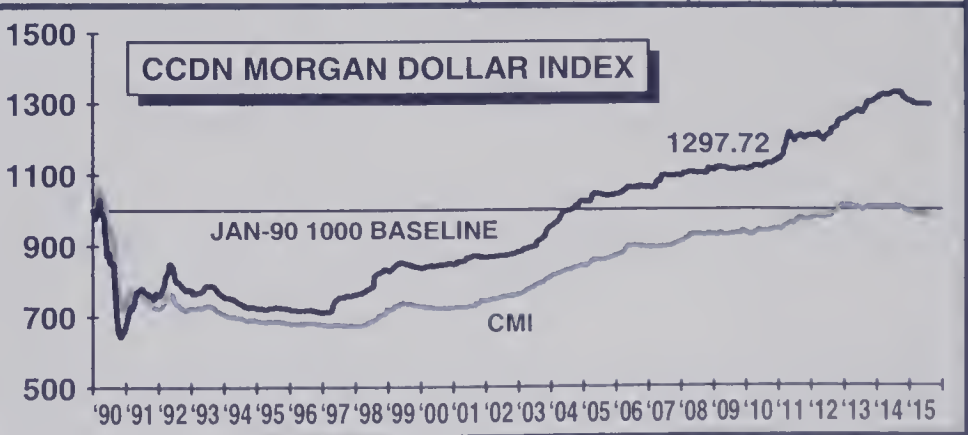

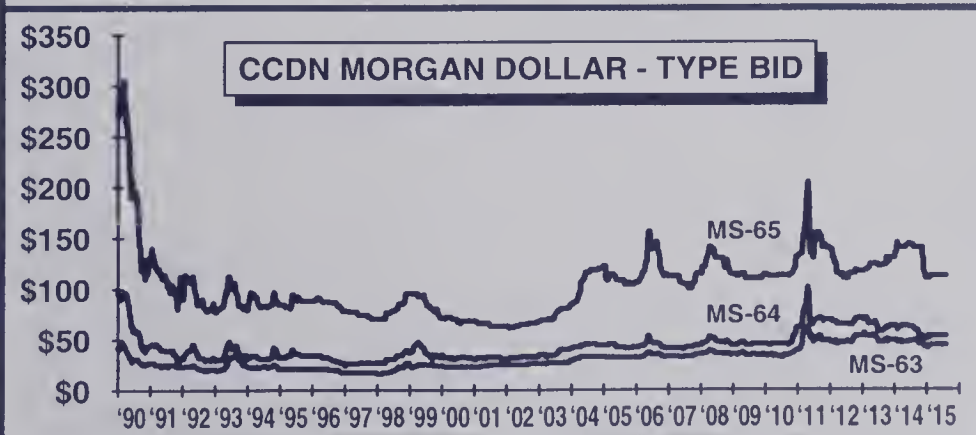

Stack's will showcase the usual Mercury Dime heavy hitters at its upcoming sale in Chicago such as a 1916-D in AU53. However, there will also be a chance to own some nice semi-key dates as well including 1916 and 1918 Phillies, both nice in their own right, graded MS67 and MS68 with Full Bands.

A rare first-year-of-issue Proof Walking Liberty Half will delight many collectors eager to have this Superb Gem example in their grips at the conclusion of a floor auction by Stacks. This piece is graded PCGS PR67 and although it may lack a Plus or a CAC sticker its population is only 36 with a single issue graded one point higher and exhibits a slightly satiny texture. Surely, dealers are already salivating for the moment to Bid and own this beauty. The overall Walker market is a little quiet with sight-unseen activity at Bid for most dates lightening up as you venture to the fringes of the Mint State spectrum with Superb Gem decisively more silent than MS61 where much activity near Bid is still present.

Proofs show a few declines limited to Mercury Dimes in Choice on through Gem but nothing too serious.

UPDATE!

The CAC sticker helps to identify a quality coin.

CAC Stickers Do Not Add Value!

Then why do CAC-stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the CAC sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over ^{^ 650,000} ~~550,000~~ coins with a market value over ^{\$ 2.9 billion} ~~\$2.4 billion~~. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC-stickered coins bring a premium - they are placed only on quality coins.

CAC is a powerful market maker for its stickered coins. What's more, CAC provides liquidity to the market, having purchased coins in excess of ~~\$340,000,000~~ since its inception.

^{^ \$375,000,000} So, the CAC sticker does not add value - it is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.
